NOTIFICATION.

POST-GRADUATE RESEARCH SCHOLARSHIPS, 1911.

1. Two post-graduate Research Scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only, will be awarded early in the year 1911.

2. No candidate will be considered who has not passed the M.A., the M.D., the D.L. or the Master in Engineering Examination of the Calcutta University in 1908, 1909 or 1910. No candidate will be considered who is not possessed of high qualifications, and who cannot show that he has a capacity for original research.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some scientific subject, such as Natural and Physical Science, Chemistry, Mathematical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as a Language, Comparative Philology, Palæography, Epigraphy, Philosophy, History, Archæology, Anthropology, etc.; but no application for a scholarship for research in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear, by the programme which he submits, that he has thought out a definite course of inquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, both the scholarships may be awarded for scientific research.

4. All applications must be submitted, through the head of the institution in which the candidate read last, so as to reach the undersigned on or before the 31st January 1911.

5. Application forms may be had from the Personal Assistant, Office of the Director of Public Instruction, Writers' Buildings, Calcutta.

G. W. KÜCHLER,
Director of Public Instruction, Bengal.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

WITH reference to Government Notification No. 4305, dated 23rd November 1909, calling for text-books required in accordance with the new syllabus for Standards III-VI, it is hereby notified that none of the books in geography submitted for approval has been found to conform satisfactorily to the requirements of the new syllabus. The following books in geography are therefore required:—

In *Bengali*, *Hindi*, *Urdu* and in *Uriya*—

A geography book for Standards III and IV.—English translations should accompany the text-books submitted for examination.

A geography book for Standards V and VI.—English translations should accompany the text-books submitted for examination.

In the case of the subjects and in the vernaculars noted below, either books were not submitted or those submitted were found to be unsuitable. The following are therefore required:—

Drawing book for Standard IV.
Ditto ditto V.

In *Hindi*—A text book on Mensuration for Standards V and VI.—For teachers only.

In *Uriya*—A text-book on Mensuration for Standards V and VI.—For teachers only.

In *Urdu*—

A vernacular literary reader for Standards III and IV. A prose and verse reader in two parts containing about 160 pages (double crown, 16 mo., in pica); the first part for Standard III with 65 pages of prose and 15 pages of poetry; the second part for Standard IV with 65 pages of prose and 15 pages of poetry.

A vernacular literary reader for Standards V and VI. A prose and verse reader of about 200 pages (double crown, 16 mo., in pica) in two parts: the first part for Standard V with 75 pages of prose and 25 pages of poetry; the second part for Standard VI with 75 pages of prose and 25 pages of poetry.

An elementary vernacular Grammar for Standard IV—about 32 pages.

A vernacular Grammar for Standards V and VI—about 60 or 70 pages.

*An arithmetic book in two parts for Standards III and IV.
*Ditto ditto ditto V and VI.

A history book for Standards III and IV—a text-book of about 40 stories with illustrative maps.

A history book for Standards V and VI to contain a detailed treatment of the British period of Indian History.

A text-book on Geometrical Drawing for Standards III and IV.—For teachers only.

A text-book on Geometrical Drawing for Standards V and VI.—For teachers only.

A text-book on Mensuration for Standard IV.—For teachers only.

A text-book on Mensuration for Standards V and VI.—For teachers only.

The books should in each case be written in close conformity with the requirements of the new syllabus and in view of the instructions contained in the introductions to the various sections thereof.

The price of the books required will be regulated by the prevailing rate of one anna for each 32 pages of printed matter.

Intending authors are invited to submit their books not later than the 15th of June 1911.

G. W. KUCHLER,
Director of Public Instruction, Bengal.

CALCUTTA,
The 19th December 1910.

* *N.B.*—The answers portion must be bound separately and offered for sale to teachers only.

Note—While the *prescription* of a graduated series of writing books and a text-book on Mensuration for pupils is not deemed essential, it is considered that these productions would prove most useful.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

AUSTRALIA, EAST COAST—Lucinda Bar.

South entrance to Hinchinbrook channel—Alteration of leading beacons.

No. 553 (second publication).—The Portmaster, Brisbane, has given Notice (No. 10 of 1910) that, on and after the 29th November 1910, the Leading Beacons which mark the Channel across Lucinda Bar will be moved to the Southward to a point 1½ miles south of Lucinda Point, and will lead across the Bar bearing S. 30° W.

Vessels entering will, on and after the above date, pass about a cable *North* of the Fairway buoy (instead of to the Southward of it as hitherto), and bring the new lead in line bearing S. 30° W., passing a black buoy, which marks the extreme of the Southern Spit, on the port hand and round the elbow red buoy on the starboard hand, bringing the Dungeness lead in line as hitherto.

Vessels outward bound running down the Dungeness lead should leave that lead before the Bar beacons come quite on, and rounding the red buoy bring the Bar lead on.

The new Bar beacons lead through the centre of the present channel in 10½ feet at L.W.S., giving 5½ feet more than hitherto.

Charts affected.—Nos. 2349 and 1948; Australia Directory, vol. II.

The edge of the channel is about sixty feet South of the No. 6 beacon.

The correct soundings will be shown in the next issue of the chart.

This affects Admiralty charts Nos. 2389b, 1750, and 1752.

The 14th December 1910.

SOUTH AFRICA—Province of Cape of Good Hope.

RESOLUTION ON THE ANNUAL PROGRESS REPORT OF THE FOREST ADMINISTRATION IN THE PROVINCE OF BENGAL FOR THE YEAR 1909-10.

REVENUE DEPARTMENT—FORESTS.

Calcutta, the 31st December 1910.

RESOLUTION—No. 3298For.

READ—

The annual progress report of the Forest Administration in the Province of Bengal for 1909-1910.

Read also—

The corresponding report of the previous year and the resolution of Government thereon.

Mr. G. S. Hart held charge of the Bengal Forest Circle throughout the year with the exception of five days in June 1910, when his successor Mr. Trafford officiated as Conservator. The report which has been drawn up and submitted by Mr. Trafford is both complete and interesting. The

protection and reservation of forests, changes in forest areas, and the development of communications are among the most important of the subjects dealt with. Several measures of importance have received the consideration of Government during the year under review. The orders of the Government of India are awaited on proposals to introduce a time-scale of pay for extra Assistant and extra Deputy Conservators, and also on the question of the reorganization of the forest classes at Dehra Dun.

2. *Changes in area.*—There has been a net decrease of 1,243 acres in the area of reserved forests. This decrease would have been greater had it not been that the area of the Singhbhum Forest Division was increased by 5,018 acres, by the addition of a group of revenue villages and two blocks of Protected forest, a course which was found to be necessary in order to improve the boundary of the Reserved forests and to avoid the annual upkeep of an unnecessary length of boundary. Six thousand and two hundred acres of the Tista Forest Division were placed at the disposal of the Cinchona Department for the extension of cinchona cultivation.

3. *Communications and Buildings.*—Less progress was made during the year under review, than during the preceding year, in constructing new lines of communication and thereby opening out the forests through which they pass. For this decrease the Singhbhum Division was responsible, owing mainly to want of the establishment necessary to look after the construction of new roads, which are now reaching the remoter parts of the forests and are consequently not easily supervised. Revised programmes for the more rapid construction of roads and buildings in the Tista and Puri Divisions for the next five years were drawn up during the year and sanctioned by Government. In the Sunderbans Division an effort was made to open out water communications which frequently become obstructed. The expenditure on new buildings shows a considerable increase over the figures of the preceding year, the amount spent being Rs. 29,318 against Rs. 10,276 spent in 1908-09 and Rs. 22,364 in 1907-08.

4. *Protection of Forests: Breaches of Forest Law.*—It is satisfactory to note that the number of offences reported is less by 38 than the average for the three preceding years. The total number of cases taken into court was 175 or 74 less than in the previous year. Of these, 173 cases concerning 578 persons were disposed of, 145 cases resulting in conviction and the rest in acquittal. In most divisions the variations in the numbers of cases reported are slight. Severe measures were taken against illicit poaching of deer in the Sunderbans, an offence which it is difficult to prevent.

5. *Forest Fires.*—Forest fires caused extensive damage in the plains divisions during the year under review, owing, it is said, to the lateness of the monsoon. Sambalpur suffered the most. In Singhbhum 8,233 acres were burnt as compared with 799 acres in the previous year. The increase in the burnt area is considerable; but as the fire destroyed only 1·7 per cent. of the whole forest, and that during a year when forest fires were particularly prevalent, the loss is not so serious as might have been expected. In the areas under special protection 57 outbreaks of fire were reported, of which 18 are reported as having been caused by intention or malice. In Angul no less than 3,690 acres were swept by fire This fire entered from the adjoining Native State of Rairakhol and burnt an area of 3,440 acres of the Kunloi block in the Durgapur Range. The Lieutenant-Governor in Council is glad to observe that the arrangements made in recent years for joint action in this respect between the Forest Department and the rulers or managers of neighbouring Native States have worked well. Arrangements with the Nepal Darbar for the clearing of a joint fire line from Manibhanjan to Phalut along the Singalila forests of the Darjeeling Division were completed during the year.

6. *Protection from Cattle and against injuries from natural causes.*—The area of the reserved forests open to the grazing of all animals remained unchanged. With the exception of 142 square miles in the Tista Division and 4 square miles in Palamau, the entire reserved forest area in the province was closed to the grazing of goats and sheep. Great havoc was caused in the Sunderbans Division by the cyclone of 1909, which is reported to have damaged millions of trees. The destruction was necessarily most severe in

areas in which thinnings had been made in recent years. The damage done by wild elephants in the Tista Division was considerable, while that done in Angul has decreased to an appreciable extent in consequence of the Khedda operations undertaken by Government in that district. Unfortunately it has been difficult to find a ready market for the animals captured; sales have been few and the sale proceeds have not covered the expenditure, so that from a financial point of view the operations cannot be said to have been a success. The question of continuing or abandoning these operations is at present under the consideration of Government.

7. *Financial results.*—The cyclone was responsible for a decrease of revenue in the Sunderbans Division. Angul continues to be worked at a deficit. The total receipts during the year amounted to Rs. 11,27,230 and the expenditure to Rs. 6,02,031, shewing a net revenue of Rs. 5,25,199 against Rs. 6,20,442 in the previous year. The figure recorded in 1908-09 is, however, exceptionally high. The revenue obtained during the year under review compares favourably with the average yearly revenue during the quinquennial period ending 1908-09, while the percentage of revenue spent during 1909-10 fell to 53·4 from the percentage of the quinquennial period—54·7.

The thanks of the Lieutenant-Governor in Council are due to Mr. Hart for his efficient administration of the Department and to Mr. Trafford for his interesting report.

REVISED CODE OF REGULATIONS FOR EUROPEAN SCHOOLS, BENGAL, 1910.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 2nd January 1911.

RESOLUTION—No. 2.

READ—

Resolution by the Government of Bengal, General Department, No. 2332, dated the 25th June 1910 and the replies thereto.

THE revised Code of Regulations for European Schools in Bengal was published for general information with this Government's Education Resolution No. 8051, dated the 24th November 1908. It was contemplated at the time that the new Code should be brought into effect at the beginning of the year 1910. In view, however, of adverse criticisms and representations its introduction was temporarily deferred until the points at issue could be fully considered. Some of the objections urged were *prima facie* reasonable. At the same time it was obvious that they could be removed by the modification of specific articles of the Code, and that no alteration of its main features was necessary. The Code was accordingly modified in parts, and the proposed amendments were published for general information with Resolution No. 2332, dated the 25th June 1910. At the same time managers of schools and all bodies and individuals interested in European education in Bengal were invited to offer their opinion on the changes proposed in addition to any suggestions which, while not opposed to the main principles of the Code, would be likely to lead to improvement in detail.

2. A cordial response was made to this invitation from various quarters. The modifications proposed were generally approved, and much valuable and suggestive criticism was offered. A part of the criticism was directed against the principle of classification of schools as elementary and secondary schools. This question had been decided two years ago after the most careful consideration and consultation with practical educationists; and the Lieutenant-Governor in Council does not consider that a fundamental change in the principle of classification would be justified. Criticisms and suggestions on points of detail have, however, received the fullest and most careful consideration, and the Code has now been finally amended in the light of many of the opinions received.

3. The question of the revision of the Code has been under consideration since the year 1902. The revised Code published in 1908 embodied the results of the deliberations of experienced educationists thoroughly conversant with the conditions of European education in Bengal. It has now been amended in various particulars in view of the representations and criticisms received by Government. The Lieutenant-Governor in Council has much pleasure in acknowledging the courtesy and candour of all who have so readily responded to the Resolution of the 25th June 1910, and trusts that the Code as now amended will advance the best interests of European education in Bengal, and that managers of schools and others interested in the matter will heartily co-operate to make the new scheme a success. The Lieutenant-Governor in Council now directs that the amended Code of Regulations for European schools shall be brought into effect from the beginning of the year 1911.

ORDER—Ordered that the Resolution together with the revised Code be published in the *Calcutta Gazette;* that a copy be submitted to the Government of India for information; and that a copy be forwarded to the Director of Public Instruction, Bengal, for information and guidance.

Ordered also that a copy be forwarded to the Accountant-General, Bengal, through the Financial Department.

By order of the Lieutenant-Governor in Council,

J. CUMMING,
Secretary to the Govt. of Bengal.

REVISED

CODE OF REGULATIONS FOR EUROPEAN SCHOOLS, BENGAL, 1910.

CHAPTER I.

PRELIMINARY.

Corresponding articles of the revised Code, 1905.

1. A sum of money is annually granted by the Local Government for European education in Bengal. The object of the grant is to aid local exertion in maintaining efficient schools for European children, and institutions for training teachers for such schools. This grant is administered by the Education Department of the Local Government, hereinafter called the Department. 1

2. The term "European" in this Code signifies any person of European descent, pure or mixed, who retains European habits and modes of life; but the Local Government shall in all cases of doubt decide the proper application of the term. The term "Director" signifies the Director of Public Instruction, Bengal, and the term "Inspector" signifies the Inspector of European Schools, Bengal. The Director may authorise any Inspectress of Schools to assist the Inspector in the work of supervision of European Schools in which girls are taught. In any such case, however, the Inspector will still remain the officer responsible to the Department in respect of such schools. Subject to the limitation indicated, the term "Inspector" includes an "Inspectress of Schools." 2

The Local Government may, at its discretion, admit to any or all the benefits of this Code any school in which the system of education is the same as or approximates to that prescribed in this Code, or which wishes to adopt such a system, and of which the scholars in respect of habits and mode of life approximate to scholars of European Schools.

3. A list of recognised schools is kept by the Department. Any school seeking recognition must satisfy the Department that it is actually wanted; that its financial stability is assured; that its managing body, when there is one, is properly constituted; that it teaches the proper subjects up to a proper standard; that due provision has been made for the instruction, health, recreation, and discipline of the pupils; that the teachers are suitable as regards character, number and qualifications; and that the fees to be paid will not involve such competition with any existing school as will be unfair and injurious to the interests of education. 3

4. Only those schools which are recognised are eligible to send up pupils to the examinations referred to in Chapter IX, or to receive scholars who hold Government scholarships, or to share in any other benefits of this Code. 4

5. Every school to which aid is given shall be under the management of a governing body, hereinafter called the managers, who shall be responsible for the maintenance and control of the school, and for the fulfilment of all the conditions upon which the grant is made. The managers of a school must appoint a correspondent with the Department, who must in every case be approved by the Department. In communicating with the Department, the correspondent should invariably address the Inspector. 5

6. Every school aided by Government in any form whatever under the provisions of this Code shall be conducted in accordance with the following regulations:— 6

(*a*) It shall not be required, as a condition of any child being admitted into or continuing in the school as a day-scholar, that he shall attend or abstain from attending any Sunday school or any place of religious worship; or that he shall attend any religious observance or any instruction in religious subjects in the school or

Corresponding articles of the revised Code, 1906.

elsewhere, from which observance or instruction he may be withdrawn by his parent; or that he shall, if withdrawn by his parent, attend the school on any day exclusively set apart for religious observance by the religious body to which his parent belongs.

(*b*) The time or times during which any religious observance is practised or instruction in religious subjects is given, at any meeting of the school, shall be either at the beginning or at the end or at the beginning and the end of such meeting, and shall be inserted in a time-table to be kept permanently and conspicuously hung up in every school room; and any day-scholar may be withdrawn by his parent from such observance or instruction without forfeiting any of the other benefits of the school.

(*c*) The school shall be open at all times and in all its departments to the Inspector, but it shall be no part of his duties to enquire into any instruction in religious subjects given at such school, or to examine any scholar therein in religious knowledge, or in any religious subject or book.

7 7. No grant is made—

(*a*) on account of instruction in religious subjects;
(*b*) to any school which is not subject to the inspection of the Department;
(*c*) on account of non-European scholars who have not adopted European habits of life or of scholars under three years of age;
(*d*) to any school in which the number of non-Europeans exceeds 15 per cent. of the total number of scholars, or such smaller percentage as the Local Government may, by special order, prescribe for any particular school or place;
(*e*) to any school with an average daily attendance of less than 25 European scholars, except in places where there is only a small European population, or where in the opinion of the Department such a school is necessary;
(*f*) to any school or section of a school which the Department declares to be unnecessary, or unsuited to the requirements of the locality;
(*g*) to any school the income of which from all sources is sufficient, in the opinion of the Department, to maintain it in efficiency;
(*h*) to any school which is conducted for private profit; and
(*i*) to any school which is farmed out by the managers to a teacher or teachers.

NOTE 1.—A school is "farmed out" to a teacher, if the fees are handed over to him to make what profit he can out of them. This applies to boarding as well as to day-schools.

2.—To any school now receiving a grant under the Code, which would be debarred from such grant by the operation of clause (*h*), this clause shall not apply so long as the school remains in the possession of its present proprietors.

8 8. When a school desires a grant-in-aid, an application shall be made to the Department in the prescribed form (Appendix I), giving the following particulars:—

(*a*) Grade of school (*vide* Chapter II).
(*b*) Names, salaries and qualifications of the teachers.
(*c*) Number of scholars in each class.
(*d*) Scale of fees, class by class.*
(*e*) Probable annual income from all sources, other than the grant.
(*f*) Proposed annual expenditure.
(*g*) Names of the managers and the correspondent.

* NOTE.—Non-European scholars in respect of whose attendance or instruction a grant-in-aid is drawn under the provisions of this Code shall be charged fees at no higher rates than European scholars of the same school and at the same stage of instruction.

9 9. Should the Inspector report favourably on the school after seeing it, the Department will inform the managers from what date the school will be

Corresponding articles of the revised Code, 1905.

regarded as coming under this Code, and the amount of grant temporarily awarded. If the application is rejected, the grounds of rejection shall be notified by the Department to the managers.

10. The amount of the temporary grant referred to in the preceding article shall be the amount which, in the judgment of the Inspector after visiting the school, it would be likely to receive under the ordinary rules and shall be paid monthly. As soon as the permanent character of the school is established, it shall be made subject to the provisions of Chapter V. 10

11. The Inspector may visit an aided school at any time with or without notice. Unaided schools which are recognised or desire recognition are subject to such inspection as may be necessary in order to satisfy the Department of the observance of the conditions stated in article 3. 11

12. The interpretation of any article in this Code shall rest with the Department. 12

13. The Local Government may cancel or modify any articles or appendices of this Code, or may introduce new articles or appendices. 14

CHAPTER II.

GRADES OF SCHOOLS.

14. All recognised schools shall be placed in one or other of the four following grades:— 15

(1) Elementary.
(2) Higher Elementary.
(3) Secondary.
(4) Higher Secondary.

15. An elementary school is one which, in the opinion of the Department, is competent to teach the curriculum of studies prescribed for elementary schools in this Code, or such modification of it as the Department may from time to time accept as sufficient for the purposes of an elementary education. 16

A higher elementary school is one which, in addition to the curriculum prescribed for elementary schools, teaches one or other of the practical courses given in Appendix III.

16. A secondary school is one which, in the opinion of the Department, is competent to teach the curriculum prescribed for secondary schools in this Code, or such modification of it as the Department may from time to time accept as sufficient for the purposes of a secondary education, and which makes provision for the four classes constituting the general school as defined in article 20. 16

A higher secondary school is one which carries the teaching of the secondary courses to a higher standard and makes provision for the two classes constituting the upper school as defined in article 20.

17. In grading a school, the Department will take into consideration— 17

(*a*) the standard up to which there is a real, and likely to be a permanent, demand for instruction in the school; and

(*b*) the competence of the school staff to teach up to that standard, and its sufficiency for the number of classes in the school. As a general rule, the staff will be regarded as insufficient, if any teacher is required to instruct more than 30 scholars, or more than two classes, at one and the same time.

18. A complete elementary school shall contain an infant class and 6 other classes. The classes shall be arranged as follow:— 18 & 19

(*a*) The infant class (approximate ages, 5 to 8 years).
(*b*) Class I (ditto 8 to 9 „).
(*c*) „ II (ditto 9 to 10 „).
(*d*) „ III (ditto 10 to 11 „).
(*e*) „ IV (ditto 11 to 12 „).
(*f*) „ V (ditto 12 to 13 „).
(*g*) „ VI (ditto 13 to 14 „).

19. To obtain recognition as an elementary school, it is not essential that provision should be made for all the classes named in article 18, though the 18 & 19

Rules &c. classes of all recognised elementary schools must be arranged on these lines. A school might, for example, decide not to admit scholars below the age of 8, in which case it would not require an infant class. Similarly, one school might find it desirable to provide instruction for the four highest classes only, while another school might be called upon to provide for the infant class and the three lowest classes. Either of these schools would be eligible for recognition as an elementary school, but a school which does not teach up to the end of the sixth class will be regarded as imparting a course of elementary instruction, admittedly incomplete, with a view to preparing its scholars for further instruction elsewhere. No certificate of any kind will, however, be awarded to any scholar who has not gone through the whole of the prescribed curriculum, or such modification thereof as the Department may from time to time accept as sufficient for the purposes of an elementary education (articles 15, 24 and 25).

9 20. A complete higher secondary school shall consist of 3 sections and 10 classes in addition to the infant class. The arrangement of the classes shall be as follows:—

(1) The preparatory school (approximate ages, 5 to 12 years).

(*a*) The infant class. | (*c*) Class II.
(*b*) Class I. | (*d*) „ III.
(*e*) Class IV.

(2) The general school (approximate ages, 12 to 16 years).

(*f*) Class V. | (*h*) Class VII.
(*g*) „ VI. | (*i*) „ VIII.

(3) The upper school (approximate ages, 16 to 18 years).

(*j*) Class IX. | (*k*) Class X.

9 21. To obtain recognition as a secondary school, it is not essential that a school should provide a preparatory section, nor, in the event of a preparatory section being provided, is it necessary that it should contain four classes and an infant class. If a secondary school, for example, decides not to admit pupils before the age of eight, it will not require an infant class. Similarly, if it restricts its admissions to pupils of or over ten years of age, it will probably not require more than two classes before the general school stage. The essence of a secondary school is that it should provide a systematic and complete scheme of instruction definitely in advance of the elementary and suitable for children from about the age of 12 upwards. Such a scheme cannot be considered as sufficient, unless it extends over a period of at least four years. Consequently, no school can be recognised as secondary, unless it provides at least a complete general section, as fixed by the classification prescribed in article 20.

22. If the circumstances of a school change, its grading may be altered by the Department.

CHAPTER III.

Promotion of scholars.

23. Promotions from class to class and from one section of a school to another, shall be left to the discretion of the teachers and managers, subject to the general control of the Inspector.

CHAPTER IV.

Courses of study.

5 24. In order to be recognised as an elementary school, a school must, subject to the provisions of articles 25 and 26, show to the satisfaction of the Department that it is capable of providing efficient instruction in the following subjects:—

(1) Reading.
(2) Writing.

(3) Arithmetic.
(4) English composition.
(5) English grammar.
(6) English poetry and literature.
(7) Elementary Nature study.
(8) Geography.
(9) History.
(10) Drawing.
(11) An Indian vernacular (article 26).
(12) Manual Instruction, including, in the case of girls, needle-work and the elements of housewifery.
(13) Music (class-singing).

Corresponding articles of the revised Code, 1905.

25. The instruction given in each of the subjects named above shall be on the lines laid down in Appendix II. Subject to the proviso contained in article 26, the teaching of each of the subjects named in article 24 is not an indispensable condition of recognition; but a school, wishing either to omit from its curriculum one or more of the subjects prescribed or to substitute for one or more of the subjects prescribed another subject or other subjects, must satisfy the Department that the omission or substitution proposed is either unavoidable or in accordance with the best interests of its pupils. — 22 to 25

26. All recognised elementary schools are required to provide instruction in an Indian vernacular for all the boys in classes IV to VI (inclusive). Instruction in an Indian vernacular is not compulsory in the case of girls studying in elementary schools, but the provision of such instruction is to be regarded as desirable. — 22 to 25

27. In addition to the curriculum outlined in article 24 above, an elementary school may, if it wishes, provide instruction in one or more of the supplementary practical courses, which are given in Appendix III. No recognised school will, however, be allowed to offer instruction in any of these courses, unless it can show to the satisfaction of the Department that there is a demand for this supplementary instruction, and that it can be carried on efficiently and without prejudice to the work of the institution as an elementary school. No scholar who has not passed the elementary school final examination (articles 90 to 93) shall be admitted to any of these supplementary courses without the express permission of the Inspector. — 22 to 25

28. In order to be recognised as a secondary school, a school must, subject to the provisions of articles 29 to 31, satisfy the following conditions:— — 22 to 25

(*a*) In the event of there being a preparatory section, the school must show to the satisfaction of the Department that it is capable of providing for the scholars of this section efficient instruction in the following subjects:—

(1) Arithmetic.
(2) English.
(3) History.
(4) Elementary Nature study.
(5) Geography.
(6) Drawing.
(7) A modern European language or an Indian vernacular (article 31).
(8) Practical Geometry.
(9) Music (Class-singing).

N.B.—The syllabus of studies above outlined does not take into account the infant class. The curriculum of an infant class in a secondary school as well as of the preparatory section [so far as subjects (1) to (5) and an Indian vernacular are concerned] will follow the lines laid down in Appendix II for elementary schools.

(*b*) The school must show to the satisfaction of the Department that it is capable of providing for the scholars of the general section efficient instruction in the following subjects:—

(1) English.
(2) Latin (optional for girls' schools).

Corresponding articles of the revised Code, 1908.

(3) A modern European language or an Indian vernacular (article 31).
(4) Mathematics.
(5) History.
(6) Geography.
(7) Science—Any two of the following four branches:—
  (*a*) Elementary Botany.
  (*b*) Elementary Physics.
  (*c*) Elementary Chemistry.
  (*d*) Elementary Physiology (including Hygiene).
(8) Drawing.
(9) Music (Class-singing).
(10) Manual Instruction, including, in the case of girls, needle-work and the elements of housewifery.

N.B.—Science teaching will not be considered efficient, unless every pupil receiving instruction in it is adequately provided with the means of doing practical work. Similarly, manual instruction will not be considered efficient, unless a duly trained teacher and a properly equipped workshop are provided for such instruction.

22 to 25 29. The lines on which instruction in these subjects shall proceed shall be left to the discretion of teachers and managers, subject to the general control of the Inspector. The curriculum of the upper section of a secondary school will be left to the discretion of teachers and managers, subject to the general control of the Department. On the completion of the general school curriculum, pupils may be allowed to specialise in commercial or technical subjects, but no scholar who has not completed the curriculum of the general school and obtained the Cambridge junior school certificate (article 95 *et seq.*), or its equivalent, shall be allowed to receive such instruction without the express permission of the Inspector.

22 to 25 30. The teaching of every subject mentioned in article 28 (*b*), or in the case of a school with a preparatory department, of every subject mentioned in article 28 (*a*) and (*b*), is not an indispensable condition of recognition; but a school, wishing either to omit from its curriculum one or more of the subjects prescribed, or to substitute for one or more of the subjects prescribed another subject or other subjects, must satisfy the Department that the omission or substitution proposed is either unavoidable or in accordance with the best interests of its pupils.*

* *Note.*—The teaching of science in secondary or higher secondary schools, though desirable, will not be considered obligatory by the Department for the present.

22 to 25 31. All secondary schools for boys are required, as a condition of recognition, to provide efficient instruction in an Indian vernacular in all classes from class IV to class X (inclusive); but in the case of boys who are proceeding to England for further education, a modern European language may, with the permission of the Inspector, be substituted for an Indian vernacular in classes VII to X (inclusive). Instruction in an Indian vernacular is not compulsory in the case of girls studying in secondary schools, but the provision of such instruction is to be regarded as desirable.

CHAPTER V.

GRANTS-IN-AID.

SECTION I.—GENERAL.

26 32. Grants-in-aid are of the following kinds:—
(*a*) Ordinary grants, based on attendance.
(*b*) Supplementary grants, where ordinary grants are insufficient.
(*c*) Fixed grants, to take the place of ordinary and supplementary grants.
(*d*) Boarding grants for orphans, the indigent, and for the poor in places where schools are not available.
(*e*) Cadet grants.

(*f*) Special grants.
(*g*) Grants to night schools.
(*h*) Building grants.

Corresponding articles of the revised Code 1905.

33. Special grants (Section VIII) and building grants (Section X) are payable at whatever time and in whatever manner may in each case be determined. Ordinary grants (Section III), boarding grants, etc. (Section VI) cadet grants (Section VII) and grants to night schools (Section IX) are annual grants for the year beginning on the 1st April, and are payable to the school in one sum on or after the 1st April, unless otherwise ordered by the Department. A supplementary grant (Section IV) may, at the discretion of the Department, either take the form of an annual grant payable in one sum on or after the 1st April, or of a monthly grant payable at the close of each month. Fixed grants are specially provided for in article 45. 27

34. Grants may be reduced or withheld for sufficient reason shown in the Inspector's report. A copy of the Inspector's report shall, in such cases, be communicated to the managers, who shall have an opportunity of making to the Department such representations as they may desire. 28

35. If the amount payable under Section III of this chapter exceeds the income of the school from all sources other than Government grants, it shall be reduced by the amount of that excess. 29

NOTE—In calculating the income of the school under this article, boarding fees shall not be included.

SECTION II.—CONDITIONS OF AID.

36. No grant will be given to any school that does not conform to the rules of this Code. 30

37. Grants are continued to such schools only as satisfy the following conditions:— 31

(*a*) That the school is conducted in accordance with article 6 of this Code

(*b*) That the school premises are properly drained and healthy in other respects; that the buildings are well constructed and safe; that the rooms are properly lighted, ventilated, and (if need be) warmed, and that they are, as far as possible, well arranged for teaching; that in the case of boarding schools, proper arrangements are made for boarders; that the school is provided with all necessary offices, and that these and the premises generally are kept clean; that it contains sufficient accommodation for the scholars attending the school.

NOTE—(1)—The inspector may call upon the civil surgeon to furnish him with a report upon the sanitary arrangements of the school.

(2)—Rooms used for teaching purposes should provide 12 square feet per scholar where only one class is taught, and 16 square feet per scholar where more classes than one are taught in the same room; the calculation being made for each room on the average daily attendance of scholars taught in that room. The average daily attendance for any period is found by adding together the attendance of all scholars for that period, and dividing the sum by the number of full meetings within the same period, the quotient being the average daily attendance.

(3)—Not less than 50 square feet of floor space must be provided for each pupil in the dormitories. When a boarding school or dormitory is hereafter erected with the aid of a building grant, the internal space provided for each boarder must be in accordance with the measurement stated in this article.

(*c*) That the school is properly equipped with furniture, books, maps, and other apparatus, including a complete set of class books for each teacher, supplied from school funds.

(*d*) That efficient provision is made for physical training, which shall, in boys' schools, fit pupils to join a cadet corps.

(*e*) That the staff of teachers is sufficient and competent, and qualified under the rules.

(*f*) That the studies are conducted in accordance with a time-table, of which a copy shall be submitted to the Department for approval as to the subjects of study and their arrangement. Any important change in the time-table must be communicated to and approved by the Department.

NOTE.—The time-table must show fully the work of the school, the times at which each subject is taught in the different standards, and the distribution of work among the teachers. A time-table for each class must be hung up in the class-room in a conspicuous place.

Corresponding articles of the revised Code, 1905.

(*g*) That scholars are satisfactorily taught in accordance with the provisions of Chapter IV.

(*h*) That the organization and discipline of the school are approved by the Inspector.

(*i*) That fees are levied from the scholars, except in the case of recognised orphanages and free schools.

NOTE.—Schools shall only be considered efficient when they satisfy the conditions laid down in article 37 (*b*), (*c*), (*d*), (*e*), (*f*) (*g*) and (*h*)

32 38. Should an aided school cease to be efficient, the manager shall be warned of the fact, and the grounds on which it is considered to be inefficient fully stated. A reasonable time, to be determined by the Department, shall then be allowed for improvement, after the lapse of which further Government aid will be withheld should the school be still inefficient.

33 39. Every school receiving a grant shall comply with the following requirements:—

(*a*) Any change in the constitution of the governing body, or any addition to or reduction in the school staff, shall be at once reported to the Department. In the case of a change of correspondent, the out-going correspondent must at once inform the Department of the name of his successor.

(*b*) All returns called for by the Department shall be duly made.

(*c*) The admission, daily attendance, and withdrawal of the scholars shall be entered by, or under the supervision of, the principal teacher.

(*d*) Accounts of income and expenditure shall be kept by the managers in a form prescribed by the Department, and shall be submitted to the Department annually. The managers shall submit the accounts of the school to such conditions of audit as the Department shall from time to time impose.

(*e*) The school shall be open to inspection throughout all its departments, in order that the inspector may satisfy himself that the conditions specified in article 37 are complied with.

SECTION III.—ORDINARY GRANTS.

34 40. To be entitled to the full ordinary grants under this section, a school shall have held not less than 380 full school meetings during the school year, which shall be the calendar year. If a school has held less than 380 full school meetings, a proprotionate reduction shall be made in the grants, except in the case where a full year has not elapsed since the school was placed under the Code.

35 41. By a "full school meeting" is meant a period of two hours of continuous secular instruction. In the infant class of a school, a period of one hour and-a-half of secular instruction shall be considered as a full school meeting. In no case may more than two school meetings be counted on the same day.

36 42. By the term "ordinary attendance" in the following articles shall be understood "the average attendance at 350 of the best attended school meetings during the calendar year (January to December) last completed, unless the Department declares that it shall mean 'the average daily' attendance during the school year."

NOTE—(1) Attendances may not be reckoned either for non-Europeans who have not adopted European habits of life, or for scholars under three years of age.

(2) Scholars who are necessarily absent from a school meeting for attendance at any public examination at class firing or at battalion drill, may be credited with attendances at such school meeting.

37 43. The following are the scales for the calculation of ordinary grants:—

A.—For the ordinary grant to the infant class of elementary and secondary schools.

	Rs.
For each of the first ten scholars in ordinary attendance ...	20
Ditto second ditto ditto ...	15
Ditto remaining scholars in ordinary attendance ...	10

B.—For the ordinary grant to classes I to IV (inclusive) of elementary and secondary schools. Corresponding articles of revised Code, 1905.

		Rs.
For each of the first twenty scholars in ordinary attendance	...	25
Ditto second ditto ditto	...	20
Ditto remaining scholars in ordinary attendance	...	15

C.—For the ordinary grant to classes V and VI of elementary schools.

		Rs.
For each of the first twenty scholars in ordinary attendance	...	40
Ditto second ditto ditto	...	30
Ditto remaining scholars in ordinary attendance	...	20

D.—For the ordinary grant to classes V and VI of secondary schools.

		Rs.
For each of the first twenty scholars in ordinary attendance	..	80
Ditto second ditto ditto	...	60
Ditto remaining scholars in ordinary attendance	...	40

E.—For the ordinary grant to classes VII to X (inclusive) of secondary schools and on account of scholars studying recognised supplementary courses in elementary schools.

		Rs.
For each of the first five scholars in ordinary attendance	...	120
Ditto second ditto ditto	...	90
Ditto remaining scholars in ordinary attendance	...	50

To the amounts calculated upon these scales an addition of ten per cent. is made.

Section IV.—Supplementary grants.

44. In addition to the grants mentioned above, supplementary grants may be made, on the recommendation of the Inspector, to any school for the efficient maintenance of which the ordinary grants are not sufficient. In considering the assignment of supplementary grants, the Department shall have regard to the improvement of the quality and pay of the teaching staff; and it shall be a condition of such grants that they shall not be applied to the reduction of fees or of voluntary subscriptions. 38

Section V.—Fixed grants.

45. Instead of the grants which may be payable under sections III and IV of this chapter, grants fixed in amounts for a term of years may be given to schools under conditions which shall be determined by the Local Government. 39

Section VI—(1) Boarding grants for European orphans and destitute European children, and (2) grants to children of the European poor in places where schools are not available.

46. A special grant of Rs. 8 per mensem for each child in addition to ordinary grants of all descriptions is made in aid of boarding charges to orphanages and schools which, in the opinion of the Department, provide an education suitable for children of these classes. The place of birth and residence shall not be taken into consideration in awarding such grants. 40

47. The following conditions govern the bestowal of this grant in the case of orphans and destitute children:— 41

(*a*) For every scholar on whose account a grant is claimed, a certificate must be obtained from the Magistrate of the district to which the child belongs certifying to its destitution. These certificates must be filed in the school for reference.

(*b*) No boy or girl over the age of 18 years shall be eligible.

(*c*) No scholar reading in classes VII to X of a secondary school shall be eligible for this grant, unless in exceptional cases sanctioned by the Department.

(*d*) Schools cannot claim this grant for military orphans for whom special military allowances are given (such children must, unless

Corresponding articles of the revised Code, 1906.

specially exempted, read in military asylums), or for children paid for from any other public or private funds.

42 48. In the case of children of the poorer classes of Europeans in out-of-the-way places where no suitable education is available, arrangements will be made by the Inspector for the education of such children at the nearest suitable school, the entire cost of such education or such part thereof as may be deemed necessary, and of conveyance to and from the school, being met by Government, provided that the necessity of this is certified by some responsible person to the satisfaction of the Department.

Section VII.—Cadet grants.

43 49. A grant may be given at the rate of Rs. 6 per annum for every cadet in the school who is certified by the Commanding Officer of the corps as efficient, and at the rate of Rs. 8 per annum for every cadet similarly certified as extra-efficient.

Section VIII.—Special grants.

44 50. Special grants may also be made, on the recommendation of the Inspector:—

(*a*) to schools in places where there is a small or poor European population;

(*b*) to schools newly established, or newly brought under this Code;

(*c*) towards the purchase of school furniture and apparatus, books for school libraries, etc.

(*d*) towards the purchase of appliances and materials for the teaching of manual instruction or handwork, drill and gymnastics, technical subjects, and such other special subjects as may be from time to time approved by the Department;

(*e*) towards the cost of instruction in any of the subjects specified in (*d*), provided that additional expenditure is incurred on that account and that the ordinary grant is considered insufficient;

(*f*) for any other reason which the Department may consider sufficient.

45 51. Every application for a special grant will be dealt with on its own merits, and according to the funds at the disposal of the Department, and shall be given subject to such conditions as the Department may impose.

46 52. The managers, must undertake to refund the amount of any grant made for furniture, apparatus or appliances, if the school ceases to exist within three years from the date of payment.

Section IX.—Grants to night schools.

47 53. Grants may be given to night schools for boys, provided that the scholars admitted to the schools are certified by the managers to be engaged during the day in some occupation which prevents them from attending a school.

48 54. The grants are given under the following conditions:—

(*a*) By a "full school meeting" is meant a period of not less than one hour of secular instruction.

(*b*) The number of full school meetings in the year must be not less than 80.

(*c*) A night school may adopt any graduated course of studies suitable to its requirements, subject to the previous approval of the Inspector.

49 55. Grants to night schools are calculated on the following scale:—

Rupees 15 for each of the first twenty scholars in average attendance.
,, 10 ditto remaining scholars ditto.

SECTION X.—BUILDING GRANTS.

Corresponding articles of the revised Code, 1905.

56. Grants may be given to managers of schools in aid— 50

(*a*) of erecting or enlarging school buildings ;

NOTE.—Expenditure on the purchase of buildings may be treated as expenditure on the erection of buildings.

(*b*) of executing extensive repairs ;

(*c*) in special cases, of paying off debts incurred in erecting or enlarging schools buildings ; and

(*d*) of acquiring land for school purposes.

57. Except in the cases provided for in article 56(*c*), no grant shall be given for a building regarding the erection or purchase of which the Department has not been consulted, or for which aid in full has not been promised previous to its erection, enlargement or purchase. 51

58. The sum to be allotted annually for building grants to schools will be fixed provisionally for a term of years. The amount will be notified by the Local Government to the Depatrment. It will not in ordinary circumstances be reduced, though it may be increased, for any year during that term. 52

59. Every application for a grant must be submitted to the Department in the prescribed form (Appendix IV). It must be submitted not later than the 1st of August, if the grant is to be admissible for payment in whole or in part during the following financial year. Every application must contain a certificate from the managers that the funds at their disposal will, when added to the grant applied for, be sufficient to meet the full cost of the work. If the grant is sanctioned, the managers will be informed by the 1st of October of the amount of aid which they will receive. If not so sanctioned, the reasons shall be notified to the managers. 53

60. When a grant is sanctioned, the managers shall be informed whether it will be payable in full from the allotment for the next year, or, if not, in what years and by what instalments. 54

61. In the case of an application for a grant for repairs under article 56 (*b*) the managers will be required to show that the necessity for such a grant has not arisen from the neglect of current repairs in previous years. 55

62. In making an application for a building grant, the managers shall undertake to execute a trust-deed in the standard form given in Appendix V, or in such other form as may be sanctioned by the Local Government. 56

63. Grants under this section shall not ordinarily exceed one-half of the total cost. In places where there is a small or poor European population, the maximum grant shall not exceed two-thirds of the total cost. 57

64. Before a grant is sanctioned under this section, the Department must be satisfied— 58

(*a*) that the European population of the locality is sufficiently large to render the existence of the school necessary, and to give a reasonable probability of its permanence ;

(*b*) that the school is suited to the requirements of the locality ;

(*c*) that the school is likely to be maintained in efficiency ;

(*d*) that the school will be conducted in accordance with the rules and regulations of this Code ;

(*e*) that the site and plans are suited to the school, and that the title to the property is clear ;

(*f*) that the plans, estimates and specifications have been approved by the Public Works Department.

65. The trust-deed must provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school, and must declare the building or the land, on account of which a grant is made, to be held in trust for school purposes only. 59

NOTE—(1) The execution of trust-deeds need only be insisted upon in the case of the erection or purchase of buildings, or, in other cases, where the Department considers such a document necessary.

(2) This rule does not preclude the managers from using the building for other purposes when not required for the purposes of the school.

Corresponding articles of the revised Code, 1905.

60 66. If any building, towards the erection, purchase or repair of which a grant has been made by Government, is subsequently diverted to other than educational purposes, Government shall have a prior lien upon the building for the recovery of the grant, and a provision to this effect shall be made in the trust-deed.

61 67. Advances may be made from time to time out of the sanctioned building grant on receipt of a report from the Public Works Department that the work is proceeding satisfactorily.

62 68. The building grant is not paid in full until—

(*a*) a report has been received from the Public Works Department certifying that the building has been satisfactorily completed in accordance with the approved plans and specifications; and

(*b*) that the trust-deed has been duly executed, registered and forwarded by the managers to the Department for safe-custody.

CHAPTER VI.

The employment of teachers.

63 69. In aided schools every paid teacher should be engaged under a written agreement with the governing body, terminable on either side with reasonable notice (one term's notice may be considered reasonable); and, while the agreement may provide that the power of suspending the teacher shall rest with the head master, the power of his dismissal should rest with the governing body. A teacher who considers himself unjustly dismissed should be permitted to make a representation to the Director, and the governing body should in such a case defer final action until they have received from the Director an expression of his views.

CHAPTER VII.

Transfer rules.

69 70. No recognised school shall admit a pupil without a transfer certificate from the last school which he attended; and in no case shall a scholar be permitted to attend a class pending formal admission.

70 71. The form of certificate is given in Appendix VI.

72 Transfers from elementary to secondary schools and *vice versa* are permissible.

71 73. Before any scholar is admitted, the parent or guardian shall be supplied with a copy of the school rules, clearly stating the fees which he will be called upon to pay, while the scholar remains in the school, and in case he leaves without notice. The copy thus supplied shall be signed by the head of the school on behalf of the managers. A similar copy, signed by the parent or guardian, should be preserved in the school.

72 74. All the fee rules of the school shall be printed on the back of the bill form.

73 75. Application for a transfer certificate must be made to the head teacher by the parent or guardian of the pupil. Whenever possible, he should apply in person; if he cannot do this, he should apply by letter.

74 76. The certificate must be either granted or refused on the day on which the application is received. The only ground on which it may be refused is non-payment of fees due. Refusals must be given in writing, and must state the amount and nature of fees due, and must be signed by the head teacher.

75 77. No transfer certificate is valid unless it is in the authorised form. Application for a duplicate certificate must be made to the Inspector. Should he authorise the issue of the certificate, a fee of Re. 1 shall be paid to the school for it.

76 78. If a scholar has been expelled from a school for misconduct, and a transfer certificate is called for and given, the certificate shall bear the words "expelled for misconduct."

Corresponding articles of the revised Code, 1906.

79. When a scholar is admitted on a transfer certificate, he shall not be placed in any class higher than that for which the certificate shows him to be qualified, nor shall he be promoted before the end of the school year, without the previous sanction of the Inspector. 77

80. All transfer certificates must be filed. They must be submitted to the Inspector at his visits. Each certificate shall bear a serial number, which shall be entered against the scholar's name in the admission register. 78

81. All questions arising between one school and another respecting the enforcement of these rules shall be referred to the Inspector, whose decision shall be final. 79

82. Wilful transgression of any of the foregoing rules will render an aided school liable to suspension, reduction or withdrawal of grant; to forfeiture of the right to send up pupils to the public examinations, and the right to hold scholarships; and in the case of a recognised unaided school to the loss of recognition and attendant privileges. 80

83. The rules in this chapter are inter-provincial. Each province will, therefore, annually supply the rest with a list of recognised schools. 81

CHAPTER VIII.

Records.

84. In every recognised school the following records in prescribed form must be maintained:— 82

(*a*) the latest edition of the Code of Regulations for European schools in Bengal;

(*b*) an admission register (Appendix VII);

(*c*) attendance registers;

(*d*) salary and scholarship acquittance rolls;

(*e*) a log-book, stoutly bound;

(*f*) a portfolio to contain official letters and documents.

85. The principal teacher must, from time to time, make entries in the log-book, showing the visits of managers, the progress of the various classes and other facts concerning the school or its teachers, such as the commencement of duty, cautions, illness, etc., which are likely to be required for future reference. Such communications from the Inspector as he may direct to be inserted in the log-book must be copied *verbatim* therein. 83

86. The only persons authorised to make entries in the log-book are the principal teacher and the Inspector. The log-book shall be kept in the custody of the principal teacher, but shall be open at all times to the inspection of the managers. No entry once made in the log-book may be removed, nor may it be altered otherwise than by a subsequent entry. 84

NOTE.—A visitors' book may be kept for the remarks of other persons visiting the school.

87. At the commencement of each calendar year, the name of every teacher who is to form part of the school staff for the year, and the distribution of the work among them, shall be entered in the log-book signed by the principal teacher. Any subsequent change in the staff, or in the distribution of the work, shall be recorded in the log-book. 85

88. The books of every school should be kept so as to show month by month the fee actually paid for each scholar; these entries should be verified by the auditor; and a nominal list should be prepared annually by each school and submitted to the Inspector showing the cases in which reductions have been made in the fees exacted; with a brief statement of the reasons, and showing what school (if any) the scholar has previously attended and what was the rate of fee paid for him there. 86

89. The Inspector is entitled to examine all school records at any time. 87

CHAPTER IX.

EXAMINATIONS.

Corresponding articles of the revised Code, 1906.

Elementary schools.

88 to 101 — 90. An examination will be held for the purpose of testing the attainments of the scholars of recognised elementary schools at the conclusion of their school career. This examination will be called the elementary school certificate examination.

88 to 101 — 91. The examination for the elementary school certificate shall be by written papers, and shall include all the subjects of the school curriculum. No scholar who has not been through a complete course may present himself at it. The examination should be of a simple character, and should be such as to test whether a candidate has been taught the subject intelligently and has, at the same time, derived substantial benefit from it. The papers shall be moderated at a meeting of the full Board of Examiners and the Inspector of European Schools. The standard of passing shall be determined by the Director of Public Instruction, in consultation with the Inspector of European Schools. As soon as the Department can make the necessary arrangements, the written examination will be supplemented by an oral examination to be held *in situ* in each school. For this purpose there shall be a Board of three persons, of whom two shall be appointed by the Department and the third shall be a teacher of the school nominated by the Inspector in consultation with the Principal or Head Master of the school.

92. The examiners shall arrange successful candidates in three groups:—

(*a*) those who satisfy the examiners;
(*b*) those who obtain second class honours; and
(*c*) those who obtain first class honours.

88 to 101 — 93. In submitting the results of the examination to the Department, the examiners shall specify the candidates, who have in their opinion done sufficiently well in any subject or subjects to be deserving of distinction therein. These distinctions, as also the subjects in which candidates have satisfied the examiners, shall be specified on the certificates.

88 to 101 — 94. *Supplementary courses at elementary schools.*—The Department will arrange that every scholar who has studied a complete supplementary practical course at a recognised elementary school, shall be tested at the close of the course as to his attainments therein. On the results of these tests certificates will be awarded. The arrangements for these tests will be notified hereafter.

Secondary schools.

88 to 101 — 95. Subject to what is stated in articles 98 to 100, the examinations recognised by the Department for the purpose of testing the attainments of scholars of recognised secondary schools at the end of their school career will be the Cambridge University Local Examinations for the award of junior and senior school certificates. In other words, these will be the school final examinations for pupils leaving school at the end of the secondary and higher secondary stages respectively. Pupils, however, may present themselves for examination for the junior school certificate, even though they may intend to go on to the classes of the upper school. The Department will make the necessary arrangements in connection with these examinations.

88 to 101 — 96. The conditions under which senior and junior school certificates are awarded are governed by the Cambridge University regulations for the examinations for school certificates, a copy of which is given in Appendix VIII. These regulations must be read in connexion with the regulations for the Cambridge University Local Examinations. Both sets of regulations are issued annually, and will be kept in stock by the Department and supplied to managers of schools on application. Information may also be obtained, if so desired, direct from the General Secretary to the Cambridge University Local Examinations Syndicate, Syndicate Buildings, Cambridge.

88 to 101 — 97. School certificates are awarded only to candidates presented at the Cambridge junior and senior local examinations from schools accepted for the

purpose by the Cambridge University Local Examinations Syndicate. In order to be so accepted, a school must be inspected by the Syndicate or by the English Board of Education, or by some other inspecting body under conditions approved by the Syndicate. The Department has been accepted by the Syndicate as the inspecting body for Bengal, and the applications of European schools in this province to present candidates for certificates will be decided on reports submitted by the Department. Corresponding articles of the revised Code, 1905.

98. As the Cambridge University Local Examinations Syndicate does not examine candidates in the vernaculars of India, the Department will arrange vernacular tests for all recognised secondary schools for boys, and for such girls as may be presented for examination in this subject. All scholars of recognised secondary schools for boys, except those who have obtained special exemption under the provisions of Article 31 of this Code, shall be required to present themselves for examination in a vernacular. The examinations, which will be of two standards—lower and higher—will be held at the same time as the junior and senior school certificate examinations. 88 to 101

99. The subjects for the junior and senior school certificate examinations in which schools may present candidates will require the sanction of the Department, and this sanction should issue not less than one year before the date of the respective examinations. 88 to 101

100. The Department will make arrangements for the examination of, and award of certificates to, pupils in the upper sections of secondary schools, who are allowed to specialise in commercial or technical subjects (article 29), and who, in consequence, do not take the Cambridge University senior school certificate examination. 88 to 101

CHAPTER X.

Scholarships.

101. Scholarships are of six grades, namely— 102

(1) Junior elementary.
(2) Senior elementary.
(3) Junior secondary.
(4) Senior secondary.
(5) Collegiate.
(6) Final.

The number and value of the scholarships of each grade to be awarded annually shall for the present be as follows :—

		Rs.	
12	junior elementary scholarships at	12	per mensem.
6	senior elementary scholarships at	12	,,
4	junior secondary scholarships at	12	,,
6	senior secondary scholarships at	20	,,
3	collegiate scholarships at	30	,,
2	final scholarships at	40	,,

Non-European scholars studying in European schools or in non-European schools which have been admitted to the benefits of the Code shall not be eligible for the above scholarships, nor for the special scholarships provided under article 107.

102. Elementary scholarships shall be of two grades, junior and senior. Junior scholarships shall be awarded on the results of the elementary school final examination, and shall be tenable for two years at a recognised higher elementary school in connection with a supplementary practical course recognised by the Department. 103 and 104

Senior scholarships shall be awarded on the results of the departmental test examination at the end of the supplementary course, and shall be tenable for two years in connection with an approved course in a recognised institution for professional or technical instruction. In deserving cases the Director of Public Instruction may, if he thinks desirable, renew a senior scholarship after the two years' tenure has expired for such further period not exceeding three years as may be necessary to complete the course of instruction at the institution at which the scholarship is held.*

*Note—Junior elementary scholarships may in special cases at the discretion of the Director of Public Instruction be made tenable in a secondary school.

Corresponding articles of the revised Code, 1905.

103 and 104 — 103. Secondary scholarships shall be of two grades, junior and senior. Junior scholarships shall be awarded on the results of the Junior School Certificate examination as prescribed in article 95, and shall be tenable for two years at an institution to be approved by the Director of Public Instruction. Should the period of study at such an institution exceed two years, they may at the discretion of the Director of Public Instruction be renewed for such further period as he may think necessary. Senior scholarships shall be awarded on the results of the Cambridge University Local Examination for the award of senior school certificates. These scholarships are tenable for two years by students pursuing a recognised course of study either at some college affiliated to the University, or at some institution for technical or professional instruction approved for this purpose by the Department.

103 and 104 — 104. Collegiate and final scholarships will be awarded by the Department after considering the results of such existing higher examinations as the Local Government shall specify. These scholarships are tenable by students pursuing a recognised course of instruction either at some college affiliated to the University, or at some institution for technical or professional instruction approved for this purpose by the Department. They will usually be tenable for two years. The term will, however, be increased or diminished according to circumstances. In the case of arts colleges they will be awarded at the end of the intermediate and bachelor stages, respectively; while, in the case of technical and professional institutions they will be awarded, as far as possible, at corresponding stages.

105 — 105. Candidates for junior and senior elementary scholarships must be under the ages of 15 and 17 years respectively on the 31st December in the year of examination. Candidates for junior and senior secondary scholarships must be under the ages of 17 and 19 years respectively on the 31st December in the year of examination. No age limits are fixed for collegiate and final scholarships.

106 — 106. Scholarships shall be allotted to boys and girls, respectively, before each examination, in such proportion as the Department may decide.

Nil — 107. To supplement the system of scholarships set forth in articles 102 to 106, a sum of money will be placed annually at the disposal of the Director. This sum will be spent on the award to promising pupils of special scholarships designed to enable them to continue their education beyond the stages at which a lack of means would otherwise have compelled them to discontinue it. More specifically the purpose of these special scholarships shall be—(*a*) to enable a promising pupil, who is at an elementary school, but whose circumstances would not allow him or her to continue his or her studies, either to remain at such school to the end of the elementary school course, or to pass on to a secondary school; and (*b*) to enable a promising pupil, who is at a secondary school, but whose circumstances would not allow him or her to continue his or her studies, to remain at such school to the end of the general or upper school course.

Nil — 108. The scholarships referred to in the last article will be awarded at the discretion of the Director in consideration of merit and poverty. Managers of schools will be invited to send up suitable candidates with a record of their previous school career; and then, if necessary, the Inspector of European Schools will hold a test examination. The period for which these scholarships will be tenable will be determined by the Director. The rates at which these scholarships will be awarded by the Director will not exceed, but may at his discretion be less than those shown below :—

	Rs.
(*a*) For a scholarship held in the infant class or in classes I to IV of an elementary school	8 a month.
(*b*) For a scholarship held in classes V and VI of an elementary school	12 „
(*c*) For a scholarship held in the infant class or in classes I to IV of a secondary school	12 „
(*d*) For a scholarship held in classes V to VIII of a secondary school	15 „
(*e*) For a scholarship held in classes IX and X of a secondary school	20 „

107 — 109. Proportionate deductions will be made in the amount of a scholarship for every day's avoidable absence from school.

Corresponding articles of the revised Code, 1915.

110. A scholarship may be reduced or withdrawn in cases of misconduct, of continued absence or of insufficient progress in studies. 108

111. A scholarship may be transferred from one school to another with the sanction of the Department; or from one Province to another, provided that the Department is satisfied that the circumstances justify the transfer. In the latter case the amount shall be transmitted by means of a transfer receipt, which will be issued at par. 109

CHAPTER XI.

Training institutions.

112. A training institution must include a practising school working under this Code, having a staff of teachers sufficient in number and fully competent to carry on both the ordinary work of the school and the training of students according to the following rules, and having also the requisite accommodation for doing so. 111

113. No grant will be given to a training college, until the Department is satisfied on the following points:— 112

(*a*) That the building is well suited for the purpose; namely, that it satisfies the conditions of article 37 (*b*); that a sufficient number of the rooms in which classes are taught are large enough for the students to be present and to watch the teaching of a class, and are in other ways adapted to that purpose; and that there are sufficient and suitable additional rooms in which the students can receive further instruction and training.

(*b*) That the institution is satisfactorily furnished and equipped with all necessary school appliances, with scientific and other apparatus, and with a good educational and reference library for the use of the students.

(*c*) That the institution is staffed with good teachers (1) fully competent to conduct the work of the school and to train and teach the students in the manner which may from time to time be prescribed under article 116, and (2) sufficient in number for that purpose

(*d*) That the school satisfies the conditions of article 37.

(*e*) That the school classes are sufficiently large to serve the students for practising purposes.

(*f*) That approved arrangements are made for the boarding and the home supervision of the students, in hostels or otherwise.

Section II.—*Admission to training institutions.*

114. A candidate for admission to a training college must produce a satisfactory certificate of moral character, and must also satisfy the following conditions:— 113

(*a*) That he is at least 18 years of age. [In the case of training schools, he shall be of such an age as the Department shall fix.]

(*b*) That the state of his health is satisfactory, and that he is free from any infirmity or bodily defect likely to interfere with the profession of a teacher.

(*c*) That he has passed one of the school final examinations prescribed for secondary schools, or is considered by the Inspector to be educated up to that standard, or that he is certified by the Inspector as likely to benefit by the training. [In the case of training schools, such initial literary qualifications as the Department may provide.]

115. Selected candidates will be on probation for two months, at the end of which time the principal shall state whether the student is likely to profit by further instruction. 114

Corresponding articles of the revised Code, 1905.

SECTION III.—*Courses of studies.*

115 and 116 116. The courses of studies will occupy not less than two years, and will be as prescribed from time to time by the Local Government.

117 117. At the termination of his training college or training school career, each student shall receive a letter from the Department, certifying that he has received the complete training college or training school course of instruction in the science and art of teaching. The letter shall also state whether the student has satisfied the Inspector in his practical test at the close of his college or school course, and also whether he has passed a written examination on school management and the art of teaching.

SECTION IV.—*Hostel and boarding arrangements.*

118 118. All students under training must, unless specially exempted by the Inspector on the recommendation of the principal, reside in a hostel or boarding-house attached to the institution.

119 119. The hostel or boarding-house must satisfy the following conditions :—

(*a*) That the building is healthy, and sufficiently commodious to allow of quiet, uninterrupted home work.

(*b*) That the rules of the hostel and the arrangements for the general supervision of the students, including their moral training, comfort and recreation, are approved by the Department.

(*c*) That it has a reading and recreation room, properly supplied with papers and magazines, especially periodicals bearing on educational subjects.

SECTION V.—*Grants.*

120 120. Aid will be given to training institutions in the form of fixed grants (article 45).

SECTION VI.—*Stipends.*

121 121. Each student shall be given a stipend by Government. The amount will be fixed by the Local Government.

122 122. Government may, in special cases, pay the boarding fees of students who have been educated in orphanages or free schools.

APPENDIX II (ARTICLE 25).

The Curriculum for elementary schools.

It is recommended that the infant class should be divided as may be found necessary or desirable. The terms "lower division" and "upper division" used below are to be taken as referring generally to the younger and the older children, respectively.

The following curriculum is recommended for the infant class :—

LOWER DIVISION.

1. *Reading.*—Some consistent method of teaching reading should be followed, and the antiquated system of using the alphabet should be discontinued. The phonetic method is recommended as being an excellent one, and one which has the advantage of having been worked out systematically by Miss Nelly Dale in her primers and readers. It is also recommended that, until children can read and write fairly difficult English, the system of sounding the words should be continued, and that alphabetic spelling should not be resorted to. The work of this division should consist of (*a*) the teaching of the sounds and their symbols, either by means of Miss Dale's apparatus or by well-graded reading sheets; (*b*) the sounding, reading and writing of words of one syllable.

2. *Writing.*—It is recommended that a certain amount of drawing should always precede writing. The first stage of writing should be the drawing of letters in sand.

3. *Arithmetic.*—(*a*) To learn from concrete examples the numbers 1—20 and to recognise groups of numbers, not larger than 10, (*b*) to add and subtract these groups of numbers, (*c*) to write the numbers 1—20 with an understanding of notation.

4. *Observation lessons.*—These lessons should be the centre of the teaching, and should serve the purpose not only of sense-training but also of training in language. The observation lessons of this division should be confined to lessons on natural objects well known to the children, *e.g.*, flowers, fruits, leaves, animals, etc.

5. *The occupations.*—

(*a*) Drawing—This should form a part of every observation lesson, the drawing to be done, if possible, with chalk on black-boards; if this is not possible, it should be done with chalk on slates or on large sheets of brown paper.

(*b*) Brush-work—To be practised, where possible, in connexion with the observation lessons.

(*c*) Clay modelling—To be correlated, where possible, with the drawing and observation lessons.

6. *Lessons on geometrical form.*—As illustrated by Froebel's gifts I and II.

7. *Needlework* ; *for girls only*).—Girls should be taught needle drill and kindergarten sewing on such materials as card-board and canvas.

UPPER DIVISION.

1. *Reading.*—Words of at least two syllables to be sounded, read and written. A simple reading book to be used.

2. *Writing.*—First, writing on black-boards or slates with chalk; then, writing with a pencil; and finally, with a pen. Children should be able to write words of two syllables between double lines before entering class I.

3. *Arithmetic.*—

(*a*) Notation 1—999.

(*b*) Very simple addition and subtraction not involving figures higher than 999.

(*c*) To build up the multiplication table as far as 4×12.

(*d*) Very simple practical work in measuring and weighing.

4. *Observation lessons.*— *a*) Very elementary observations of the movements of the sun and moon, points of the compass, clouds, rain, etc.

(*b*) Elementary observations on flowers and fruits; the process of germination and growth of plants.

5. *The occupations.*—

(*a*) Drawing.
(*b*) Brush-work.
(*c*) Clay-modelling. On the lines prescribed for the lower division, the work being correlated with the observation lessons.

6. *Lessons on geometrical form.*—As illustrated by Froebel's gifts III, IV, V and VII.

7. *Needlework (for girls only).*—Girls should be taught to hem on coarse materials with coloured cottons.

Music—Must be taught in both divisions of the infant class and throughout the school by class-singing. It should include the practice of good songs, together with reading at sight (in both notations where possible) and a training in elementary musical knowledge. National songs should be freely used even in the lower classes. The care of the voice and the proper application of breathing exercises should also receive attention.

Classes I to VI.

As regards the work of the classes above the infant class, it is not considered to be immediately desirable to attempt to prescribe in detail the exact amount of each subject which should be taught in each class. Except in the case of arithmetic and needlework, for which detailed syllabuses have been prescribed, the general scope and object of the subject is indicated below, and it is left to each school to arrange its own curriculum, subject to the approval of the Department and on the understanding that no subject of the required curriculum may be omitted except with the permission of the Department. It will be incumbent on each school to submit annually to the Inspector a copy of its curriculum, which he shall examine with a view to ascertaining whether adequate provision is made in it for the efficient teaching of each of the prescribed subjects.

The following recommendations are put forward with regard to the various subjects of the curriculum:—

1. *The English language*—Including reading, composition, grammar, poetry and literature.

The aim of the reading lesson is, on the one hand, to teach intelligent reading aloud and clear enunciation; on the other hand its aim is to enable the pupils to gather information from printed or written matter. The latter object can be attained by silent reading as well as by reading aloud, and both these methods should be habitually made use of. Even in the first class the children should be encouraged to read to themselves.

Composition—Is not more than a form of expression and differs only from speaking by being, perhaps, more carefully considered and executed. Every lesson, therefore, even those given to the youngest infants is in some sense a vehicle for the teaching of composition. Time should be set apart for this subject in each class above the infant class, but the aim of the composition lesson should never be lost sight of in any lesson. The gap between written and oral speech is a formidable one, and the bridging of it in such a way as not to check a child's natural expansiveness, which should, at this stage, have developed into a certain power of expression, is all important. The aim should be to make the pupil realise that composition is a habitual activity, and that every time he talks he is composing. In its earliest stages then composition should be purely oral, and, as a means of transition to the written, it is suggested that before the children attempt to write compositions of their own, they should have frequent practice in the reproduction of stories they have been told or have read, and should occasionally dictate a summary of such a story to the teacher who should write it on the blackboard. The practice of oral composition should be continued through all the classes.

The selection of reading material is very important. The number of books read in a year should not be limited to the two or three readers or text-books hitherto prescribed. The reading books should contain stories and passages of literary value only, descriptive, narrative or declamatory. In the three highest classes one or two books should be read as wholes, and these books should be studied not only from the point of view of the subject-matter, but also from that of the elements of literary form. In these classes, the teacher should also occasionally read aloud selected pieces of English literature, and this work should be regarded as a regular part of the curriculum. When a passage has been read, the teacher should talk about it to the class, and both in this and in other ways the children should be encouraged to read good books for themselves. In the case of day-schools every effort should be made to secure the co-operation of parents in the matter, and in this connexion it is suggested that the establishment of some kind of home reading union might be found useful. Passages of standard English poetry of admitted literary excellence must be learnt and recited in each class.

Grammar—Should be taught in the three highest classes only, and in these only so far as is necessary to secure an intelligent comprehension of the structure of the sentences which the scholars speak, read or write and of the functions of the several words in these sentences.

2. *Handwriting*—Should be taught so as to secure speed as well as legibility.

3. *Arithmetic.*—The following syllabus is recommended:—

First class.—Notation and numeration of six figures—

Addition tables; multiplication tables to 6 × 12.
Simple addition and subtraction.
Multiplication with one figure as multiplier as indicated by the tables.
Mental exercises to be practised.

Second class—Multiplication tables to 12 × 12; also 16 times to 16 × 12.
The four simple rules in arithmetic.
Indian money tables and Indian weights. The use of weights and scales.
Reduction of Indian money and of Indian weights in ordinary use.
Mental exercises on the above.

Third class.—Regular practice in all previous work—

Reduction and compound rules in Indian and English money, in Indian weights and measures and English weights and measures—avoirdupois weight and time measures only.
Easy problems in the above.
Mental exercises on the above rules.

Fourth class.—Work of previous classes—

The rest of the English measures, namely, long measure, square measure, and measure of capacity.
Regular practice in the tables.
Easy bills of parcels.
G. C. M. and L. C. M. with their application.
(Intricate problems to be avoided.)
Reduction to lowest terms, to a common denominator, easy addition, subtraction, multiplication and division of vulgar fractions.
Problems and mental exercises on these rules.

Fifth class.—Work of previous classes—

Simple proportion (by the unitary method), practice.
Vulgar fractions; decimal fractions.
(Large and involved combinations in these rules to be avoided.)
Easy problems, and regular practice in mental work on these rules.

Sixth class.—Work of the previous classes—

Compound proportion.

Percentages, interest, profit and loss, traders' discount, calculations connected with rectangular areas and with the capacities of rectangular solids or rectangular spaces of three dimensions.

Problems to be practised.

4. *Elementary Nature Study.*—Continuation of the observation lessons on plants, developing into a systematic study of botany.

5. *Geography.*—The educational value of geography depends upon the extent to which it makes the pupil take an *intelligent* interest in the world in which he lives. "It must not be regarded as a process by which certain facts about the earth or the portion of it on which we live are committed to memory. It must rather be regarded as the subject which, above all others, brings the youngest child as well as the most advanced student into contact with the outside world—the world of nature as distinct from the world of books." Properly taught geography cultivates the habit of accurate observation; it develops a perception of cause and effect in nature which may lead the pupil in after-life to reason about things, instead of taking them for granted: and, inasmuch as the more advanced pupil must use his imagination to enable him to realise conditions outside the range of his own observation, it provides a discipline—the conditioned exercise of the imagination—which has a value of its own. The value of geography as a correlating subject should constantly be kept in mind by the teacher. No teaching is so fruitful and interesting as that in which one subject is made to throw light upon another. The connexion between history and geography is especially close, and, indeed, a knowledge of the geography of a country is the necessary basis of an intelligent study of its history.

The early part of the course should consist of "home geography" closely correlated with nature study. The geography of the locality, from the school outwards, should be taught with the object of bringing out those elementary general principles which find illustration on all parts of the earth's surface, and especially those which have a direct bearing upon human interests. Stories of travel and adventure by land and sea in different parts of the world should be told to illustrate the varying conditions due to configuration and climates and their effect on the nature of plant and animal life.

After this, the course should aim at giving a general knowledge of the earth's surface and the conditions prevailing upon it, including the distribution of land and water, the main features of the relief of the land, and the climatic and other consequences of these distributions. The great natural regions of the world should next be separately treated, with special reference to the chief river-basins and water-partings and the influence of relief, climate and other conditions upon plant and animal life, and, in particular, upon human life and activity. The names and positions of great countries, the names of a few of the chief towns in each country and the reasons for their situation and importance, and the most important world trade and travel routes should be known. The geography of India and England should be treated in somewhat greater detail.

It is, perhaps, necessary to warn teachers that the parts of geography which touch upon mathematics, and which also make too great a demand upon the imagination of young children, *e.g.*, the shape, size and motions of the earth and their consequences, should not be taken too early in the course.

6. *History.*—The earliest history teaching should be mainly biographical, the lives of great men in English and Indian history. The introduction should be oral, and the lives should be so selected that lessons may be drawn from them suitable to the age and intelligence of the pupils.

The object of the more advanced teaching should be to give the pupils a connected knowledge in outline of the main course of the English history, with a more detailed treatment of the history of the English in India. Only the very broadest treatment of the history of India prior to the connexion of the English with India is necessary.

Much care is necessary in the selection of the topics to be dealt with. The main object of the course is to enable the pupil to understand the position he will one day occupy as a citizen of the empire. This involves some knowledge not only of the development of British liberties, but also of the growth of Britain as a world-power; a knowledge, moreover, not merely of wars and battles, and the exploits of great men, but also of the changes caused by geographical discovery, new inventions and the progress of science.

But, while the knowledge imparted must be connected knowledge, all details not necessary in an elementary course must be omitted, the topics chosen being treated with sufficient fulness to make them intelligible in relation to one another, and the general course of history.

Only the most important dates should be committed to memory. Maps, including physical maps, should be in constant use for reference and illustration.

7. *Drawing.*—In classes I and II the free-arm drawing in chalk should be continued. Drawing with a pencil on paper should begin in class III. The drawing in the first four classes should be from the object, and not from the flat, except as an occasional exercise in free-hand drawing. In classes V and VI, model drawing and the principles of perspective should be taught.

8. *An Indian Vernacular.*—This should be taught in the three highest classes only. This will not be compulsory in the case of girls' schools. The aim of this teaching should be to enable the pupils to speak the vernacular studied both fluently and correctly, as also to be able to read it both from printed matter and from manuscript and to write it with some degree of facility.

9. *Manual Instruction.*—Any form of manual instruction generally recognised as suitable for schools should be allowed.

10. *Needlework*—(for girls only)—

(*a*) *First class.*—Hemming on coarse material, *e.g.*, a Holland apron; the hem to be turned down by the teacher. The children to be taught to secure the thread both at the beginning and at the "ending off" of the work. Plain knitting with two needles, *e.g.*, a pair of garters.

Cross stitch on coarse canvas in straight lines.

(*b*) *Second class.*—To practise all work previously learnt. Hemming on finer material, *e.g.*, a handkerchief. The children to learn to turn down the hem.

Knitting plain and purl, *e.g.*, a comforter.

Cross-stitch on canvas forming a simple design up and down, *e.g.*, the border of a mat, or kettle-holder.

(*c*) *Third class.*—To practise all work previously learnt. To learn to make a pinafore or some other garment of similar difficulty, in which hemming, running and felling are shown.

To learn to knit a pair of ribbed cuffs.

To learn to mark the simple letters of the alphabet on canvas.

(*d*) *Fourth class.*—To practise all work previouly learnt.

To learn to make a flannel banian or a flannel petticoat, introducing herring-bone stitch.

To learn to knit a pair of baby's socks.

To learn to mark all the letters of the alphabet on canvas.

In this and in the higher classes, the girls should be taught to mend their own clothes, and to darn their own stockings.

(*e*) *Fifth class.*—To practise all work previously learnt.

To learn to cut out and to make a child's chemise requiring gathering, stroking and the making of button-holes.

To practise in marking the letters of the alphabet on coarse calico.

To knit larger socks.

In this and in the higher classes the girls should be taught to mend their own clothes and to darn their own stockings.

(*f*) *Sixth class.*—To practise all work previously learnt.

To learn pleating and frilling.

To knit a pair of stockings for a child, 10 or 12 years old.
To mark ordinary articles of dress.
To cut out and make a little frock with a whipped frill at the neck, and having two tucks at the bottom with feather or coral stitch worked thereon.

APPENDIX III (ARTICLE 27).

SUPPLEMENTARY PRACTICAL COURSES FOR ELEMENTARY SCHOOLS.

The following are recognised under article 27 of this Code as supplementary practical courses for elementary schools:—

1.— *The commercial course.*

(1) Book-keeping (including the purpose and proper form of commercial documents).
(2) Handwriting, to secure speed while preserving legibility and correctness of form.
(3) Short-hand.
(4) Type writing.
(5) Commercial geography.

2.—*The industrial course.*

(1) Geometry.
(2) Algebra.
(3) Mensuration.
(4 Mechanics.
(5) Wood-work or iron-work.

3.—*The agricultural course.*

(1) Mensuration (with regard to land measurement and surveying).
(2) Elementary agricultural botany, chemistry and geology.
(3) Study of newspaper market reports.
(4) Repair of agricultural instruments.

4.—*The domestic course.*

(1) Cookery and general house management.
(2) Dress making, embroidery and lace-making.
(3) Sick-nursing and dispensing.

The scope of the above courses may be modified at the discretion of the Director of Public Instruction.

The following general subjects must be taken up in connection with all the courses—

(1) English—(*a*) literature (study of standard literature),
(*b*) composition.
(2) Arithmetic—applied arithmetic and practice in expertness of calculation.
(3) The keeping of ordinary accounts.
(4) Drawing.

APPENDIX VIII (ARTICLE 96).

UNIVERSITY OF CAMBRIDGE LOCAL EXAMINATIONS.

Regulations for the Examinations for School Certificates.

These regulations must be read in connexion with the regulations for the Cambridge University local examinations (article 96 of the Code), which are issued annually by the Cambridge Syndicate and are subject to changes and modifications.

SCHOOL CERTIFICATES.

School certificates of two grades will be awarded under the conditions set forth below, to candidates in the Cambridge junior and senior local examinations who are presented for examination from schools accepted for this purpose.

In order to be accepted, a school must be inspected by the Syndicate, or by the Board of Education, or by some other inspecting body under conditions approved by the Syndicate; and the report of such inspection must be approved by the Syndicate as satisfactory.

A junior school certificate will be awarded to any candidate who—

(1) shall have attended one or more schools accepted for the purpose of school certificates for at least *two* years continuously up to the time of the examination;

(2) shall have passed the junior local examination under the conditions which are given below.

A senior school certificate will be awarded to any candidate who—

(1) shall have attended one or more schools accepted for the purpose of school certificate for at least *three* years continuously up to the time of the examination;

(2) shall have passed the senior local examination under the conditions which are given below.

A candidate who has obtained a junior or a senior school certificate may have additional subjects endorsed on the certificate already gained, provided that the candidate, while still at an accepted school, passes in such subjects at a subsequent examination of the same grade.

JUNIOR SCHOOL CERTIFICATES.

A candidate for a junior school certificate must satisfy the examiners in the junior local examination in—

(1) Dictation and arithmetic;
(2) Section 2 (English language and literature);
(3) One at least of the six sections 4—9 (Latin, Greek, French, German, Spanish, Dutch);

together with at least three of the nine following sections or parts of sections, which must be selected from not less than two of the groups I, II and III namely:—

I.—(4) Section 1 (religious knowledge);
(5) History of England *or* history of the British Empire *or* Roman history (section 3);
(6) Geography (section 3);
II.—(7) Geometry and algebra (section 10);
(8) Trigonometry *or* mechanics (section 10);
III.—(9) Section 11 (experimental science);
(10) Section 12 (chemistry, theoretical and practical);
(11) Section 13 (physics), including a special practical examination (*vide* Addendum)*;
(12) Section 14 (Biology and Physical Geography).

*The names of candidates entering for physics must be sent to the General Secretary separately, not later than May 15th or October 6th (according as the examination is to be taken in July or in December), and the cost involved in holding the practical examination must be borne by the school from which the candidates are entered.

No candidate may offer more sections than are permitted by the regulations for the junior local examination.

Senior school certificates.

A candidate for a senior school certificate must satisfy the examiners in the senior local examination in—.

(1) Arithmetic;
(2) Section 2 (English language and literature), including English composition;
(3) one at least of the six sections 4-9 (Latin, Greek, French, German, Spanish, Dutch);

together with at least three of the ten following sections *or* parts of sections, which must be selected from not less than two of the groups I, II and III, namely:—

I.—(4) Section 1 (religious knowledge);
(5) History of England *or* history of the British Empire *or* Roman history (section 3);
(6) Geometry (section 3);
(7) Political economy *or* logic (section 3);
II.—(8) Geometry and algebra (section 10);
(9) Trigonometry, together with *either* analytical geometry *or* differential calculus (section 10);
(10) Applied mathematics (section 10);
III.—(11) Section 11 (chemistry, theoretical and practical);
(12) Section 12 (physics), including a special practical examination (*vide* Addendum:*
(13) Section 13 (Biology and Physical Geography.).

No candidate may offer more sections than are permitted by the regulations for the senior local examination.

* See the foot-note under "Junior school certificates."

ADDENDUM.

Practical physics.

The scope of the practical examination in physics for school-leaving certificates will be as follows:—

Juniors.

(*Candidates will not be required to answer questions in more than two of the three subjects*: *heat, sound and light, electricity and magnetism*)—

Heat.—Comparison of Fahrenheit and Centigrade scales, and testing the fixed points of a thermometer. Determination of specific heats by the method of mixture. Determination of latent heat of fusion of ice. Simple qualitative experiments to illustrate the laws of heat.

Sound and light.—Velocity of sound by resonance column. Experiments on tones emitted by stretched wires or strings. Experimental verification of the laws of reflexion and refraction. The use of prisms. Experiments with concave mirrors and convex lenses.

Electricity and magnetism.—Distinction between magnetized and magnetic substances. Mapping fields of magnetic force. Comparison of pole-strength. The use of the electroscope and electrophorus. Setting up simple cells. Comparison of currents, electromotive forces, resistances by use of the tangent galvanometer. Deposition of copper by electrolysis.

SENIORS.

(*Candidates will not be required to answer questions in more than two of the four subjects : Mechanics, heat, sound and light, electricity and magnetism*)—

Mechanics.—The comparison of scales; the measurement of lengths, areas and volumes: the spherometer; experiments on moving bodies; experiments with the pendulum; experimental and graphical treatment of systems of forces; the use of the balance: simple machines; the determination of co-efficients of friction; centre of gravity; measurement of work; measurement of density and specific gravity; measurement of fluid pressure; the pressure of gases; the barometer.

Heat.—The use of thermometers; the determination of melting-points and boiling-points; the measurement of specific heat, capacity for heat, latent heat; the use of hygrometers; measurement of vapour pressure; measurement of co-efficients of expansion of liquids and gases; the air thermometer.

Sound and light.—Velocity of sound in air or other gases. Experiments on tones emitted by stretched wires or strings. Determination of pitch of tuning forks. Experimental study of paths of rays after reflexion and refraction; the uses of mirrors, lenses, prisms, and combination of two lenses; photometers.

Electricity and magnetism.—Experiments with magnets; moments of magnets; strength of magnetic field. Use of the electroscope, electrophorus, condenser; the use of galvanometers; the measurement of currents and resistances; the comparison of electromotive forces.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE LATE VARIETY OF THE SESAMUM CROP OF BENGAL FOR THE YEAR 1910.

(On an average of five years ending 1908-09 the area under *til* in the territory to which this forecast relates represents about 5·3 per cent. of the total area under this crop in British India)

Character of the season.—The late variety of *til* or sesamum is cultivated chiefly in Sambalpur, where it covers about half the total area under the crop in the Province. The season has been favourable and the outturn of the crop is reported to be 20 per cent. above the normal in this district. Other districts of importance are Angul, Ranchi, Palamau, Singhbhum, Hazaribagh, Manbhum, Midnapore, Nadia, Bhagalpur and Sonthal Parganas. In these and in most of the remaining districts the weather conditions have been favourable and the condition of the crop is reported to be good. Some damage was caused by floods in North Bihar and also in Nadia, Murshidabad, Patna and Shahabad.

Area sown.—The total area sown this year is 202,100 acres compared with 202,800 acres sown last year. The normal area is 235,400 acres.

Outturn.—According to the estimates of the District Officers the outturn of the crop for the whole Province comes to 100 per cent. In some districts the estimates appear to be too low, and the crop will probably not fall short of my preliminary estimate, viz., 110 per cent.

Taking 4¼ maunds as the normal outturn of the crop per acre, the gross yield for the Province will be 34,700 tons against 31,000 tons last year.

The area under the early variety of the *til* crop is 36,800 acres this year and the estimated outturn 90 per cent. of the normal. The yield of this variety comes to 5,200 tons against 4,200 tons last year.

The total outturn of the sesamum crop (both early and late) in Bengal, therefore, is estimated at 39,900 tons this year against 35,200 tons last year.

W. R. GOURLAY,
Offg. Director of Agriculture, Bengal.

CALCUTTA,
The 26th December 1910.

Calcutta.

2. The draft will be taken into consideration on the 22nd February, 1911, and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft.

In exercise of the power conferred by sub-section (*1*) of section 567 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), the Lieutenant-Governor is pleased to make the following rules to regulate the erection and re-erection of buildings, in further amendment of Schedule XVII to that Act as amended by Notifications No. 543M., dated the 5th March, 1910 (published at page 30 of Part IB of the *Calcutta Gazette* of the 9th *idem*), No. 164T.M., dated the 30th April, 1910 (published at page 58 of Part IB of the *Calcutta Gazette* of the 4th May, 1910) and No. 1078T.M., dated the 24th October, 1910 (published at page 167 of Part IB of the *Calcutta Gazette* of the 26th *idem*) :—

After rule 29A insert the following:—

Open space for loading or unloading carts.

29B (*1*). Every building of the warehouse class must have attached thereto, for the accommodation and passage of carts used for the loading or unloading of goods, an open space, belonging exclusively to the building, of such size as the Chairman may consider sufficient, regard being had to the dimensions of the building and the nature and extent of the business to be carried on therein :

Provided that, if the Chairman considers that any interior courtyard, or any open space provided in pursuance of rule 29, is sufficient for the accommodation and passage of such carts, no separate space need be provided under this rule.

(*2*) No structure which would impede the passage of such carts shall be erected within or above, or so as to project over, any open space provided under this rule.

Part VA.—Public buildings.

Application of Part IV to public buildings.

29C (*1*). The provisions of rules 20, 20A, 20B, 20C, 22, 23, 24, 25, 25A and 26, as to domestic buildings, shall have effect in the case of public buildings.

(*2*). The provisions of rules 17, 18 and 21, as to dwelling-houses, shall have effect in the case of any public building which is constructed, used or adapted to be used wholly or principally for human habitation, or as a school, college or place of instruction.

Use of incombustible or fire-resisting materials.

29D. The floors of the lobbies, corridors, passages and landings of a public building must be constructed of incombustible materials, the doors must be constructed of fire-resisting materials, and the flights of stairs must be constructed either of incombustible materials or of fire-resisting materials.

Materials to be deemed incombustible.

29E. The following materials shall, for the purposes of rule 29D, be deemed to be incombustible, namely :—

(1) brick-work constructed of good bricks, well-burnt, hard and sound, properly bonded and solidly put together with—

(*a*) good mortar compounded of good lime and sharp clean sand, hard clean broken brick, broken flint, grit or slag well pulverized, or

(*b*) good cement mixed with any of the materials mentioned in clause (*a*), or

(2) granite and other stone which is suitable for building purposes by reason of its solidity and durability,

(3) iron, steel and copper,

(4) slate, tiles, bricks and terra-cotta, when used for coverings or corbels,

(5) flag-stones, when used for floors over arches, if not exposed on the underside and if not supported at the ends only,

(6) concrete, composed of—

(*i*) broken brick, stone chippings or ballast, and lime concrete or calcined gypsum—when the concrete is used for filling-in between joists of floors to a depth of less than five inches, or

(*ii*) properly burned coke breeze, free from dust and organic impurities, and good cement, in the following proportions, namely, five parts of coke breeze to one part of good cement mixed together with clean water—when the concrete is used for filling-in between the joists of floors to a depth of five inches or more, and

(7) any material approved in this behalf from time to time by the General Committee.

Materials to be deemed to be fire-resisting but not incombustible.

29F. The following materials shall, for the purposes of rule 29D, be deemed to be fire-resisting, but not incombustible, namely :—

(*a*) sal, teak and other hard timber, when used for beams or posts or in combination with iron, the timber and the iron (if any) being protected by plastering in cement or other incombustible or non-conducting external coating,

(*b*) in the case of doors, sal, teak or other hard timber not less than two inches thick, and

(*c*) in the case of staircases, sal, teak or other hard timber, the treads and risers being not less than one inch and a half thick.

Walls for staircases.

29G. The walls supporting or enclosing any stair case in a public building must be of masonry and not less than ten inches thick.

Uniformity in treads and risers in staircases.

29H. The treads and risers of each flight of stairs in a public building must be of uniform width.

Width of staircases, internal corridors and passage-ways.

29J. (*1*) No staircase, internal corridor, or passage-way in a public building shall be less than six feet wide:

Provided that, where not more than two hundred persons are to be accommodated in any public building, any staircase, internal corridor or passage-way may be of any width not less than three feet six inches.

(*2*) Every staircase, internal corridor, or passage-way in a public building, which communicates with any portion of the building intended for the accommodation of more than four hundred persons, must be wider than six feet by six inches for every hundred persons over four hundred, subject to a maximum width of nine feet.

(*3*) Notwithstanding anything contained in sub-rules (*1*) and (*2*), instead of a single staircase, corridor or passage-way of the width prescribed by sub-rule (*2*), there may be two staircases, corridors or passage-ways, each being of a width equal to at least two-thirds of the width so prescribed.

Division of wide staircase by hand-rail.

29K. If the width of any staircase in a public building is eight feet or more, the staircase must be divided by a hand-rail.

Separate means of exit from floors on different levels.

29L. If some of the persons accommodated in a public building are placed on a higher floor than others, separate means of exit, of the width prescribed by sub-rule (*1*), sub-rule (*2*) or sub-rule (*3*), as the case may be, of rule 29J, and communicating directly with a public street or an open space, must be provided for each floor:

Provided that this rule shall not apply to a hotel, lodging-house, home, refuge or shelter.

Doors and barriers to open outwards.

29M. All doors and barriers in a public building must be made to open outwards, and no outside locks or bolts shall be affixed thereto.

NOTIFICATION.

WITH reference to Government Notification No. 4305, dated 23rd November 1909, calling for text-books required in accordance with the new syllabus for Standards III-VI, it is hereby notified that none of the books in geography submitted for approval has been found to conform satisfactorily to the requirements of the new syllabus. The following books in geography are therefore required:—

In *Bengali*, *Hindi*, *Urdu* and in *Uriya*—

A geography book for Standards III and IV.—English translations should accompany the text-books submitted for examination.

A geography book for Standards V and VI.—English translations should accompany the text-books submitted for examination.

In the case of the subjects and in the vernaculars noted below, either books were not submitted or those submitted were found to be unsuitable. The following are therefore required:—

Drawing book for Standard IV.
Ditto ditto V.

In *Hindi*—A text-book on Mensuration for Standards V and VI.—For teachers only.

In *Uriya*—A text-book on Mensuration for Standards V and VI.—For teachers only.

In *Urdu*—

A vernacular literary reader for Standards III and IV. A prose and verse reader in two parts containing about 160 pages (double crown, 16 mo., in pica); the first part for Standard III with 65 pages of prose and 15 pages of poetry; the second part for Standard IV with 65 pages of prose and 15 pages of poetry.

A vernacular literary reader for Standards V and VI. A prose and verse reader of about 200 pages (double crown, 16 mo., in pica) in two parts: the first part for Standard V with 75 pages of prose and 25 pages of poetry; the second part for Standard VI with 75 pages of prose and 25 pages of poetry.

An elementary vernacular Grammar for Standard IV—about 32 pages.

A vernacular Grammar for Standards V and VI—about 60 or 70 pages.

* An arithmetic book in two parts for Standards III and IV.
* Ditto ditto ditto V and VI.

A history book for Standards III and IV—a text-book of about 40 stories with illustrative maps.

A history book for Standards V and VI to contain a detailed treatment of the British period of Indian History.

A text-book on Geometrical Drawing for Standards III and IV.—For teachers only.

A text-book on Geometrical Drawing for Standards V and VI.—For teachers only.

A text-book on Mensuration for Standard IV.—For teachers only.

A text-book on Mensuration for Standards V and VI.—For teachers only.

The books should in each case be written in close conformity with the requirements of the new syllabus and in view of the instructions contained in the introductions to the various sections thereof.

The price of the books required will be regulated by the prevailing rate of one anna for each 32 pages of printed matter.

Intending authors are invited to submit their books not later than the 15th of June 1911.

G. W. KUCHLER,
Director of Public Instruction, Bengal.

CALCUTTA,
The 19th December 1910.

* *N.B.*—The answers portion must be bound separately and offered for sale to teachers only.

Note.—While the *prescription* of a graduated series of writing books and a text-book on Mensuration for pupils is not deemed essential, it is considered that these productions would prove most useful.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situated in the Sadar subdivision in the district of Jessore, will be put up to sale at the Jessore Collectorate on the 1st February 1911, corresponding with 18th Magh 1317 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and the purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, the one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement, as in the case of the original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

South entrance to Hinchinbrook channel—Alteration of leading beacons.

No. 553 (third publication).—The Portmaster, Brisbane, has given Notice (No. 10 of 1910) that, on and after the 29th November 1910, the Leading Beacons which mark the Channel across Lucinda Bar will be moved to the Southward to a point 1½ miles south of Lucinda Point, and will lead across the Bar bearing S. 30° W.

Vessels entering will, on and after the above date, pass about a cable *North* of the Fairway buoy (instead of to the Southward of it as hitherto), and bring the new lead in line bearing S. 30° W., passing a black buoy, which marks the extreme of the Southern Spit, on the port hand and round the elbow red buoy on the starboard hand, bringing the Dungeness lead in line as hitherto.

Vessels outward bound running down the Dungeness lead should leave that lead before the Bar beacons come quite on, and rounding the red buoy bring the Bar lead on.

The new Bar beacons lead through the centre of the present channel in 10½ feet at L.W.S., giving 5½ feet more than hitherto.

Charts affected.—Nos. 2349 and 1948; Australia Directory, vol. II.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide river—Bank extended.

No. 554 (third publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 22 of 1910) that from a recent survey it has been found that the latest issue of the chart of the Port Adelaide River is not quite correct in the vicinity of No. 6 Green Light Beacon, abreast of which and for some distance in an Easterly and Westerly direction, the bank extends about forty feet further into the channel than shown by the chart. The edge of the channel is about sixty feet South of the No. 6 beacon.

The correct soundings will be shown in the next issue of the chart.

This affects Admiralty charts Nos. 2389b, 1750, and 1752.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF THE MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING THE YEAR 1909-10.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 5th January 1911.

RESOLUTION No. 28 M.

READ—

Reports from the Commissioners of divisions on the working of municipalities in Bengal (except Calcutta) during the year 1909-10.

THE number of municipalities in the province during the year was 130, as compared with 128 in 1908-09. Two new municipalities were created at Dhulian in the district of Murshidabad, and at Madhupur in the Sonthal Parganas, respectively. No accounts have been submitted in respect of the latter municipality for the year under report, since taxation in it did not take effect before the 1st April 1910.

2. *Results of elections held during the year.*—General elections of Commissioners were held in 53 municipalities, at which the percentage of attendance of voters ranged from 92·6 in one ward of the North Dum Dum Municipality, to less than 3 in three wards of the Monghyr Municipality, but in the Burdwan and Presidency Divisions it is reported generally that the elections were keenly contested. In several municipalities, however, notably in Kurseong, no interest whatever was evinced in the election. In the Patna Municipality votes are said to have been bought openly, but it is not clear whether any seats were actually secured by this means. Any Commissioner whose election had been characterised by such practices would appear to have been guilty of "disgraceful conduct" within the meaning of section 19 of the Act (III of 1884), and enquiry will be made why action was not taken accordingly for his removal.

A material extension of the elective system has been effected since the close of the year, and the names of 18 municipalities have been removed from the first Schedule to the Act, which specifies the localities in which the Commissioners are appointed by the Local Government.

3. *Number of meetings and attendance of Commissioners.*—The total number of meetings held was 2,121, of which 130 were adjourned, but seven municipalities held less than one meeting a month. On the whole the attendance of Commissioners at meetings was fairly satisfactory.

4. *Number of rate-payers.*—The total number of rate-payers rose from 418,105 to 420,364, the new municipality of Dhulian contributing 1,492 to the increase. There were also noticeable additions in Darbhanga (981) and Bihar (938), the increase in the latter instance being due to the inclusion of a new area within the municipal limits. The South Suburban Municipality, where some holdings in the municipality were purchased by the Commissioners for the Port of Calcutta, returned a decrease of 530 rate-payers, while in Bhagalpur the exclusion of a village which had previously been wrongly assessed accounted for a fall of 598.

5. *Assessment and taxation.*—In 54 municipalities, and in portions of the South Dum Dum, South Barrackpore, Bhadreswar, Bettiah, Darbhanga and Deoghur Municipalities, the method of taxation adopted was that of a rate on holdings. In 68 municipalities, and in the remaining portions of the six municipalities referred to, the tax on persons was in force. Neither the tax on persons nor the rate on holdings is in force in Sambalpur, where an octroi is levied. As regards special rates a latrine rate was levied in 96 municipalities, a water rate in 14, and a lighting rate in 4, there having been no change in this respect since the previous year. The average incidence of taxation for the whole province was Re. 1-8-10, as compared with Re. 1-8-7 in 1908-09, but it varies considerably in different divisions as shown by the following figures:—

Division.	Incidence of taxation per head of population. Rs. A. P.
Burdwan	2 4 9
Presidency	1 12 5
Patna	0 13 4
Tirhut	0 13 9
Bhagalpur	1 15 0
Orissa	1 2 3
Chota Nagpur	0 15 6

In Bhagalpur the inclusion of the Darjeeling and Kurseong Municipalities, where the incidence is high, affects the divisional figures, but, *primâ facie*, the burden of taxation in Patna and Tirhut as compared with Bhagalpur, and in the Presidency as compared with the Burdwan Division, would appear to be unduly light, and the following remarks of the Commissioner of the Presidency Division are of interest, since the tendency to exercise leniency in assessment is not confined to his charge:—

"In his report for the year the Magistrate of the 24-Parganas emphasises the fact that in some of the municipalities the amounts realised by the rates levied barely exceeds the amounts which the tax-payers would have to pay under the *chaukidari* system, and in this

connection he specially mentions the municipalities of North Dum-Dum, Gobardanga, Basirhat, Baduria and Taki in his district. The same remarks apply also to the municipalities of Meherpur, Chakdah, Kandi, Dhulian, Kotechandpur, Mahespur and Debhata in other districts. The tendency in the *mufassal* municipalities appears to be to keep down the rates of taxation as much as possible, the reason being that in most of them assessments are fixed by the Municipal Commissioners themselves. There is no doubt too that assessments, wherever they are revised by independent paid assessors, tend to substantially increase the revenue, but even then committees appointed to dispose of appeals frequently reduce such assessments as far as possible. The case of Santipur may be mentioned as an instance of the kind. The financial position of North Dum Dum is at present very critical. The income of this municipality depends to a great extent on cart registration fees, and these are likely to decrease considerably owing to the extension of the Patipukur Railway. The general assessment of the municipality, made in the year under report, brought in an insignificant increase of Rs. 217 only. An examination of details by the Magistrate disclosed so many instances of inequitable and inadequate assessments that the Municipal Commissioners have been directed to take action under sections 91 to 94 of the Act, with a view to increase their income by proper assessments.

The average incidence of Municipal taxation per head of population for the whole division was Re. 1-12-5 against Re. 1-10-8 in the preceding year. This points to some improvement in assessment. The incidence ranged from Rs. 6 per head in Cossipore-Chitpur to annas 3-2 in Dhulian, and was below annas 8 in five municipalities as against three in the preceding year. This would appear to show that the tendency to maintain unreasonably low rates of taxation is increasing among the *mufassal* municipalities in this division."

6. *Revision of assessment.*—The assessment was revised during the year in 65 municipalities, and the most noticeable instances of an increased revenue being thus secured were in the following towns:—

	Increase of revenue.
	Rs.
Muzaffarpur	15,089
Howrah	11,923
Ranchi	11,228
Kurseong	6,005
Asansol	4,892
Titagarh	4,881
Santipur	4,101
Midnapore	3,840
Purulia	3,802
Berhampore	3,558

In Muzaffarpur the revision was made by a Sub-Deputy Collector specially appointed by Government, and the results amply justified this course. In Santipur reductions made on appeal largely nullified the advantages of revision, and the Commissioner is enquiring into the special circumstances of the case, but assuming that a trustworthy assessor is appointed in the first instance, the Lieutenant-Governor in Council would impress upon municipalities the undesirability of lenient interference with his subsequent proposals. The Arrah Municipality again postponed its revision pending the completion of the drainage scheme, and the expediency of this course is open to considerable question. In any case it destroys the claim, which on a previous occasion was advanced for special assistance in respect of the drainage and flushing projects in recognition of the voluntary contributions made by the ratepayers to the former.

7. *Collections.*—The percentage of the total collections on the current demand (97·4) was practically the same as in the preceding year (97·5). There was a marked improvement in the Orissa and Presidency Divisions (of 7·2 and 4 per cent., respectively), but in the Burdwan Division the percentage declined by 5·3, and the progress made in the previous year was not maintained. Of individual municipalities those showing the best results were Jajpur (116·0), North Barrackpur (106·5), North Dum Dum (106·4), Satkhira (106·1) and Naihati (105·3). The Garulia Municipality succeeded in collecting the entire amount of its demand, and showed neither remissions nor outstandings at the close of the year. The percentage of collection was lowest in Balasore, being 79·6 as against 68 in 1908-09, but this is apparently the sequel to

* Subject to revision on appeal.

the confusion into which the accounts had been allowed to fall. Only 20 municipalities were able to show collections of cent per cent and over, although this result is better than in the preceding year, when there were only 13 such cases. The collections in Howrah declined from 105·1 to 97·7, of which no explanation has been given. The poor percentage in Arrah (85·0) was caused by abstention from coercive measures pending the realisation of voluntary subscriptions promised towards the drainage scheme and in return for the acquiescence of the rate-payers in the demolition of platforms over the drains without compensation, but the excuse of the collection of subscriptions was alleged in 1908-09 also, and the efficient management of the ordinary municipal affairs should not be interfered with indefinitely on this account. Of the state of the collections in the Burdwan Municipality both the Commissioner and the District Magistrate speak in terms of condemnation, and out of the arrear and current demand of Rs. 1,37,025, only Rs. 99,682 was collected, while Rs. 2,638 was remitted, leaving an outstanding balance of Rs. 34,705, equivalent to approximately one-third of the annual demand. The Lieutenant-Governor in Council trusts that no time will be lost in remedying this discreditable state of affairs, which was remarked upon in the Resolution dealing with the report for 1908-09 also. What is unrealisable of these outstandings should be remitted, after enquiry, without delay; what is realisable should be collected. The accumulation of arrears to this extent merely hampers the administration and offers facilities for fraud. It is hoped that the municipalities named in the margin, all of which have been criticised by the local officers in this respect, will show improved results during the current year. The aggregate outstanding balance in all municipalities fell from Rs. 2,11,201 during the previous year to Rs. 1,86,675, representing 5·0 per cent. of the current demand, while the percentages of total remission on current demand was 2·9. The highest percentages were returned from Jajpur (14·8) and Monghyr (13·1), but it is preferable that the accounts should once and for all be cleared of old outstandings, rather than that demands of which the collection is hopeless should be carried over from year to year.

8. *Income and expenditure.*—The total receipts of the municipalities in the province, including the opening balances, amounted to Rs. 80,82,914, as compared with Rs. 73,73,133 in 1908-09. The increase occurred chiefly under the following heads and to the extent noted. It will be seen that the growth under the head of rates and taxes was comparatively small:—

	Rs.
Opening balance	2,59,465
Municipal rates and taxes	66,883
Revenue derived from municipal property and powers ...	1,02,343
Sources other than taxation—	
Grants and contributions	1,41,885
Loans and advances	1,52,226

The total disbursements amounted to Rs. 62,16,193, as against Rs. 57,88,710 in the preceding year. The increase was chiefly under the head of drainage, capital outlay (Rs. 1,87,378), water-supply, capital outlay (Rs. 90,366), hospitals and dispensaries (Rs. 45,691) and advances (other than permanent advances) Rs. 1,57,729.

9. *Closing balances.*—The aggregate closing balances rose from Rs. 15,84,428 in 1908-09, to Rs. 18,66,721 at the close of 1909-10. The bulk of this increase represents the unspent balances of loans and contributions received by different municipalities from Government. The largest balances were held by the municipalities of Howrah (Rs. 2,60,839), Darjeeling (Rs. 1,48,456), Monghyr (Rs. 1,14,789), and Burdwan (Rs. 1,13,385). The large balance in Burdwan was due chiefly to the receipt of a contribution from Government of Rs. 50,000 for drainage, and to a payment of Rs. 40,000 on account of the sale-proceeds of the old dispensary building. The large balance in Monghyr was due mostly to the grant of Rs. 1,00,000 from Government towards the drainage scheme of the town.

10. *Income (Rs. 65,02,903).*—The total income of the year, excluding the heads of "Opening balance" and "Extraordinary and debt," amounted to Rs. 53,77,648, showing an increase of Rs. 2,98,090 over the figures of the preceding year. Details of the main items of income are given below.

11. *Tax on houses and lands (Rs. 14,82,375).*—The increase under this head amounts to Rs. 53,339, the bulk of which was contributed by the municipalities of Cossipore-Chitpur (Rs. 22,491), Khagole (Rs. 10,423), Kurseong (Rs. 4,413), Asansol (Rs. 4,220), Titagarh (Rs. 3,957), Chapra (Rs. 3,371) and Berhampore (Rs. 2,891). Howrah shows a decrease under this head of nearly Rs. 20,000, of which no explanation is given.

12. *Tolls on roads and ferries (Rs. 98,472).*—The income under this head shows a decline of Rs. 1,109, which is in continuation of a fall of Rs. 3,526 in the preceding year. The only marked fluctuations were in Bhagalpur, where Rs. 5,000 was gained by the re-settlement of the Bhagalpur ferry with local farmers, in place of the Bengal and North-Western Railway, at a rent of Rs. 15,000, and in Muzaffarpur, where Rs. 4,995 was lost, mainly on the settlement of the Akhara ferry.

13. *Water-rate (Rs. 4,13,624).*—As in 1908-09, this rate was levied in 14 municipalities, and the total receipts show a small increase of Rs. 6,728. The increase was marked in Cossipore-Chitpur (Rs. 8,762), Maniktala (Rs. 5,714), and Berhampore (Rs. 3,463). There was, on the other hand, a decrease of Rs. 15,977 in Howrah, and the administration of the water-works in this municipality has recently been severely criticised by the Sanitary Board. House connections have been given on a lavish scale, unprovided with meters, and complaints are now arising as to the adequacy of the supply to meet the demands upon it. The matter forms the subject of special enquiry.

14. *Lighting rate (Rs. 1,49,103).*—This rate is levied only in the four municipalities of Howrah, Cossipore-Chitpur, Maniktala and Darjeeling. The apparent falling off in the receipts, as compared with those of the preceding year, by Rs. 40,348, is due to a change in the accounts. The Darjeeling Municipality has credited the receipts from this source, amounting to Rs. 43,896, to a new head "Electric Light Installation," and these have been shown in column 35 (*b*) of Form II, headed "Other fees."

15. *Conservancy (including scavenging and latrine rates) (Rs. 8,46,779* .—The income under this head showed a small increase of Rs. 24,091, mainly in the Presidency Division (Rs. 9,961). The receipts from the sale of night soil and the disposal of refuse and street sweepings rose from Rs. 2,754 to Rs. 7,089, and it is satisfactory to find that more attention is being given to this source of income, although there is still room for further expansion of the revenue under this head. The Cuttack Municipality appears to have derived some income in this manner, but the receipts have apparently been merged in the figures shown under "Conservancy," instead of being separately shown in column 35 (*a*) in Form II, as directed in paragraph 15 of last year's Resolution.

16. *Income from the tax on persons according to their circumstances and property and the tax on professions and trades.*—The receipts from these taxes rose from Rs. 3,55,309 and Rs. 62,470, respectively, to Rs. 3,67,163 and Rs. 67,747. Under the former head there was an increase in all divisions except Tirhut and Bhagalpur.

17. *Receipts under the Hackney Carriage Act.*—This Act is now in force in 60 municipalities, and the realisations under it amounted to Rs. 11,099. In many towns veterinary assistants are now employed, and where their services are available, municipalities would do well to utilise their advice in various points connected with the care of animals, which must arise in the administration of the law.

18. *Grants from Provincial and Local Funds and contributions from private individuals (Rs. 10,36,444).*—The net increase under this head, which amounted to Rs. 1,41,885, was mainly due to Government grants and private subscriptions for the water-supply and drainage schemes of Monghyr town (Rs. 1,10,815). Government made large grants during the year to Monghyr (Rs. 1,00,000 for a drainage scheme), Burdwan (Rs. 50,000 for drainage), Jessore (Rs. 44,000 for water-supply), Bhatpara (Rs. 30,000 for drainage),

Arrah (Rs. 25,000 for drainage) and Titagarh (Rs. 20,000 for drainage). It is to be regretted that there were few striking instances of private liberality during the year, but Babu Laldhari Singh and his brothers, zamindars of Dharahra in Patna, made a donation of Rs. 20,000 to the Patna Municipality towards the Bankipore Hospital. The proprietress of the seven annas Tikari Raj also made a free gift of land, valued at Rs. 13,000, for the site of the pumping station for the Gaya water-works, and Chotey Nawab of Guzri and Khan Bahadur Shah Kamal of Lodikatra, respectively, made donations of Rs. 5,000 towards the Patna flushing scheme. The local mills subscribed Rs. 9,733 towards the Bhatpara drainage project.

19. *Expenditure—Office and collection establishment* (*Rs. 3,69,114*).—The expenditure under this head declined from 8·0 per cent. on the total ordinary expenditure to 7·4. The highest percentage (39·7) was in the new municipality of Dhulian, where it is attributed to the difficulty of securing suitable men on low pay, but a reduction should be effected as soon as matters are in working order. The proportionate expenditure on this account was lowest in the Monghyr Municipality (1·7), but it was also satisfactorily small in the municipalities of Motihari (3·3), Berhampore (3·4), and Arrah (3·9).

20. *Prevention of fire* (*Rs. 38,581*).—The expenditure under this head was mainly incurred in the municipalities of Howrah (Rs. 13,802) Cossipore-Chitpur (Rs. 17,688), Garden Reach (Rs. 2,916), Maniktala (Rs. 1,750) and Darjeeling (Rs. 1,154). In comparison with the expenditure of the previous year there was an increase of Rs. 4,720.

21. *Lighting* (*Rs. 3,11,659*).—The expenditure under this head rose by Rs. 47,101, and now represents 6·4 per cent of the total ordinary expenditure, as compared with 6·0 per cent. in the preceding year. With reference to the remarks in the Resolution of the previous year regarding the importance of street lighting, it is represented that municipalities containing extensive tracts, largely of a rural character, cannot provide for the proper lighting of the streets and roads without neglecting more important and pressing local requirements, but it cannot even as yet be said as regards the more thickly-populated urban areas that they are as well lighted as is desirable, and it is upon these that attention should first be concentrated.

22. *Water-supply* (*Rs. 5,18,033*).—The expenditure under capital outlay increased by Rs. 90,366, while that under establishment repairs, etc., decreased by Rs. 6,175. The most conspicuous instance of additional expenditure was in the Bhagalpur Division, where the total expenditure incurred rose from Rs. 1,54,629 to Rs. 2,40,694; of which the execution of the Monghyr water-works scheme was responsible for a capital outlay of Rs. 1,84,650. Sanction has been accorded to important projects for the improvement of the water-supply at Hooghly-Chinsura and Serampore at an estimated cost of Rs. 4,53,118 and Rs. 1,10,000, respectively. Other important schemes which have received the approval of Government were at Naihati (Rs. 19,191), Jessore (Rs. 1,35,000), and Kurseong (Rs. 61,950). The total expenditure under this head in the Orissa Division (Rs. 10,821) was regrettably small, but in Chota Nagpur it was even less (Rs. 5,925).

23. *Drainage* (*Rs. 5,39,375*).—There was an increase of expenditure under "Capital outlay" (Rs. 1,87,378) and a decrease under "Maintenance" (Rs. 7,591). The municipalities which incurred the largest expenditure under the former head were: Howrah (Rs. 1,14,237), Titagarh (Rs. 82,058), Arrah (Rs. 77,12:) and Puri (Rs. 31,308). A number of drainage schemes in the Burdwan and Presidency divisions were in various stages of preparation and progress, and the Monghyr drainage scheme was finally approved by Government in February 1910. The Kishanganj project, which was partly approved by Government, has been delayed for further enquiries concerning the outfall. A drainage scheme for Burdwan and partial schemes, for Berhampore, Bhatpara and Bankura were also sanctioned. The cost of the Hooghly-Chinsura scheme, as a whole (Rs. 8,79,453) being prohibitive, it is proposed to undertake the work piecemeal. The preparation of the Jessore scheme was completed during the year, at an estimated cost of Rs. 4,10,368, but the Municipal Commissioners have

declared their inability to provide funds, and the possibility of a less ambitious plan is being considered. Similarly at Ranaghat, the drainage scheme having been found to be beyond the resources of the municipality, a less costly project is under the consideration of the Sanitary Engineer. Drainage schemes for Bhagalpur and Sahebganj are under preparation, and the execution of the drainage scheme of the Arrah Municipality was commenced. It is satisfactory that some progress was made in this respect in the hitherto backward division of Chota Nagpur. Schemes have been sanctioned for Hazaribagh and Daltonganj, and in Ranchi estimates have been framed.

24. *Conservancy, including road cleaning, road watering and latrines (Rs. 14,30,805).*—There were no noticeable fluctuations in the outlay under this head. The largest expenditure was incurred in Howrah (Rs. 2,12,757), Darjeeling (Rs. 1,12,446) and Cossipore-Chitpur (Rs. 84,128). In the Darjeeling Municipality Rs. 62,064 was expended in connection with the sewage scheme, which will, however, depend for its completion upon the experience gained of the working of septic tanks, of which one installation has been erected.

25. *Hospitals and Dispensaries (Rs. 6,18,162).*—There was an increase of expenditure under this head amounting to Rs. 45,691, which was shared by the Presidency, Tirhut, Bhagalpur and Orissa Divisions. At Kurseong Rs. 60,398 was spent on the construction of new hospital buildings, and in the Tirhut Division in particular the Commissioner reports that praiseworthy progress was made.

26. *Plague charges (Rs. 41,714).*—In comparison with the figures for 1908-09, the expenditure under this head fell by Rs. 12,440, mainly in the Patna Division (Rs. 12,763), where the severity of the disease was appreciably less than in previous years.

27. *Public Works (Rs. 7,57,061).*—The expenditure under this head shows a small decrease of Rs. 4,237, as compared with 1908-09. The expenditure on roads declined from Rs. 6,04,371 to Rs. 5,63,083, or by 6·8 per cent., while the expenditure on buildings rose from Rs. 55,989 to Rs. 91,973. The expenditure of the Howrah Municipality on roads was reduced by Rs. 47,840, which mainly accounts for the net decrease. The roads in Berhampore, Suri, Midnapore and Serampore are reported to have been neglected, while those in Hooghly-Chinsura are spoken of by the Divisional Commissioner as a discredit to the municipality. The Muzaffarpur Municipality appears to have effected economies (Rs. 8,014) mainly at the expense of its roads, while in Arrah the insufficient excuse is alleged for neglect that the energies of the municipal officers were absorbed by the drainage scheme which was in hand.

28. *Public instruction (Rs. 1,57,567).*—The total expenditure rose by Rs. 6,584, as compared with the previous year. The Burdwan Division showed an increase of Rs. 7,843, mainly on account of the employment of additional lecturers in the Midnapore College and to the repairs and equipment of its library. The ratio of expenditure on primary education to the total ordinary income of the municipalities varied from 13·3 in Roserah to ·006 in Howrah. In Government Circular No. 20M., dated the 1st April 1910, the rule requiring municipalities to incur expenditure on primary education equal to 3·2 per cent. of their ordinary income was withdrawn, although Divisional Commissioners were directed to see that provision approximating to that standard was made in the municipal budgets.

29. *Loans.*—Thirty-eight municipalites were in debt at the close of the year, and their total indebtedness, after deducting the balance of the Sinking Fund investments, amounted to Rs. 39,97,210 as compared with Rs. 38,89,909 in 1908-09. The largest outstanding liabilities were those of Howrah (Rs. 21,62,572), Darjeeling (Rs. 5,88,245), Bhagalpur (Rs. 3,17,797) and Patna (Rs. 2,31,317). Ten municipalities received loans during the year, namely, Howrah (Rs. 1,66,000 for drainage), Darjeeling (Rs. 30,000 for the reconstruction of certain barracks), Bhatpara (Rs. 20,000 for drainage), Hooghly-Chinsura (Rs. 15,000 for roads), Titagarh (Rs. 10,000 for drainage), Bhagalpur (Rs. 10,000 for improvements to the water-works), Tollyganj (Rs. 7,000 for

the extension of the filtered water-supply), Balasore (Rs. 5,000 for the repair of roads, bridges and culverts), Naihati (Rs. 5,000 for the extension of the filtered water-supply), and Giridih (Rs. 1,300 for an office building).

30. On the 31st March 1910, 82 municipalities had outstanding liabilities on account of unpaid bills and unfinished works amounting to Rs. 1,35,567, which represents 4·2 per cent. of their current demand. The largest debtor (Rs. 18,617) was Berhampore, where, however, the liabilities were somewhat less than in the previous year (Rs. 25,029), but the liabilities exceeded the closing balance in 10 municipalities, and early action should be taken to re-establish equilibrium. The excess is most marked in Balasore, which had liabilities amounting to Rs. 7,200 against a closing balance of Rs. 1,568, but this is presumably due to the confusion into which the municipal management had fallen.

31. *Audit of accounts and embezzlements.*—Two cases of embezzlement occurred during the year in Baduria and Manicktala, respectively. The offenders in both cases were convicted, and convictions were also secured in respect of the defalcations in the Balasore Municipality to which reference was made in the review of the reports for 1908-09.

32. *Inspection.*—The Lieutenant-Governor in Council is glad to notice that the reports of the Divisional Commissioners show that more attention is being given to the matter of the inspection of municipalities by Government officers.

33. As regards the general aspects of municipal administration, the Commissioner of Burdwan, while admitting some improvement, is still dissatisfied with the general level of efficiency, and draws attention to the difficulties caused by the existence of party factions and rivalries. In the Presidency Division a more decided rate of progress is chronicled, and it is claimed that in the advanced suburban and mill municipalities (noticeably in those of Cossipore-Chitpur and Manicktala), a high standard of efficiency is attained, and a genuine attempt is made to keep pace with the increasing demands of modern times. The Commissioner notes that the control now exercised by Government officers over the proceedings of municipalities is not as a rule regarded as irksome or as interfering unduly with the discretion of the Municipal Commissioners. The reports from the Patna Division are generally favourable, particularly with reference to the important municipalities of Patna and Gaya. In Arrah the merits of the drainage scheme seem scarcely as yet to be appreciated, and the Commissioner promises special enquiry in the matter. The Commissioner of Tirhut is of opinion that much public spirit is noticeable in the work done by municipal bodies, and that abuses are remarkably uncommon. He lays stress on the value of the influence of District Magistrates as Chairmen of the different *sadar* municipalities. In the Bhagalpur Division work seems to have progressed smoothly, while in Orissa the most satisfactory feature was the progress of the Balasore Municipality towards rehabilitation, under the guidance of the District Magistrate as Chairman. The water-supply project of the Puri Municipality is still delayed for lack of public support, and only a small proportion of the necessary funds is as yet forthcoming. In Chota Nagpur the working of the Purulia Municipality seems to leave most room for improvement.

35. The record of the year's work calls for little remark of a general character, and on the whole it may be regarded as satisfactory. Since the close of the year under review, Government had occasion to examine the question of the nature and degree of the supervision now exercised by its officers over the proceedings of municipalities, with reference to which various suggestions were made by the Royal Commission upon Decentralisation, more particularly on the subject of finance. The conclusion arrived at was that there was no conclusive evidence that municipalities had been unduly hampered by the control of their budgets by District Magistrates and Commissioners, and the complaints alleged were for the most part directed, not against the existence of such control at all, but against its exercise in petty details. While not prepared to accept the recommendation that all municipalities should be allowed a free hand in respect of their budgets, the Lieutenant-Governor was prepared to allow an experiment in this direction in the municipalities of the Presidency and Burdwan Divisions whose annual income was in excess of one lakh of rupees (namely, Howrah, Cossipore-Chitpur, Manicktala and Burdwan), and in future the Divisional Commissioners, in these instances, will merely ensure that the necessary closing balances are maintained, that due provision is made for the service of all loans, and that the provisions of the Act and any statutory rules and standing orders of Government are observed. With reference, however, to all municipalities Commissioners were enjoined to refrain, so far as possible, from interference with details, and to endeavour to guide municipalities rather by friendly advice than by explicit direction. The ultimate power of control should be resorted to only in cases of persistent neglect and default, and for the efficiency of their administration generally municipalities should be made to realise that they are themselves responsible.

By order of the Lieutenant-Governor of Bengal,

H. WHEELER,

Secretary to the Govt. of Bengal.

No. 268.—The 16th January 1911.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for such portions of Nos. 1 and 2, Kusunda sidings of the East Indian Railway, from mile 172, furlong 4, feet 293½ eastwards, and of the Damuda Branch of the East Indian Railway between mile 172, furlong 4, feet 554, and mile 172, furlong 7, feet 193, as are edged with pink on plans marked L. A. M. A., No. 144 A1 and No. 144 A2, and whereas coal mines are situate under the said land, and whereas the Kusunda and Nayadee Collieries, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 11 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Kusunda and Nayadee Collieries, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor in Council is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Kusunda and Nayadee Collieries, Limited, in the manner and subject to the restrictions below specified, viz.—

(*a*) No gallery, shall be driven and no coal shall be extracted where the distance from the natural surface of the ground to the top of the gallery, if driven, is less than fifty feet.

(*b*) Where the distance from the natural surface of the ground to the top of the gallery, if driven, is fifty feet or more, galleries may be driven not more than ten feet high and ten feet wide with centres not less than sixty feet, forming pillars not less than fifty feet square to be left unworked for the support of the acquired land.

(*c*) The galleries shall be driven so that eight feet of coal shall be left in the roof.

(*d*) Manholes not exceeding six feet in height by three feet in width by four feet in depth may be made where required by any rules made under the Indian Mines Act, 1901.

(*e*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*f*) This declaration applies to No 11 seam only and to the area edged with pink on the plans, and the Kusunda and Nayadee Collieries, Limited, shall give notice, under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land,

and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plans marked L. A. M. A. No 144 A1 and L. A. M. A. No. 144 A2, signed by the Chief Inspector of Mines.

The plans referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

Secy. to the Board of Revenue.

BOARD OF REVENUE, L. P., CALCUTTA, *the 13th January 1911.*

MISC. REVENUE DEPARTMENT.

CUSTOMS BRANCH.

No. 216B.

NOTIFICATION.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 14th January 1911.

In exercise of the power conferred by section 75 of the Sea Customs Act, 1878 (VIII of 1878), the Board of Revenue makes the following rules for the realization of Customs duty on articles imported by His Majesty's Letter or Parcel Mails over sea into Calcutta, in supersession of the rules published under Notification No. 1556 B., dated the 11th March 1907, at page 456 of the *Calcutta Gazette*, Part I of the 13th idem, namely :—

1. On the arrival of any mail, the Collector of Customs shall depute a Customs Officer to attend at the post office for the purpose of assessing to duty articles imported by such mail.

2. The Customs Officer shall deal with all parcels, and with such letters as have been detained by the Post Master under the Regulations of the Post Office for the time being, for examination.

3. (1) Two separate lists shall be made out in the post office, before the arrival of the Customs Officer, one in respect of all parcels, and the other in respect of all such letters as are detained, the particulars of such lists being obtained from the declarations accompanying the parcels or from the covers of the letters, as the case may be. The list in respect of the Parcel Mail shall be made out in the annexed Form A, in *duplicate*, by the carbon process, while the list in respect of the Letter Mail shall be made by entries in a register in the annexed Form B. In the case of both these lists the columns for Description of Contents, Customs Valuation, and Customs Duty, shall be left blank, and shall be filled up by the Customs Officer.

(2) In addition to the lists referred to in sub-rule (1), which shall be made out by the post office, the Customs Officer shall, in the case of the Letter Mail, keep a further register in the annexed Form C.

4. (1) The Customs Officer shall, on his arrival, examine Forms A, B and C, fill in any details therein that may be wanting, and assess the parcels and letters to duty, entering the duty on the respective Forms.

(2) In assessing the duty payable on parcels, the Customs Officer shall ordinarily be guided by the sender's declaration accompanying the parcel, but he may have any parcel opened for examination at his discretion.

(3) Letters and insured parcels must be opened, under the Regulations of the Post Office for the time being in force, in the presence of the addressee, or a duly authorised agent of the addressee, or of an Assistant Post Master.

(4) The Customs Officer shall call upon the Post Master to detain any parcel or letter upon which the Collector's orders may be required.

5. (1) When the assessment is completed, the Customs Officer shall sign both the original and duplicate copy of Form A and the register in Form B, and shall hand to the post office the *duplicate* copy of Form A, from which the necessary entries shall be made on the parcels by the post office for collection of duty at the time of delivery.

(2) In the case of letters, duty shall be collected at the post office after assessment from the entries in the Letter Mail Register (Form B).

(3) The original of Form A, and a credit slip in Form D, being a summary of the entries in the Letter Mail Register (Form B), shall be made over to the Accountant of the Custom House, who shall enter the total amount of duty shown in each form in a register specially kept for the purpose, and shall strike the total of such amounts for each month. From this total shall be deducted any refunds paid by the Post Office, with the sanction of the Collector of Customs, to the addressees of the parcels; and the net total shall then be credited as import duty by *per contra* debit to the Post Office.

3. (*a*) Government reserve the power to sell separately the chests which are declared for shipment to China, and the chests which are not so declared;

(*b*) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government;

(*c*) Subject to three months' notice of any change, the number of chests so marked and covered will not be more than 15,440 in 1911; and the number of chests to be sold for China and otherwise in each month will be notified before the commencement of the month's auction.

The following are the conditions of sale. The Board of Revenue reserve to themselves the right of altering all or any of these conditions after giving three months' previous notice :--

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Goverment.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the 5th day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or

his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained ; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue :—

No. 1, Certificate of the opium advertised for sale ;
No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1909-10, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

H. L. STEPHENSON,
Secretary.

CALCUTTA,
The 14th January 1911.

No. 136B.

NOTICE.

ANY purchaser at the opium sales in January, February and March 1911 at the time of receiving his pass may claim a certificate that the opium purchased forms part of the 15,440 chests allotted this year for shipment to China.

By order of the Board of Revenue, L. P.,

H. L. STEPHENSON, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 10th January 1911.*

NOTIFICATION.

No. 236B.—The 16th January 1911.—IN exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board of Revenue make the following amendments in Notification No. 5977B., dated the 27th November, 1909, published at page 1759 of Part I of the *Calcutta Gazette* of the 1st December, 1909, namely:—

I. In paragraph 66, for clauses (1) to (3) *substitute* the following:—

"(1) The ingredients to be used for denaturing spirit shall be a mixture of "light caoutchoucine" and "pyridine bases" in the proportion of ½ per cent. of each. The pyridine bases must be manufactured from mineral (coal-tar) and not animal sources. To every 99 gallons of plain spirit there shall be added ½ a gallon of light caoutchoucine and ½ a gallon of pyridine bases. The minimum strength of spirit to be denatured shall not be less than 50° O. P.

(2) The ingredients mentioned in clause (1) shall be procured at his own expense by the importer or the person desiring to denature the spirit. Before admixture the ingredients so procured shall be lodged at the distillery or excise warehouse, and the Collector shall cause samples to be sent separately (not mixed) to the Chemical Examiner to Government, for testing according to the instructions laid down therefor, and for certifying that the samples are suitable for denaturing alcohol.

(3) The denaturing of spirit for ordinary use shall be done in tanks properly gauged and kept for the purpose."

II. In paragraph 66, clause (4), *for* the first sentence ending with the word "distiller", *substitute* the following:—

"(4) When the spirit is stated to have been rendered effectually and permanently unfit for human consumption by the admixture of the denaturants mentioned in clause (1), such number of samples as the Collector may direct shall be sent to the Chemical Examiner to the Government, for examination and report, at the expense of the importer or distiller."

III. In paragraph 66, clause (5), *for* the words "clauses (2), (3) and (4)" *substitute* the words "clauses (1) and (4)."

IV. In paragraph 66, clause (6), *after* the word "sample" *add* the words "of ingredients or denatured liquid."

V. In paragraph 66, after clause (5) *insert* the following:—

"(*5 a*) The amendments made in the foregoing clauses of this paragraph by Notification No. 236B, dated the 16th January, 1911, shall not take effect during the period of six months from that date in any case in which the importer or the person desiring to denature spirit elects to proceed under those clauses as originally published."

By order of the Board of Revenue, L. P.,

H. L. STEPHENSON,

Secretary.

MEDICAL DEPARTMENT.

No. 31.—In supersession of the rules contained in Army Department Notification No. 25, dated the 7th January 1910, the following regulations for the grant of study leave to officers of the Indian Medical Service are published for information :—

Regulations regarding the Grant of Study Leave to Officers of the Indian Medical Service.

1. Extra furlough for the purpose of study may be granted to officers of the Indian Medical Service on the recommendation of the Director-General, Indian Medical Service.

2. The period of such Study Leave will be calculated in the case of an officer under Military Leave Rules at the rate of one month for each year of pension service, and in the case of an officer under Civil Leave Rules at the rate of one month for each year of active service, as defined in the Civil Service Regulations, up to a total in either case of 12 months in all during an officer's service.

3. Study Leave may be taken at any time, but will not be granted more than twice in the course of an officer's service. This restriction does not apply to an officer who has part of his furlough converted into Study Leave under Rule 8.

4. The minimum period of study which will render an officer eligible for Study Leave shall be two months.

5. The minimum period of leave granted solely as Study Leave shall be six months. Time spent on the journey to and from India by an officer whose Study Leave is not combined with any other kind of leave will reckon as Study Leave, but the allowance specified in Rule 10 will be granted during the period of study only. An officer whose Study Leave is combined with any other kind of leave will, however, be required to take his period of Study Leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover his return journey to India.

When an officer has been granted a definite period of Study Leave and finds after arrival in England that his course of study will fall short of the sanctioned period to any considerable extent, his absence from India will be reduced by the excess period of Study Leave unless he produces the assent of the authorities in India to his taking it as ordinary furlough.

6. Study Leave can be combined with any other kind of leave, provided the period occupied in study is not less than two months and, in the case of leave on medical certificate, provided that the Medical Board at the India Office certifies that the officer is fit for study. In the case, however, of officers in military employment, Study Leave cannot be taken in continuation of the combined privilege leave and furlough admissible under the terms of India Army Order No. 64 of 1904, if the total period would thereby exceed eight months, but Study Leave may be so taken provided such leave is for not less than two months, and the total period of combined privilege leave, furlough and Study Leave does not exceed eight months; this limitation to eight months does not, however, apply in the case of Study Leave combined with privilege leave alone. The total period of absence

from duty in India in the case of officers under the Leave Rules of 1886 for the Indian Army will be strictly limited to two years.

7. Except as provided in Rule 8, all applications for Study Leave shall be submitted, with the audit officer's certificate, to the Director-General, Indian Medical Service, through the prescribed channel, and the course or courses of study contemplated and any examination the candidate proposes to undergo shall be clearly specified therein.

8. Officers on furlough who wish to have part of their furlough converted into Study Leave should address the Under-Secretary of State, India Office, and should furnish a statement showing how it is proposed to spend the Study Leave. Similarly, officers on furlough or other leave who desire to have it extended for purposes of study should address the Under-Secretary of State, but in addition to the statement of the proposed study they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave.

9. An officer who is at home on combined leave may be permitted to commence a course of study before the end of his privilege leave, and to count the period so spent as part of his Study Leave, without forfeiting his privilege leave allowances during such period.

10. For the course of study, lodging allowance at the rate of 8s. a day for a field officer, 6s. for a Captain, and 4s for a Lieutenant will be granted on the production of the certificates required by Rule 12. It is to be understood that in order to qualify for the grant of Study Leave or for the receipt of lodging allowance, a definite course of study at a recognised institution, which will occupy the time of the officer for five or six days a week, must be pursued. This allowance will not be admissible to an officer who retires from the service without returning to duty in India after a period of Study Leave. Lodging allowance will be admissible up to 14 days for any period of vacation.

11. The rate of pay admissible during Study Leave to an officer under Civil Rules is determined as follows:—

A. If the rate of pay admissible during furlough earned by service under Civil Rules is higher in his case than that admissible during furlough earned by service under Military Rules, then—

(1) he draws pay at the former rate for such period of his Study Leave as has been earned by his service under Civil Rules, and

(2) for the remainder, if any, he can elect either—

(*a*) to draw pay at the rate admissible during furlough earned by service under Military Rules, or

(*b*) to draw it at the rate admissible during furlough earned by service under Civil Rules for a period not exceeding the amount of such furlough at his credit. In this case an equal period of the furlough at his credit earned by service under Civil Rules will be treated as if it had been earned by service under Military Rules.

B. If the rate of pay admissible during furlough earned by service under Military Rules is higher in his case than that admissible in respect of service under Civil Rules, then—

(1) he draws pay at the former rate for such portion of his Study Leave as has been earned by his service under Military Rules, and

(2) for the remainder, if any, he can elect either—

(*a*) to draw pay at the rate admissible during furlough earned by service under Civil Rules, or

(*b*) to draw it at the rate admissible during furlough earned by service under Military Rules for a period not exceeding the amount of such furlough at his credit In this case an equivalent period of the furlough at his credit earned by service under Military Rules will be treated as if it had been earned by service under Civil Rules.

12. On completion of a course of study a certificate on the proper form (which may be obtained from the India Office), together with any certificates of special study, should be forwarded to the Under-Secretary of State, India Office, who will arrange for the transmission of copies of the documents to the Director-General, Indian Medical Service. Officers may also be called upon to report themselves in person to the President of the Medical Board, India Office, on the conclusion of their course of study.

13. Study Leave will count as service for promotion and pension, but, except so far as it may be taken during privilege leave (*see* Rule 9), it will not count for furlough or any other leave. It will not affect any leave which may already be due to an officer; and will not be taken into account in reckoning the aggregate amount of furlough taken by an officer towards the maximum period of six years admissible under Article 299 of the Civil Service Regulations.

Principal, Civil Engineering College.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

WITH reference to Government Notification No. 4305, dated 23rd November 1909, calling for text-books required in accordance with the new syllabus for Standards III-VI, it is hereby notified that none of the books in geography submitted for approval has been found to conform satisfactorily to the requirements of the new syllabus. The following books in geography are therefore required:—

In *Bengali*, *Hindi*, *Urdu* and in *Uriya*—

A geography book for Standards III and IV.—English translations should accompany the text-books submitted for examination.

A geography book for Standards V and VI.—English translations should accompany the text-books submitted for examination.

In the case of the subjects and in the vernaculars noted below, either books were not submitted or those submitted were found to be unsuitable. The following are therefore required:—

Drawing book for Standard IV.
Ditto ditto V.

In *Hindi*—A text book on Mensuration for Standards V and VI.—For teachers only.

In *Uriya*—A text-book on Mensuration for Standards V and VI.—For teachers only.

In *Urdu*—

A vernacular literary reader for Standards III and IV. A prose and verse reader in two parts containing about 160 pages (double crown, 16 mo., in pica); the first part for Standard III with 65 pages of prose and 15 pages of poetry; the second part for Standard IV with 65 pages of prose and 15 pages of poetry.

A vernacular literary reader for Standards V and VI. A prose and verse reader of about 200 pages (double crown, 16 mo., in pica) in two parts: the first part for Standard V with 75 pages of prose and 25 pages of poetry; the second part for Standard VI with 75 pages of prose and 25 pages of poetry.

An elementary vernacular Grammar for Standard IV—about 32 pages.

A vernacular Grammar for Standards V and VI—about 60 or 70 pages.

* An arithmetic book in two parts for Standards III and IV.
* Ditto ditto ditto V and VI.

A history book for Standards III and IV—a text-book of about 40 stories with illustrative maps.

A history book for Standards V and VI to contain a detailed treatment of the British period of Indian History.

A text-book on Geometrical Drawing for Standards III and IV.—For teachers only.

A text-book on Geometrical Drawing for Standards V and VI.—For teachers only.

A text-book on Mensuration for Standard IV.—For teachers only.

A text-book on Mensuration for Standards V and VI.—For teachers only.

The books should in each case be written in close conformity with the requirements of the new syllabus and in view of the instructions contained in the introductions to the various sections thereof.

The price of the books required will be regulated by the prevailing rate of one anna for each 32 pages of printed matter.

Intending authors are invited to submit their books not later than the 15th of June 1911.

G. W. KÜCHLER,
Director of Public Instruction, Bengal.

CALCUTTA,
The 19th December 1910.

* *N.B.*—The answers portion must be bound separately and offered for sale to teachers only.

Note.—While the *prescription* of a graduated series of writing books and a text-book on Mensuration for pupils is not deemed essential, it is considered that these productions would prove most useful.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

LIBERALITY OF RAJA RAO JOGENDRA NARAYAN RAY BAHADUR, OF LALGOLA.

MUNICIPAL DEPARTMENT—MEDICAL.

The 17th January 1911.

The following letter is published for general information.

H. WHEELER,
Secretary to the Govt. of Bengal.

No. 146Medl., dated Calcutta, the 17th January 1911.

From—THE HON'BLE MR. H. WHEELER, C.I.E., Secy. to the Govt. of Bengal, Municipal Department,
To—The Commissioner of the Presidency Division.

I AM directed to acknowledge the receipt of your letter No. 142L S -G., dated the 24th December 1910, in which you report that Raja Rao Jogendra Narayan Ray Bahadur, of Lalgola, in the district of Murshidabad, has paid his promised donation of one lakh of rupees, viz., Rs. 80,000 in Government Promissory notes and Rs. 20,000 in cash, to the Berhampur Charitable Hospital and Dispensary. The sum of Rs. 80,000 will form an endowment fund for the support of a ward in the hospital for the treatment of women, to be known as "The Raja Rao Jogendra Narayan Ray Bahadur Female Hospital," while Rs. 20,000 will be placed in the hands of the Board of Trustees of the institution as equivalent to the price of the existing female ward.

2. I am to request that you will be so good as to convey to the Raja Bahadur of Lalgola an expression of the Lieutenant-Governor's very high appreciation of his liberality and public spirit.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR DECEMBER 1910.

I. *Character of the season.*—There was no rain during the month under report.

II. *Progress of agricultural operations.*—Sowings of *rabi* crops were completed. Harvesting of winter rice continued and pressing of sugarcane commenced in Bihar and Orissa.

III. *State of standing crops.*—The standing wheat, oilseeds and other *rabi* crops are doing well.

IV. *Prospects and the probable outturn of harvests.*—The outturn of the *bhadoi* crops has been fairly good, and that of the winter harvest has been excellent. The outturn of the winter rice crop for the Province as a whole is estimated at 112 per cent. of the normal. Prospects of the *rabi* crops are good.

V. *Damage to crops.*—No damage to the standing crops was reported during the month.

VI. *Condition of agricultural stock.*—The condition of cattle was satisfactory. Cases of cattle-disease were reported from Patna, Gaya, Muzaffarpur, Darbhanga, Monghyr, Purnea, the Sonthal Parganas, Angul, Puri, Sambalpur, and from all the districts of the Chota Nagpur Division, except Singhbhum.

VII. *Failure of pasturage and fodder.*—Fodder and water-supply was sufficient throughout the Province.

VIII. *Prices of food-grains.*—Prices of food-grains show a downward tendency. On the 31st December prices of wheat ranged from 8 seers a rupee in Jessore and Darjeeling to 15½ seers in Monghyr, and that of common rice at 10⅛ seers in Hooghly to 25$\frac{4}{16}$ seers in Angul, and that of Indian-corn, which is one of the staple food-crops in Bihar, varied from 20⅛ seers in Champaran to 33 seers in the Sonthal Parganas. Prices are easier than in the preceding four years.

IX. *Condition of agricultural people.*—The condition of agriculturists is good.

W. R. GOURLAY,
Offg. Director of Agriculture, Bengal.

35	Feudatory States, Orissa.*	.....	.....	.....	Weather seasonable. Pressing of sugarcane going on in Athgarh, Baramba, Bonai, Daspalla, Hindol, Kalahandi, Keonjhar, Khandpara, Narsinghpur, Nayagarh, Rairakhol, Ranpur and Talcher. Harvesting of *rabi* crops in progress in almost all states. Condition of standing crops good. Fodder and water sufficient. Cattle-disease reported from Daspalla, Keonjhar and Patna. During the week price of common rice fallen in one State, risen in one State and stationary in the remaining States. Price of common rice varies from 14 seers in Tigiria and 16 seers in Kalahandi, Nilgiri and Patna to 24 seers in Dhenkanal and Pal Lahara and 25 seers in Gangpur and Talcher.

* The report is for the week ending the 7th January 1911.

General Summary.—There was no rain during the week except showers in parts of Patna, Champaran and Palamau. Harvesting of winter rice still continues. Pressing of sugarcane is going on in Bihar and Orissa. The standing *rabi* crops are doing well. More rain is wanted for the crops in Nadia. Prospects are good. The price of common rice has risen in Murshidabad, Patna, Shahabad, Champaran, Purnea, Angul, Hazaribagh, Cooch Behar and has fallen in Burdwan, Jessore, Darbhanga, Monghyr, the Sonthal Parganas and Cuttack. Cattle-disease is reported from Patna, Muzaffarpur, Purnea, Angul, Puri, Sambalpur, and from all the districts of the Chota Nagpur Division except Singhbhum. The supply of fodder and water is sufficient throughout the Province.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 23rd January 1911.

No. 12.—The following notification issued by the Government of India in the Public Works Department is republished for information:—

No. 3, dated the 18th January 1911.—The following is published for general information:—

No. 63—82E., dated Calcutta, the 18th January 1911.

RESOLUTION—By the Government of India, Public Works Department.

THE system of promotion in the executive and assistant classes for Royal Engineers serving in the Public Works Department (including the Railway Department) was revised by Public Works Department Resolution No. 154—173 E., dated 11th February 1910. The old graded system of promotion was replaced as in the case of Civil Engineers by an incremental scale of pay, with effect from the 8th March 1908, but the actual rates to be drawn under the incremental scale were fixed only for Royal Engineers already in the Department. These rates were arranged to correspond as nearly as possible with their expectations under the graded system of promotion. In paragraph 5 of the resolution it was stated that orders would be issued later in regard to the pay of future entrants. After careful consideration of the case in all its bearings, it has been decided that there is no justification for offering Royal Engineers higher rates of pay than the enhanced rates

sanctioned in 1908 for Civil Engineers of the Imperial Service. The Governor-General in Council, with the approval of His Majesty's Secretary of State for India, is accordingly pleased to rule that Royal Engineers, who enter the Department after the 11th February 1910, shall draw pay under the Civil scale recapitulated below, and in accordance with the rules laid down in Public Works Department Resolution No 675—694E., dated 24th April 1908, in so far as they apply to Civil Engineers of the Imperial Service—

			Maximum pay. Rs.

2. The method of calculating the rate of pay admissible to a Royal Engineer officer under the civil scale will be the same as that adopted in the resolution of the 11th February 1910, that is, the first year of service will be reckoned to commence two and-a-half years from date of first commission. Although more favourable on the whole, the rates of pay in the civil scale are lower in some instances than the emoluments drawn at a similar stage in the Military Works Services; and in order to protect Royal Engineer officers from initial loss on entering the Department, it has been decided, if their emoluments in military employ at date of transfer exceed the rate of pay admissible under the civil scale, to grant them the difference as a personal allowance until it is absorbed by future increments under the latter scale.

Ordered that this resolution be forwarded to the local Governments and Administrations noted in the margin for information and guidance, and that it be published in the *Gazette of India* for general information.

The Governments of Madras Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma, and Eastern Bengal and Assam, Public Works Department.

BOARD OF REVENUE, L. P., CALCUTTA, *the 13th January 1911.*

MISC. REVENUE DEPARTMENT.

CUSTOMS BRANCH.

No. 216B.

NOTIFICATION.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 14th January 1911.

In exercise of the power conferred by section 75 of the Sea Customs Act, 1878 (VIII of 1878), the Board of Revenue makes the following rules for the realization of Customs duty on articles imported by His Majesty's Letter or Parcel Mails over sea into Calcutta, in supersession of the rules published under Notification No. 1556 B., dated the 11th March 1907, at page 456 of the *Calcutta Gazette*, Part I of the 13th idem, namely:—

1. On the arrival of any mail, the Collector of Customs shall depute a Customs Officer to attend at the post office for the purpose of assessing to duty articles imported by such mail.

2. The Customs Officer shall deal with all parcels, and with such letters as have been detained by the Post Master under the Regulations of the Post Office for the time being, for examination.

3. (1) Two separate lists shall be made out in the post office, before the arrival of the Customs Officer, one in respect of all parcels, and the other in respect of all such letters as are detained, the particulars of such lists being obtained from the declarations accompanying the parcels or from the covers of the letters, as the case may be. The list in respect of the Parcel Mail shall be made out in the annexed Form A, in *duplicate*, by the carbon process, while the list in respect of the Letter Mail shall be made by entries in a register in the annexed Form B. In the case of both these lists the columns for Description of Contents, Customs Valuation, and Customs Duty, shall be left blank, and shall be filled up by the Customs Officer.

(2) In addition to the lists referred to in sub-rule (1), which shall be made out by the post office, the Customs Officer shall, in the case of the Letter Mail, keep a further register in the annexed Form C.

4. (1) The Customs Officer shall, on his arrival, examine Forms A, B and C, fill in any details therein that may be wanting, and assess the parcels and letters to duty, entering the duty on the respective Forms.

(2) In assessing the duty payable on parcels, the Customs Officer shall ordinarily be guided by the sender's declaration accompanying the parcel, but he may have any parcel opened for examination at his discretion.

(3) Letters and insured parcels must be opened, under the Regulations of the Post Office for the time being in force, in the presence of the addressee, or a duly authorised agent of the addressee, or of an Assistant Post Master.

(4) The Customs Officer shall call upon the Post Master to detain any parcel or letter upon which the Collector's orders may be required.

5. (1) When the assessment is completed, the Customs Officer shall sign both the original and duplicate copy of Form A and the register in Form B, and shall hand to the post office the *duplicate* copy of Form A, from which the necessary entries shall be made on the parcels by the post office for collection of duty at the time of delivery.

(2) In the case of letters, duty shall be collected at the post office after assessment from the entries in the Letter Mail Register (Form B).

(3) The original of Form A, and a credit slip in Form D, being a summary of the entries in the Letter Mail Register (Form B), shall be made over to the Accountant of the Custom House, who shall enter the total amount of duty shown in each form in a register specially kept for the purpose, and shall strike the total of such amounts for each month. From this total shall be deducted any refunds paid by the Post Office, with the sanction of the Collector of Customs, to the addressees of the parcels; and the net total shall then be credited as import duty by *per contra* debit to the Post Office.

3. (*a*) Government reserve the power to sell separately the chests which are declared for shipment to China, and the chests which are not so declared ;

(*b*) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government ;

(*c*) Subject to three months' notice of any change, the number of chests so marked and covered will not be more than 15,440 in 1911 ; and the number of chests to be sold for China and otherwise in each month will be notified before the commencement of the month's auction.

The following are the conditions of sale. The Board of Revenue reserve to themselves the right of altering all or any of these conditions after giving three months' previous notice :--

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the 5th day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or

his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained ; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue :—

No. 1, Certificate of the opium advertised for sale;
No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1909-10, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

NOTIFICATION.

No. 236B.—The 16th January 1911.—In exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board of Revenue make the following amendments in Notification No. 5977B., dated the 27th November, 1909, published at page 1759 of Part I of the *Calcutta Gazette* of the 1st December, 1909, namely:—

I. In paragraph 66, for clauses (1) to (3) *substitute* the following :—

"(1) The ingredients to be used for denaturing spirit shall be a mixture of "light caoutchoucine" and "pyridine bases" in the proportion of ½ per cent of each. The pyridine bases must be manufactured from mineral (coal-tar) and not animal sources. To every 99 gallons of plain spirit there shall be added ½ a gallon of light caoutchoucine and ½ a gallon of pyridine bases. The minimum strength of spirit to be denatured shall not be less than 50° O. P.

(2) The ingredients mentioned in clause (1) shall be procured at his own expense by the importer or the person desiring to denature the spirit. Before admixture the ingredients so procured shall be lodged at the distillery or excise warehouse, and the Collector shall cause samples to be sent separately (not mixed) to the Chemical Examiner to Government, for testing according to the instructions laid down therefor, and for certifying that the samples are suitable for denaturing alcohol.

(3) The denaturing of spirit for ordinary use shall be done in tanks properly gauged and kept for the purpose."

II. In paragraph 66, clause (4), *for* the first sentence ending with the word "distiller", *substitute* the following :-

"(4) When the spirit is stated to have been rendered effectually and permanently unfit for human consumption by the admixture of the denaturants mentioned in clause (1), such number of samples as the Collector may direct shall be sent to the Chemical Examiner to the Government, for examination and report, at the expense of the importer or distiller."

III. In paragraph 66, clause (5), *for* the words "clauses (2), (3) and (4)" *substitute* the words "clauses (1) and (4)."

IV. In paragraph 66, clause (6), *after* the word "sample" *add* the words "of ingredients or denatured liquid."

V. In paragraph 66, after clause (5) *insert* the following :—

"(5 *a*) The amendments made in the foregoing clauses of this paragraph by Notification No. 236B, dated the 16th January, 1911, shall not take effect during the period of six months from that date in any case in which the importer or the person desiring to denature spirit elects to proceed under those clauses as originally published"

RESOLUTION.

PAY, ALLOWANCES AND FINANCE OFFICERS.

Calcutta, the 17th January 1911.

No. 281-F. E.

IN supersession of the Resolution in this Department, No. 3581-F. O. & A., dated the 15th July 1909, the following revised rules are prescribed for the examination of candidates in India for admission to the General List of the Indian Finance Department:—

I.—A register of candidates will be kept from which not less than three candidates for each vacancy will be nominated by the Government of India from time to time as vacancies are expected. Only candidates so nominated will be entitled to compete.

II.—Names will ordinarily be entered in the register only on the recommendation of a Local Government.

III.—On or before the first of May in each year, Local Governments will send to the Government of India the names of any persons whom they desire to recommend for entry in the register. The list should be accompanied in the case of each person by copies of certificates of character and education by a statement of age, and by information regarding any services that may have been rendered to the State by his parents or family. Before being recommended by a Local Government, each applicant must give satisfactory proof that he is a native of India within the meaning of the Statute 33 Vict., cap. 3, section 6.*

* The words "Native of India" shall include any person born and domiciled within the dominions of His Majesty in India of parents habitually resident in India and not established there for temporary purposes only

IV.—The Government of India will also be prepared occasionally to receive direct applications for registration from suitable candidates. Such applications should be submitted in the applicant's own handwriting to the Secretary to the Government of India in the Finance Department and should contain the information required by rule III.

V.—The names of persons not possessed of high educational qualifications will not be registered. Clear and distinct handwriting and a business familiarity with the English language are indispensable.

VI.—The Government of India reserve an absolute discretion not only in regard to the selection of persons to be entered on the register of candidates, but also as to the nomination of candidates to compete at the examination. It must be clearly understood that registration of a candidate's name does not in any way imply that he will be nominated for admission to examination.

VII.—The name of a registered candidate will be struck off the register when he has reached the age of 25, or has failed in two examinations.

VIII.—A candidate nominated for admission to one examination will not be admitted to a later examination unless again nominated.

IX.—The age of a candidate, when examined, must not exceed twenty-five years. A candidate who has been continuously in Government employ since before the age of 25, may, however, at the discretion of the Government of India, be allowed to compete at the examination up to the age of 30, provided that he is satisfactorily recommended by the Head of his Department.

X.—A nominated candidate before appearing at the examination must produce a certificate in the annexed form by a Commissioned Medical Officer or by a Medical Officer in charge of a Civil Station.

CERTIFICATE.

I do hereby certify that I have examined A. B., a candidate for employment in the Indian Finance Department, and that I cannot discover that he has any disease, constitutional affection or bodily infirmity unfitting him, or likely to unfit him, for the public service in any part of India.

XI.—Such candidate must also, before appearing for examination, produce a certificate of age from the officer in charge of the district in which his family reside, or, if they reside in a Presidency town or a Native State, from the Presidency Magistrate or Political Agent, respectively. To obtain this certificate the date and place of the candidate's birth must be proved before the District Officer, Presidency Magistrate or Political Agent, as the case may be, by documentary evidence, supplemented, where this is not conclusive proof, by statements of relatives and others on oath or solemn affirmation.

XII.—Nominated candidates will be examined in the subjects described in the schedule attached to this Resolution. No candidate will be admitted to the Department who fails to show a competent knowledge of the compulsory subjects, and the Government reserve the right of declining to make any appointment when no candidate reaches a high standard of proficiency.

XIII.—The examination will be mainly by written questions and answers. The questions will be prepared, and the examination conducted, in such manner as the Governor-General in Council from time to time directs.

XIV.—Some months before an examination is to be held, its date and place, and the conditions of examination, will be notified in the *Gazette of India*, and the number of vacancies open to competition will at the same time be stated.

XV.—Subject to the above conditions, candidates will be appointed to the posts thrown open to competition according to their order of merit at the examination.

Ordered that the Resolution be published in the *Gazette of India*.

SCHEDULE.

SUBJECTS FOR EXAMINATION.

Compulsory.

	Marks.
Writing and Composition	300

Optional.

Any two of—

(*a*) Political Economy and Economic History	400 each.
(*b*) Mathematics (pure and mixed)

No. 161M.—The 23rd January 1911.—The following draft amendment which the Lieutenant-Governor intends to make in the Account Rules under the Bengal Municipal Act, 1884 (Bengal Act III of 1884), is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 26th February 1911, and any objection or suggestion which may be received by the undersigned before that date will be considered.

Draft Notification.

In exercise of the power conferred by section 82 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Lieutenant-Governor in Council is pleased to make the following amendment in the rules framed under the above section of the Act for keeping the accounts of Municipalities and for the audit of such accounts, published under Notification No. 5472M., dated the 13th December 1897, at pages 297-358, Part IB of the *Calcutta Gazette* of the 15th idem :—

For rule 23, Appendix A, of the Municipal Account Rules, substitute the following :—

Remission of Bills.

23. When the Bill Register for any quarter has been closed, every bill entered therein must be satisfied either by collection or remission, or partly by each method. The manner of dealing with the remissions shall be as follows :—

Firstly.—If the demand has been entirely remitted, the order of remission and receipts shall be placed before the Vice-Chairman or the officer in charge of the Assesment Department, who shall see that the receipts are stamped "Cancelled" in large type, and shall initial them in token of having compared them with the orders. The receipts (with the bills attached if they have not been served) shall then be given to the Accountant together with the remission orders. The Accountant shall compare the receipts with the orders, and after giving a certificate of agreement on the order, shall retain the bills in safe custody for scrutiny and destruction by the Local Auditor. When receipts have been filed in civil suits, the entries in the Remission statement shall be supported by certificates from the Municipal Pleader conducting the suits, that they have been so filed, the number and date of each suit being quoted in the certificate.

Secondly.—If the demand has been remitted in part only, the necessary corrections shall be made in the receipt, and also in the bill, if it has not been issued, and shall be initialled by the Vice-Chairman, who shall also initial the remission order. If the two rates are drawn in one bill and one of them is remitted in full, the remission shall be attested by the Vice-Chairman as if it were a partial remission of one rate.

No. 167M.—The 24th January 1911.—The Commissioners of the Kamarhati Municipality, in the district of the 24-Parganas, having recommended at a meeting that the number of the Commissioners of that Municipality should be altered from 10 to 12, the Lieutenant-Governor in Council hereby declares his intention to make that alteration.

24-Parganas.

2. Any ratepayer of the Municipality who objects to the proposed alteration should submit his objection in writing through the Magistrate of the 24-Parganas to the undersigned before the 9th March 1911.

No. 157L S.-G.—The 23rd January 1911.—In exercise of the power conferred by section 138, clauses (*i*) and (*t*) of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), the Lieutenant-Governor in Council is pleased to make the following amendment in the rules published under Notification No. 2009T.M., dated the 9th November 1901, at pages 217-273 of Part IB of the *Calcutta Gazette* of the 4th December 1901, and amended by Notification No. 836T.—L.S.-G., dated the 17th September 1909, at page 306 of Part IB of the *Calcutta Gazette* of the 22nd idem :—

Insert the following between rule 123A of the rules published under Notification No. 2009T.M., dated the 9th November 1901, and the addition made to that rule under Notification No. 836T.—L.S.-G., dated the 17th September 1909 :—

The District Board may pay a pensioner by postal money-order in any case in which hardship would arise if the pensioner were required to attend in person at the District Fund Office. Provided—

(1) that the pensioner requests the Board in writing to remit the money in this manner;

(2) that the remittance is made at the sole risk of the pensioner and at his cost; and

(3) that before the money is remitted the Board is furnished with a life certificate in respect of the month for which the money is to be remitted, such certificate being signed by a Magistrate or by the Chairman or a member of the District Board within the limits of whose jurisdiction the pensioner is living or by some person exercising the powers of a Magistrate under the Criminal Procedure Code, or by any Registrar or Sub-Registrar under the Registration Act, or by any pensioned officer who, before retirement, exercised the powers of a Magistrate, or by a Chaplain, or any gazetted officer of Government or any person holding a Government title.

In such a case the District Board shall obtain annually independent proof of the pensioner's continued existence in the manner contemplated above.

CALCUTTA UNIVERSITY.

NOTICE.

IN exercise of the powers conferred by section 7 (1) of the Indian Universities Act, 1904 (VIII of 1904), His Excellency the Chancellor of the Calcutta University is pleased to direct that two Ordinary Fellows shall be elected this year by the Registered Graduates of the Calcutta University from among themselves.

The election will take place at the Senate House, College Square, on Saturday, the 4th of March 1911.

No person other than a Registered Graduate will be qualified to nominate, to vote or to stand as a candidate for election.

Every candidate for election must be nominated by a Registered Graduate and no person will be allowed to nominate more than one candidate. The nomination of a candidate shall be made in writing in the following form, which will be signed by the person making the nomination:—

FORM OF NOMINATION.

I, _____, Registered Graduate No. _____, do hereby nominate _____, Registered Graduate No. _____, as a candidate for election as an Ordinary Fellow of the Calcutta University subject to the approval of His Excellency the Chancellor.

The following is a brief statement of the special qualifications of my nominee:—

_____

_____

_____

The $\frac{\textit{January}}{\textit{February}}$ *1911.* *Signature* _____

The nomination paper should be, on the face of it, addressed to the Registrar, Calcutta University, and must reach his office on or before the 10th of February 1911 before 5 P.M. A printed list of the nominees (with the name of the first proposer in each case) and statements of their qualifications will be forwarded to the Registered Graduates on the 14th of February 1911.

On the 16th February 1911, a voting paper containing the names of the candidates nominated and their first proposers will be forwarded by the Registrar by registered post to each of the Registered Graduates. The Voting paper must be filled up and signed in the presence of the Registrar at the Senate House, College Square, on the 4th of March 1911, between the hours of 10 A.M. and 3 P.M., but graduates who will not be able to appear in person before the Registrar, may fill up and sign their voting papers in the presence of a Magistrate, a Judge, a Subordinate Judge or a Munsif (excluding Village Munsifs). In the absence of a Magisterial or Judicial Officer of the rank aforesaid in a Native State, the signature must be acknowledged before the Chief Minister or the Chief Magisterial Officer of the State. Voting papers may also be filled up and signed before the Registrar, any day (other than a Sunday or holiday) between the 17th of February and 3rd of March 1911, between 4 and 5 P.M. The officer before whom such acknowledgment is made or the Registrar, as the case may be, shall countersign the voting paper, as having been signed before him by the person whose signature it bears. A voter exercising the functions of a Magisterial or Judicial officer of the rank aforesaid will not be competent to countersign his own voting paper. All voting papers duly signed and countersigned as aforesaid must reach the Registrar not later than 3 P. M. on Saturday, the 4th of March 1911, after which no voting paper will be accepted. Graduates who are not known to the officer in whose presence they intend to fill up and sign their voting papers must bring with them their Diplomas or other satisfactory proof of identity.

Each voter shall have only one vote for each vacancy which is to be filled up and can give only one vote to any one candidate.

SENATE HOUSE,
The 24th of January 1911.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Ranaghat-Murshidabad branch of the Eastern Bengal State Railway, in the district of Nadia, will be put up to sale at 12 o'clock on Thursday, the 2nd March 1911, corresponding with the 18th Falgun 1317 B.S. Fusli, at Krishnagar in the Land Acquisition Deputy Collector's office.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the Railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

C. E. GREY,
Official Assignee of Bengal.

Notice of Deaths sent to the Administrator-General of Bengal under section 64 of Act II of 1874.

Name of deceased.	Place of death.	Date of death.	By whom death reported and when.	Remarks.
Miss Jessie Wilhelmina Harrison.	Ranikhet	4th November 1910	Commissioner and District Judge, Kumaun Division, on 23rd November 1910.	The deceased died intestate, and her estate is under charge of this office under section 37 of Act II of 1874.
Mrs. S. Flynn	Dinapore	26th September ,,	District Judge, Patna, on 22nd December 1910.	The deceased left a Will, which is in the possession of one Mr. J. Rust of Mussoorie who, it is stated, is taking steps to prove it.
Mr. William Fortescue Jarvis	Margherita in the district of Lakhimpur.	19th August ,,	Judge of the Assam Valley Districts, on 13th November 1910.	No Will appears to have been left by the deceased, Messrs. Ahmuty & Co., Calcutta, have applied to the Administrator-General for a certificate under section 37 of Act II of 1874 as creditors of the estate, the assets of the estate being under Rs. 1,000 in value.
Mr. Harry Fort, Engine-driver.	Albert Victor Hospital, Lahore.	14th October ,,	District Judge, Lahore, on 19th November 1910.	No Will was found and no application for Letters of Administration to the estate has been made. The Provident Fund money left by the deceased has been paid to his widow by the North-Western Railway in terms of the Railway declaration.
Mr. Moriarty, an Architect ...	Eden Sanitarium, Darjeeling.	22nd ,, ,,	District Judge, Purnea, on 4th January 1911.	The deceased is believed to have left a Will, which is in the custody of his widow.
Mr. H. F. Martyn, Assistant District Superintendent of Police.	Buldana in Berar	9th December ,,	District and Sessions Judge, West Berar Division, on 6th January 1911.	The deceased has not left any Will so far as can be ascertained at present, but Messrs. Grindlay, Groom & Co., Bombay, have written to the relatives of the deceased in England on the subject, and they expect to receive either from the next-of-kin or from the Executor a Power-of-Attorney to enable them to administer the estate, failing which steps will be taken by the Administrator-General.
Mr. C. B. Crawford, I.C.S., Collector of Cawnpore.	Cawnpore ,,	30th ,, ,,	District Judge, Cawnpore, on 4th January 1911.	The deceased has left a Will in England with his Solicitors, and it is understood that an application for Letters of Administration is being made.

CALCUTTA G. P. O.,

The 18th January 1911.

C. H. STUART,

Offg. Presidency Postmaster.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1909-10.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVT.

Calcutta, the 21st January 1911.

RESOLUTION—No. 150L.S.-G.

READ—

The Reports from Commissioners of Divisions on the working of District Boards in Bengal during the year 1909-10.

The number of District and Local Boards in existence during the year remained unchanged, but the number of Union Committees increased from 51 to 52. Two new Union Committees were established at Nawapara and at Dalsing Serai in the districts of Khulna and Darbhanga, respectively, while one was abolished owing to the conversion of the Union at Dhulian in Murshidabad into a municipality. Since the close of the year orders have issued, as the result of the enquiries of the Royal Commission upon Decentralization, that a more consistent endeavour should be made to encourage the

growth of village organization in the form of Union Committees, and proposals have been called for with the view of weeding out such of the existing Unions as have proved failures in the past, and concentrating efforts upon those localities in which a greater measure of success may be anticipated.

2. *District Boards.—Number of meetings and attendance of members.*—The District Boards in the Province held 397 meetings in all during 1909-10, or 28 less than in the previous year, and of these 12 proved abortive for want of quorum, as against 18 in 1908-09. All the District Boards met at least once a month, with the exception of those of Jessore, Patna, Sambalpur and Palamau. The two Boards last mentioned habitually fall short of what is considered to be a minimum requirement in this respect, if proper supervision is to be maintained, and the Commissioners of Orissa and Chota Nagpur are requested to see that attention is forthwith paid to the wishes of Government in the matter. The Commissioner of the Presidency Division notices the serious arrears found by him in three districts in the audit of the accounts by the Finance Committees, which had failed to meet regularly with a sufficient quorum for the transaction of business. If audit work is to be of any value at all it is essential that it should be conducted regularly and punctually, and laxity in this respect may lead to most undesirable consequences.

3. *Local Boards—Number of meetings and attendance of members.*—851 meetings were held by Local Boards during the year, of which 68 failed for want of a quorum, while 36 Local Boards, as against 32 in the previous year, failed to meet at least once a month. As in the previous year, the Northern and Southern Zamindari Local Boards in Sambalpur again met twice only during the year, while the Dhanbaid Local Board held three meetings, as against two during 1908-09. If the volume of business to be transacted does not require more frequent meetings, the presumption is that the work entrusted to the Boards scarcely justifies their creation at all, and the Commissioners concerned are requested to enquire into the facts. Again in the Puri district, the Sadar and Khurda Boards each met five and six times only, while in Murshidabad the Sadar and Jangipur Boards were only convened in four and five instances respectively. In Nadia all the Local Boards showed irregularity in this respect, and taking the Divisions as a whole, those of Patna, Tirhut and Bhagalpur show much more consistent activity among the Local Boards than the rest of the Province. This may be partly due to the presence of European non-officials on the Boards in these divisions, but in the Tirhut Division action is being taken, in response to local feeling, to increase the number of non-official Indian representatives both on the District and Local Boards, and it is hoped that these will justify their selection by the active interest shown by them in the business of the Boards.

4. *Elections.*—General elections were held only in the districts of Midnapore, Murshidabad and Jessore, and in the majority of cases they proved a failure. The reasons alleged are that the work of the Local Boards is not sufficiently important or interesting to attract candidates, while in Jessore it is stated that there is probably also a dearth of suitable persons possessing the necessary residential qualifications.

5. *Union Committees.*—The aggregate income, excluding the opening balance, of the 52 Union Committees amounted to Rs. 20,762 against Rs. 17,180 in 1908-09, while the expenditure rose from Rs. 16,514 to Rs. 18,683. Of the sum of Rs. 20,762, Rs. 18,163 was made up of contributions from the District Boards, and it is obvious that this at present constitutes practically the sole source of income of these Committees. It is an essential condition of the success of these bodies that they shall be provided with funds sufficient to permit of their undertaking work of appreciable importance to the locality, which may justify the supervision which they are prepared to give, and until this has been done it can scarcely be said that the experiment has had a fair trial. In any new proposals submitted for the creation of Unions (*vide* paragraph 1) this point requires the special attention of local officers,

6. *Financial results.*—The year opened with a gross credit balance of Rs. 21,86,270, and the total receipts of District Boards from all sources amounted to Rs. 74,93,721. The total amount available for expenditure was thus Rs. 96,79,991, of which Rs. 72,80,290 was spent during the year, leaving a closing balance of Rs. 23,99,701. The income and expenditure of District Boards under the main heads of account during the past two years are compared below:—

In the figures of income for 1909-10 "Contributions" have been adjusted under the appropriate heads to which the sums so paid were devoted, *e.g.*, Education, Medical, and Civil Works, and this accounts for the noticeable fluctuations in these items. Taking the year under report it will be seen that nearly half the total income of District Boards was derived from Provincial Rates, the next most profitable source of revenue being Civil Works (including ferries) which accounted for 17·8 per cent. On the expenditure side Civil Works—Public Works was responsible for 57·1 per cent. of the total outlay,

followed by Education (16·3 per cent.) and Medical (5·7 per cent.) The head Deposits and Advances is scarcely a true item either of revenue or expenditure.

INCOME.

7. *Provincial Rates* (*Rs. 36,09,792*).—The income realized under this head showed an increase in all divisions except Patna and Tirhut, amounting in the aggregate to Rs. 1,21,378, the greater part of which (Rs. 1,00,198) occurred in Chota Nagpur. The improvement is generally attributed to the realization of arrear demands, and to the revision, in some instances, of the assessments on coal mines, but the failure of certain estates under the Court of Wards to pay the demand on this account in the districts of Gaya and Shahabad should not have been allowed, and particular attention is drawn to the persistent defaults in the Bankura district, which the Collector should forthwith take steps to remedy.

8. *Police* (*Pounds*) (*Rs. 3,35,491*).—The total number of pounds maintained by the District Boards increased from 2,811 to 2,857, while the income derived from them rose in 16 districts and fell in the remainder, resulting in a net increase of Rs. 5,182. The system of triennial settlements noticed in the Resolution on the reports of the previous year appears to be most extensively followed in the Tirhut Division, and apparently with satisfactory results. Its adoption elsewhere should be considered, with a view to securing a more efficient and substantial body of lessees, while the trouble and delay of annual auctions is avoided. The fact that 11 pounds remained unsettled in the Muzaffarpur district for want of lessees raises the presumption that the total number of pounds in the district is excessive, and the point should be examined.

9. *Ferries* (*Rs. 3,41,232*).—The receipts from ferries rose in 13 districts and fell in 15, resulting in a net decrease of Rs. 925. The District Board of Saran returned the largest decrease (Rs. 5,218), which, however, was more apparent then real, being due to the fact that the receipts of the previous year were swollen by the inclusion of the deposits advanced for 1909-10. In Muzaffarpur the decline of Rs. 4,721 was due to the non-realization of the full demand from certain ferries, which should have been preventable. In Darbhanga remissions of rent to ferry farmers were granted in 1908-09 on account of the scarcity then prevailing, and the absence of such a cause during the year under report resulted in an increase of Rs. 8,646. Since the power to establish toll bars upon bridges, conferred by section 86A of the Local Self-Government Act (as amended) has now been exercised in an appreciable number of instances, it is desirable that future reports should particularly notice the working of these provisions, with special reference to the proportion borne by the sums so collected to the cost of the bridge upon which tolls are levied and to the average income of the ferry which may have been superseded by the bridge. If the levy of tolls has given rise to any hardship or complaint this too should be mentioned. As in the case of pounds, a system of triennial settlements of ferries has much to commend it.

10. *Loans* (*Rs. 2,75,000*).—The District Board of the 24-Parganas received, during the year, the last instalment of the loan on account of the Magrahat Drainage Scheme. No other loans were made to District Boards.

EXPENDITURE.

11. *Administration* (*Rs. 2,13,535*).—The grant of travelling allowance to members for attending Local Board meetings was chiefly responsible for the increase of Rs. 10,728 under this head, which was shared by all divisions except Patna.

12. *Education* (*Rs. 11,90,503*).—In comparison with an aggregate increase under this head of Rs. 1,14,380 during the preceding year, the total expenditure on education showed a decline of Rs. 94,267 in 1909-10, which was common to all divisions. Among the reasons alleged are the non-payment of grant-in-aid bills, the discontinuance of grants, inability to spend the full budget provision, and smaller expenditure on primary school buildings, etc. Moreover, the expenditure in the previous year was abnormally swollen by the

refund of the unspent balance of the Government grant for primary school buildings. The number of upper primary schools aided by District Boards increased from 2,368 to 2,525, and that of aided lower primary schools from 22,774 to 22,838, while aided primary schools, as a whole, furnished instruction to 693,022 boys and 86,331 girls as compared with 677,302 boys and 82,335 girls in 1908-09. In Hooghly and Jessore the expenditure under "Education" was slightly less than the amount assigned for the purpose from Provincial Revenues, and the difference should be made good during the current year.

13. *Special Schools*—During the year under report technical or industrial schools were maintained or aided by the District Boards of Burdwan, Midnapore, Khulna, Saran, Muzaffarpur, Balasore, Ranchi, Hazaribagh and Manbhum, while various District Boards gave stipends tenable at different technical schools. The management of the Bhagalpur Technical School was transferred to the Education Department with effect from the 1st March 1910. The weaving industry was encouraged by District Boards in various ways, and the District Boards of Bankura, Midnapore, Hooghly, the 24-Parganas and Balasore granted scholarships to pupils undergoing training at the Serampore weaving school; the District Boards of Patna and Manbhum gave grants-in-aid to weaving schools within their respective jurisdiction, that at Bihar in Patna having been newly opened. The District Board of Darbhanga maintained a staff of peripatetic weaving instructors, but it is said that the people take no appreciable interest in the experiment, and its discontinuance has been suggested. The Commissioner, however, suggests a more extended trial, and as the expenditure involved is small, this might be given. In Birbhum, Bankura and Hooghly progress is said to have been made in the introduction of fly shuttle looms. The Seri-Agricultural College at Sahong in the Midnapore District ceased to exist.

14. *Shows and exhibitions.*—Agricultural exhibitions or shows were held in the districts of Hooghly, Bankura, Birbhum, the 24-Parganas, Jessore, Khulna, Patna, Gaya, Shahabad, Saran, Muzaffarpur, Purnea, Ranchi and Manbhum.

15. *Medical* (*Rs. 4,17,846*).—The expenditure under this head declined in the Burdwan, Presidency, Bhagalpur and Orissa Divisions, which more than counterbalanced the increase elsewhere, resulting in a net decrease of Rs. 11,551. The Orissa Division was responsible for the largest decrease (Rs. 17,181), but partly, at least, this was due to the absence of serious epidemics which rendered certain expenditure unnecessary. The number of dispensaries maintained by the District Boards rose from 155 to 168, but the number aided by them fell from 142 to 138. Four new dispensaries were opened by the Shahabad District Board, two each by the Jessore District Board and the Sambalpur District Council, and one by each of the District Boards of the 24-Parganas, Nadia, Bhagalpur and Purnea; on the other hand one dispensary was closed in Darbhanga and one in Balasore. As in the previous year five temporary dispensaries (one being a floating one on the river Bhagirathi) were maintained by the District Board of Burdwan, and one (newly) in Birbhum for the distribution of medicines during the fever season, while in Saran and Darbhanga peripatetic medical officers were sent out for the same purpose. The District Boards of Murshidabad and Hazaribagh maintained no dispensaries, although they continued to subsidize various institutions maintained by municipalities. Looking to the well-known unhealthiness of portions of the Murshidabad district, the provision of greater facilities for medical attendance in rural areas would appear to be called for, and the Commissioner is requested to examine the point. Medical officers were deputed to attend at *hâts* in the Hooghly, Midnapore, Bhagalpur and Purnea districts, and the practice is deserving of more extended trial.

By the establishment of district depôts for the distribution of quinine, the charges incidental to which are ordinarily borne by District Boards, it was hoped to extend and popularise the use of the drug and enlist the co-operation of the members of District Boards in this result. The reports contain a certain amount of information upon the point, but it is somewhat desultory, and the main results achieved are difficult to ascertain. In future

reports it would be useful if the consumption of quinine from year to year was examined and compared, with the view of drawing attention to those areas in which little progress is being made. Thus in the Tirhut Division much seems to have been done to push the sale of quinine, but the results in Orissa are singularly disappointing, and the attention of the Commissioner is invited to the matter. The Civil Surgeon of Saran notes that the tablet form of quinine (which is of recent issue) is more popular than the pice powders, and the feasibility of his suggestion that the dosage should be marked on each packet will be separately enquired into.

The charges on account of measures for the prevention of plague fell from Rs. 32,965 to Rs. 28,643, the bulk of the expenditure being incurred in the divisions of Patna (Rs. 10,226), Tirhut (Rs. 12,988) and Bhagalpur (Rs. 5,079).

16. *Sanitation* (*Rs. 28,507*).—The annual expenditure increased by Rs. 1,844, which was shared by the Patna, Tirhut and Orissa Divisions. The largest expenditure was returned by the Gaya District Board (Rs. 6,519), Patna following with an outlay of Rs. 6,065, but looked at from the point of view of the work to be done, the Provincial expenditure is obviously insignificant. Various District Boards have now employed sanitary inspectors, and noticeably in Midnapore and Gaya, it is reported that good work was done by them, but there still appears to be a great want of system in the different attempts which are being made to tackle the problem of sanitation. It is to be hoped that through the agency of Union Committees it may be found possible to achieve something more definite, at least in the larger bazaars, and as mentioned last year, it is upon these that effort should in the first place be concentrated.

17. *Veterinary charges* (*Rs. 60,708*).—The total outlay under this head is increasing steadily, that during the previous year having been Rs. 48,016 only. The increase was common to all Divisions, and the general tenor of the reports indicates that progress is being made and that the services of the veterinary assistants are becoming more and more appreciated. The best results seem to have been achieved in the Tirhut Division.

18. *Famine Relief* (*Rs. 87,330*).—Relief operations were conducted by the Muzaffarpur and Bhagalpur District Boards which incurred expenditure of Rs. 20,418 and Rs. 22,072 respectively. In Bhagalpur the greater part (Rs. 18,380) was spent on charitable relief, but work to the extent of Rs. 1,05,570 (of which Rs. 45,511 was spent during the year under report) was done on the Tiljuga embankment from funds supplied by the Banaili and Srinagar estates. A refund of Rs. 13,405 was made by Government towards the expenditure incurred on gratuitous relief, and Rs. 6,441 was paid as half the cost of the relief works. The District Boards of Nadia and Darbhanga showed an outlay of Rs. 12,929 and Rs. 29,000 respectively under this head, but this was due to the adjustment of expenditure incurred in the previous year.

19. *Civil Works* (*Rs. 41,56,410*).—In comparison with the preceding year the expenditure under "Communications—Original works" was less by Rs. 3,44,519, while that under "Communications—Repairs" increased by Rs. 1,41,572. The total outlay of the year showed a decline of Rs. 2,26,986, which is in continuation of a decrease of Rs. 1,85,880 in 1908-09, as compared with 1907-08. There was no appreciable change in the total mileage of roads under the charge of District Boards. It is noticeable that in the Sewan Subdivision of the Saran District road repairs were reported to have been satisfactorily executed in some cases through the agency of the village *panchayats*; but, generally speaking, the work of the year presented no unusual features. The Commissioner of the Presidency Division complains of the failure of certain Boards to exercise effective supervision over their contractors, and remarks that while full information is available in the District Engineer's office it too often remains there and is not scrutinised by the Board. The matter is deserving of the keenest vigilance on the part of Chairmen and the Boards themselves.

20. *Water-supply and water-works* (*Rs. 167,209*).—As compared with 1908-09, the expenditure under "Original works" rose by Rs. 2,843, while

that under "Repairs" fell by Rs. 9,490, resulting in a decline of Rs. 6,647 in the total expenditure under this sub-head. In nine districts only out of 29, viz., in Birbhum, Nadia, Khulna, Patna, Shahabad, Muzaffarpur, Monghyr, Bhagalpur and Purnea did the expenditure on account of water-supply exceed Rs. 5,000, the standard which is regarded by Government as a minimum, although the attention of all District Boards has repeatedly been drawn to the necessity of improving the sources of water-supply in rural areas, the latest orders being contained in Government circular No. 7 T.—L.S.-G., dated the 24th May 1910. Unless local bodies will of their own initiative pay greater attention to this important item of local administration, the Local Government will be left with no alternative but to earmark for this purpose a portion of the grants which are made in aid of the resources of District Boards. Such a course will be adopted with reluctance, but it is impossible to acquiesce in the persistent disregard of the instructions in this matter. Scarcely less important than the construction of new wells and tanks is the maintenance of the existing sources in an efficient condition, and the repair and cleansing of wells is a matter in which much remains to be done. During the year under review expenditure on the repair of wells was reported from 12 districts only, the best results being attained in Muzaffarpur, where 451 wells were repaired, cleaned and disinfected at an outlay of Rs. 1,594. The cost of cleaning a well is not excessive, while if done systematically, excellent results as regards the public health may be anticipated from such a measure. As usual, however, instances are reported (noticeably in the Burdwan Division) of the obstinacy of private owners in opposing action by the District Board in the interest of their personal rights. As in the previous year, the Muzaffarpur District Board showed commendable activity in the matter of well boring, and operations were carried out in respect of 327 wells at a cost of Rs. 26,269. The Darbhanga District Board has also purchased boring tools, while in Monghyr Rs. 1,914 was spent in this direction. In Champaran boring appears to have been unsuccessful, but the experiment was conducted upon a very small scale.

21. *Drainage (Rs. 5,205).*—The expenditure under this sub-head was nearly double that of the previous year, but it is still insignificant. Such as it was, it was incurred by the District Boards of the 24-Parganas, Murshidabad, Khulna and Bhagalpur. The only important drainage work in progress, namely, the Magra Hât drainage scheme, is shown under Minor Works and Navigation. The estimated cost of this project is Rs. 20,98,898, and it is progressing towards completion with most satisfactory results. It is hoped that the scheme for the improvement of the Nawai and Sunthi rivers in the 24-Parganas will take final shape during the current year, but projects for the drainage of the Choraikole bheel in Nadia, and for the improvement of the river Bhairab and the drainage of the Arool bheel in Jessore still hang fire in a regrettable manner.

22. *Arboriculture (Rs. 52,345).*—The figures under this sub-head showed an advance of Rs. 8,723 over the expenditure of the previous year, and all District Boards, except Birbhum, incurred expenditure on this account. The outlay was largest in Patna (Rs. 7,073), Gaya following with an outlay of Rs. 6,353. The Patna District Board inaugurated the celebration of an Arbor day on the 9th August 1909, by planting trees round the Bankipore maidan and by the sides of roads, while it also introduced a system of tending road-side trees through the agency of the *zamindars* concerned, the District Board paying the wages of the *malis*. This Board derived an income from the sale of fruit, etc., of Rs. 1,691. In Saran, an attempt was made to enlist the assistance of the chaukidari *panchayats* in the subject of tree-planting by the offer of rewards, and the experiment is deserving of all success. Almost all the District Boards deputed sub-overseers to the Royal Botanic Gardens at Sibpur for training in arboriculture.

23. *Railways and Tramways.*—There was a fair amount of activity shown in the development of light railways, and the progress made with different projects is referred to briefly below. In the 24-Parganas the extension of the Barasat-Basirhat Light Railway from Baliaghata station to Patipukur was completed and opened in February 1910. The District Board of Nadia entered into an agreement with a private firm for the construction of a light railway

from Krishnagar to Jellinghee, but the sanction of Government to this agreement has not yet been given. A Renard train service was tried between Kotchandpur in Jessore and Shibnibash in Nadia for a few days, but it was not successful and was discontinued. In Patna the Bihar-Silao extension of the Bakhtiarpur-Bihar Light Railway was opened for traffic in July 1909, while in Gaya the question of the construction of a light railway from Gaya *viâ* Bodh Gaya to Sherghati is still under consideration. In Shahabad a start was made with the construction of the Arrah-Sassaram Light Railway in December 1909, and fair progress has since been made. The Dehri-Rhotas Light Railway, which is being constructed by Messrs. Octavius Steel and Company, is reported to have advanced satisfactorily. The Chapra-Musrakh extension of the Bengal and North-Western Railway was opened towards the close of the year, and land acquisition projects were submitted to Government for the proposed Thawe-Tewaripatti extension. Final orders have not yet been passed as regards the proposed direct line of railway from Muzaffarpur to Darbhanga, with a branch from Tewara to Sitamarhi, but the Bengal and North-Western Railway Company proposes to construct the Samastipur-Roserah line at an early date and land is being acquired for the purpose. A report has been drawn up by the District Engineer of Monghyr on the proposed light railway from Monghyr to Kharagpur, and will shortly be placed before the Board. The Board's share of the surplus profits in 1909 from the four guaranteed lines in this province was as follows, the figures in each case showing a satisfactory increase over those of the previous year :—

	Rs.
Howrah (Howrah-Amta line)	40,936
Hooghly (Howrah-Sheakhala line)	3,595
24-Parganas (Baraset-Basirhat line)	6,479
Patna (Bakhtiarpur-Bihar line)	5,199

24. *Contributions* (*Rs. 10,399*).—The figures under this head fell from Rs. 35,456 to Rs. 10,399, practically the whole (Rs. 9,892) of which was incurred by the Muzaffarpur District Board, representing the contribution paid to the local municipality on account of the surplus tolls of the Akhara-ghat pontoon bridge and its connected ferries.

25. *Debt* (*Rs. 6,94,008*).—The expenditure incurred under this head amounted to Rs. 6,94,008 only, in comparison with Rs. 15,09,409 in the preceding year, the result being mainly attributable to the decrease of Rs. 8,21,438 under "Deposits and advances." The major portion of the decrease was returned by the Nadia (Rs. 2,89,232) and Darbhanga (Rs. 2,80,934) District Boards, the adjustment of the advances on account of famine having been made during 1908-09.

26. *Closing balance* (*Rs. 23,99,701*).—The aggregate closing balances (including deposits) increased by Rs. 2,17,853, which was shared by the Burdwan, Tirhut and Orissa Divisions. The District Board of Nadia showed a closing balance of Rs. 39 only, the remainder of the balance consisting of unrepaid deposits, and as this can scarcely be regarded as a sufficient working balance the Commissioner is requested to enquire into the financial position of the Board. The deficit balance (—Rs. 897) in Palamau was due to the fact that the outstanding deposits were in excess of the total balance, and here also enquiry is called for. The District Boards of Burdwan, Midnapore, Hooghly, 24-Parganas, Saran, Muzaffarpur and Manbhum all closed the year with actual balances of more than a lakh of rupees, a sum which appears to be unnecessarily high and to denote bad financial control. At the same time the Commissioner of the Presidency Division draws attention to the fact that in the case of offices inspected by him more than half the gross annual income of the Board was paid out on the 30th and 31st March, and suggests that an enquiry should be made into the reason for this scramble for cheques at the close of the year, which it seems impossible to prevent. No doubt this is mainly due to the fact that the close of the financial year coincides with the middle of the working season, but it is largely a matter of organization and forethought, and it should be possible to secure better results than those noticed.

27. The following Vice-Chairmen of District Boards have been mentioned by the local officers for the good work done by them during the year:—

Khan Bahadur Maulvi Muhammad Shams-uz-zoha, Birbhum; Babu Bama Charan Ray, Bankura; Babu Sital Prasad Ghose, Midnapore; Babu Khirode Krishna Biswas, Hooghly; Rai Moni Lal Banerji Bahadur, 24-Parganas; Babu Biswambhar Ray, Nadia; Babu Amrita Sekhar Mukharji, Murshidabad; Rai Amrita Lal Raha Bahadur, Khulna; the Hon'ble Maulvi Sayed Zahiruddin, Patna; Mr. A. Halim, Gaya; Maulvi Anwar Ahmad and Maulvi Izhar Hussain, Shahabad; Babu Adwaita Charan Bose, Darbhanga; Mr. Morrison, Bhagalpur; Babu Gokulananda Chaudhri, Cuttack; Babu Radha Charan Das, Balasore; Mr. S. C. Dey, Palamau.

Special commendation has also been bestowed on the work of the following District Engineers:—

Messrs. Maynard, Edwards, Temple, Robinson, District Engineers of Gaya, Shahabad, Muzaffarpur, and Bhagalpur, respectively; Rai Nanda Gopal Banerji Bahadur, Manbhum; Babu Nagendra Nath Mitra, Cuttack; Babu Rasik Lal Hui, Khulna; Babu Gopal Lal Banerji, Hooghly.

The Lieutenant-Governor's thanks are due to these gentlemen, and generally to all who have co-operated in the work of Local Self-Government.

28. With reference to the work of the year generally, the Commissioner of the Burdwan Division does not consider that any special advance can be chronicled, and instances the failure to incur sufficient expenditure upon sanitation and water-supply, though he recognises the difficulties of lack of funds and opposition from private interests under which the Boards labour. In the Presidency Division the Commissioner is of opinion that, on the whole, the Boards have administered the funds placed at their disposal with prudence and promptness. The Commissioner of Patna notices the remarks of the District Magistrate of Shahabad that the resources of the Board have been spent upon the town of Arrah and its neighbourhood to an extent prejudicial to the claims of the outlying portions of the district, but, as Mr. Maude observes, the question is one of degree rather than principle, and it is impossible to dissociate the interests of the district entirely from those of the head-quarter town. The tendency complained of is not, however, new and it is requisite that it should be guarded against. In Tirhut the Boards are reported to exercise considerable influence and to take a commendable interest in their work, while the opinions expressed from the Orissa and Chota Nagpur Divisions are generally favourable.

29. The Lieutenant-Governor in Council has noted with satisfaction this consensus of complimentary opinion and trusts that the same standard may be maintained in future years. It is in respect of the improvement of the water-supply that the lines of policy followed by District Boards most require modification, and it is to be hoped that the causes of complaint on this score, which have not been infrequent in the past, may speedily disappear.

By order of the Lieutenant-Governor of Bengal in Council,

H. WHEELER,

Secretary to the Govt. of Bengal.

NOTIFICATIONS.

No. 62S.R.—The 26th January 1911.—In exercise of the power conferred by the first paragraph of section 79 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor in Council is pleased to declare that from and after the first day of April 1911, no boat not duly licensed and registered shall be allowed to ply as a cargo-boat for the landing and shipping of merchandise within the limits of the port of False Point or the port of Balasore, or any port subordinate to those ports, in the Orissa Division.

False Point.
Balasore.

2. Notification, dated the 30th November 1875, published at page 1463 of Part I of the *Calcutta Gazette*, dated the 1st December 1875, is hereby cancelled, with effect from the said first day of April 1911.

No. 63S.R.—The 26th January 1911.—In exercise of the power conferred by the second paragraph of section 79 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor in Council is pleased to prescribe the following rules with effect from the 1st April 1911:—

False Point.
Balasore.

Rules for the issue of licenses for, and the registration of, cargo-boats by the Chief Officer of Customs of the ports of False Point and Balasore in the Orissa Division.

1. Each application for the licensing and registration of a cargo-boat must contain particulars of the owner's name and residence and the tonnage of the boat.

2. The application shall be made to the Superintendent of Customs at False Point or the Collector of Customs at Balasore, as the case may be, and he shall, before granting the application, cause the boat to be examined and certify that she is sea-worthy.

3. The Superintendent or Collector shall, from time to time, cause all licensed cargo-boats to be surveyed; and, if any such boat is found to be unsafe, shall withdraw the license until the boat has been repaired to his satisfaction.

4. The Superintendent or Collector may at any time condemn any licensed cargo-boat found to be thoroughly unseaworthy, and may permanently withdraw the license granted therefor.

5. Fees not exceeding the sums hereinafter respectively mentioned shall be paid on the issue and renewal of each license granted under these rules:—

	Rs.
For cargo-boats not exceeding 10 tons' burthen ...	1
„ „ exceeding 10 and not exceeding 15 tons' burthen	2
„ „ exceeding 15 tons' burthen	3

6. All licenses shall be current for one year only from the date of registration thereof.

7. All licenses shall be registered in the order in which they are granted, but, when any license is permanently withdrawn, then the next license issued shall bear the number of the license withdrawn.

8. The number of the license must be painted in black figures on a white ground on both bows of every licensed boat, and these figures must not be less than six inches in length and four inches in breadth.

9. The license must be produced whenever demanded by any officer of Police or Customs or by any person using or hiring the boat.

10. Cargo-boats, the *manjhis* of which fail to produce their license in accordance with rule 9, may be treated as unlicensed boats, unless a satisfactory explanation for such failure is given to the Superintendent or Collector, as the case may be, or, in his absence, to the senior Revenue Officer at the station.

11. No cargo-boat shall be licensed unless she is provided with a sufficient crew, to be specified in the license.

12. The license of a cargo-boat found plying contrary to the conditions of such license shall be liable to cancelment.

13. If any license be cancelled for any reason, the holder thereof shall be bound to deliver it up to the Superintendent or Collector, as the case may be.

14. When employed in the service of vessels entering the port, the owners, *manjhis* and crews of all licensed cargo-boats shall obey all orders consistent with these rules and the Sea Customs Act, 1878, which are issued by the Superintendent or Collector, as the case may be.

15. When any vessel arrives in the port, and requires the services of cargo-boats, the Superintendent or the Collector, as the case may be, may, with or without an application from the agents, owners, or master of such vessel, apportion a certain number of licensed cargo-boats for the service of the vessel.

16. Whenever the Superintendent or the Collector, as the case may be, considers that the weather is too bad for work to be carried on alongside a vessel in port, he shall cause a storm signal (cone or drum) to be hoisted, and licensed cargo-boats shall not be bound to ply while such signal is flying.

17. All licensed cargo-boats must carry a crew upon the following scale :—

Class 1st.—Square-built, open or decked.

For a boat of not more than 15 tons' burthen, 5 men, including a *manjhi*.

" " above 15 tons and under 20 tons 6 " " "

No. 648.R.—The 26th January 1911.—In exercise of the power conferred by the first paragraph of section 79 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor in Council is pleased to declare that from and after the first day of April 1911, no boat not duly licensed and registered shall be allowed to ply as a cargo boat for the landing and shipping of merchandise within the limits of the port of Puri, or any port subordinate thereto, in the Orissa Division.

Puri.

2. Notification dated 3rd May 1875, published at page 537 of Part I of the *Calcutta Gazette* of the 5th idem, is hereby cancelled with effect from the said first day of April 1911.

No. 658.R.—The 26th January 1911.—In exercise of the power conferred by the second paragraph of section 79 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor in Council is pleased to prescribe the following rules with effect from the 1st April 1911:—

Puri.

Rules for the issue of licenses for, and the registration of, cargo-boats by the Chief Officer of Customs of the port of Puri in the Orissa Division.

1. Each application for the licensing and registration of a cargo-boat must contain particulars of the owner's name and residence and the measurements of the boat.

2. The application shall be made to the Collector of Customs at Puri, who shall, before granting the application, cause the boat to be examined and certify that she is sea-worthy.

3. The Collector shall, from time to time, cause all licensed cargo-boats to be surveyed: and, if any such boat is found to be unsafe, shall withdraw the license until the boat has been repaired to his satisfaction.

4. The Collector may at any time condemn any licensed cargo-boat found to be thoroughly unseaworthy, and may permanently withdraw the license granted therefor.

5. A fee not exceeding the sum of Rs. 2 shall be paid on the issue and renewal of each license granted under these rules.

6. All licenses shall ordinarily be current from the date of registration thereof to the 31st March next following. All licenses shall expire on 31st March.

7. All licenses shall be registered in the order in which they are granted; but, when any license is permanently withdrawn, then the next license issued shall bear the number of the license withdrawn.

8. The number of the license must be painted in black figures on a white ground on both bows of every licensed boat, and these figures must not be less than six inches in length and four inches in breadth.

9. The license must be produced whenever demanded by any Officer of Police or Customs or by any person using or hiring the boat

10. Cargo-boats, the *manjhis* of which fail to produce their license in accordance with rule 9, may be treated as unlicensed boats, unless a satisfactory explanation for such failure is given to the Collector, or, in his absence, to the senior Revenue Officer at the station.

11. No cargo-boat shall be licensed unless she is provided with a sufficient crew, to be specified in the license.

12. The license of a cargo-boat found plying contrary to the conditions of such license shall be liable to suspension for a period not exceeding six months, or to cancellation, at the discretion of the Collector.

13. If any license be suspended or cancelled for any reason, the holder thereof shall be bound to deliver it up to the Collector.

14. When employed in the service of vessels entering the port, the owners, *manjhis*, and crew of all licensed cargo-boats shall obey all orders consistent with these rules and the Sea Customs Act, 1878, which are issued by the Collector.

15. When any vessel arrives in the port, and requires the services of cargo-boats, the Collector may, with or without an application from the agents, owners or master of such vessel, apportion a certain number of licensed cargo-boats for the service of the vessel.

16. Whenever the Collector considers that the weather is too bad for work to be carried on alongside a vessel in port he shall cause a storm-signal (high-surf square flag with alternate small squares of red and white) to be hoisted, and licensed cargo-boats shall not be bound to ply while such signal is flying.

17. All licensed cargo-boats must carry a crew of eight men, including a *manjhi*.

18. If any licensed cargo-boat is found plying within the limits of the port with a crew below the number prescribed in rule 17, or with deficient tackle or appliances or insufficient dunnage, the license granted therefor may be withdrawn until such deficiency is made good to the satisfaction of the Collector.

19. No cargo-boat laden with cargo shall ply by night without the permission of the Collector.

20. During the fair season, *i.e.*, from the 20th October to the 10th of April each year, the full load for a licensed cargo-boat plying from the shore to the anchorage shall be 50 maunds (25 bags of rice) and during the rest of the year the full load for such cargo-boat shall be 40 maunds (20 bags of rice).

No. 678.R.—The 30th January 1911.—In exercise of the power conferred by section 155 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor in Council is pleased to direct that the following amendment be made in the rules for denaturing spirit, published under Part I of Notification No. 7488.R., dated the 8th December 1910, at page 1741 of Part I of the *Calcutta Gazette of the 14th idem*, namely:—

NOTIFICATION

MERCHANT SHIPPING.

The 21st January 1911.

No. 412-5.—Under the provisions of sections 65 and 89 of the Merchant Shipping Act (57 and 58 Vict., Cap 60), the Governor-General in Council is pleased to direct that the forms referred to in the letter from the Board of Trade set forth below shall be adopted in British India for the registry of British ships under the said Act.

BOARD OF TRADE,
Marine Department,
7, Whitehall Gardens,
London, S. W.
3rd December 1910.

M. 27,036.

SIR,

I am directed by the Board of Trade to state, for the information of the Earl of Crewe that the form of certificate of survey (certificate of tonnage measurement, form Survey, 59) issued under Section 6 of the Merchant Shipping Act, 1894, has recently been revised, and the certificate of registry of a British ship and the transcript of register (Forms Registry 9 and 19) have in consequence been revised also.

It will be seen that the principal alteration consists in the insertion of a note stating the actual tonnage of the engine room spaces below the upper deck and the tonnage of the total spaces framed in above the upper deck for propelling machinery and for light and air. The object of this is to obviate the remeasurement of British vessels in ports of foreign countries (particularly the United States of America) whose tonnage regulations are not identical with those in force in the United Kingdom. The only other change in the forms consists in a slight alteration of the wording of note 2 (formerly the sole note).

In the interests of uniformity it is very desirable that the same forms and instruments should be used in connection with the registry of ships at all ports of British registry, and the Board would therefore suggest, for the consideration of the Secretary of State, that the forms accompanying this letter might be forwarded to the Indian authorities with a view to their taking steps to bring the new forms into use as soon as possible.

I am to add that, as the main alteration in the forms affects only steamers, there is no objection to the present stocks of forms being used up in connection with the registry of sailing ships, should such a course be desired in order to avoid waste.

I have, etc.,
WALTER J. HOWELL.

The Under Secretary of State,
India Office.

NOTICE.—A Certificate of Registry is not a document of Title. It does not necessarily contain notice of all changes of ownership and in no case does it contain an official record of any mortgages affecting the ship.

In case of any change of ownership it is important for the protection of the interests of all parties that the change should be registered according to law. Should the Vessel be lost, sold to Foreigners, or broken up, notice thereof together with the Certificate of Registry, if in existence, should immediately be given to the Registrar of Shipping at the Port of Registry under a penalty of £100 for default.

HIGH COURT NOTICE.

NOTIFICATION.

THE following rule passed by the High Court of Judicature at Fort William in Bengal is published for general information.

By order of the High Court,
R. L. ROSS, *Registrar.*

HIGH COURT, *the 27th January 1911.*

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

(APPELLATE CIVIL JURISDICTION)

IT is ordered that Rule V at page 15, Chapter IV, Part II, under the head "Appeals to the Privy Council," of "The Rules of the High Court, Calcutta, Appellate Side," be amended by inserting the words and figure "or rule 8" after the word and figure "rule 3" appearing therein before the words "of the Code of Civil Procedure."

And it is ordered that the following two additional Rules be inserted after Rule XXI at page 20, Chapter IV, Part II of the said Rules:—

"XXII. On the admission of an appeal to His Majesty in Council, whether by the order of this Court under Order XLV, rule 8, of the Code of Civil Procedure, or by an Order of His Majesty in Council giving the appellant special leave to appeal, notice of such admission shall, at the cost of the appellant, be given by this Court to all the Respondents, whether they have entered appearance or not, and the Registrar of this Court shall transmit to the Registrar of His Majesty's Privy Council with the transcript record of the case, or as soon thereafter as practicable, a certificate that notice of such admission has been given to all the respondents."

"XXIII. After the despatch by this Court to the Privy Council of the transcript record in an appeal to His Majesty in Council, duly admitted by this Court, or by an Order of His Majesty in Council giving special leave to appeal as aforesaid, notice of such despatch shall, also at the cost of the appellant, be given by this Court to all the respondents whether they have entered appearance or not, and the Registrar of this Court shall, as soon as practicable thereafter, transmit to the Registrar of His Majesty's Privy Council a certificate that such notice has been given to all the respondents."

And it is further ordered that the numbering of Rules XXII, XXIII and XXIV now appearing at pages 20 and 21, Chapter IV, Part II of the said Rules, be altered to XXIV, XXV and XXVI, respectively.

The 27th January 1911.

Sheriff's Office, the 18th January 1911.

NOTICE is hereby given that the First Criminal Sessions of the year 1911 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be held at the Court House, in the Town of Calcutta, on Monday, the sixth day of February next, at 11 o'clock in the forenoon, and thenceforward from day to day until the said Sessions be over. CUSTOMS BRANCH.

No. 216B.

NOTIFICATION.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 14th January 1911.

In exercise of the power conferred by section 75 of the Sea Customs Act, 1878 (VIII of 1878), the Board of Revenue makes the following rules for the realization of Customs duty on articles imported by His Majesty's Letter or Parcel Mails over sea into Calcutta, in supersession of the rules published under Notification No. 1556 B., dated the 11th March 1907, at page 456 of the *Calcutta Gazette*, Part I of the 13th idem, namely:—

1. On the arrival of any mail, the Collector of Customs shall depute a Customs Officer to attend at the post office for the purpose of assessing to duty articles imported by such mail.

2. The Customs Officer shall deal with all parcels, and with such letters as have been detained by the Post Master under the Regulations of the Post Office for the time being, for examination.

3. (1) Two separate lists shall be made out in the post office, before the arrival of the Customs Officer, one in respect of all parcels, and the other in respect of all such letters as are detained, the particulars of such lists being obtained from the declarations accompanying the parcels or from the covers of the letters, as the case may be. The list in respect of the Parcel Mail shall be made out in the annexed Form A, in *duplicate*, by the carbon process, while the list in respect of the Letter Mail shall be made by entries in a register in the annexed Form B. In the case of both these lists the columns for Description of Contents, Customs Valuation, and Customs Duty, shall be left blank, and shall be filled up by the Customs Officer.

(2) In addition to the lists referred to in sub-rule (1), which shall be made out by the post office, the Customs Officer shall, in the case of the Letter Mail, keep a further register in the annexed Form C.

4. (1) The Customs Officer shall, on his arrival, examine Forms A, B, and C, fill in any details therein that may be wanting, and assess the parcels and letters to duty, entering the duty on the respective Forms.

(2) In assessing the duty payable on parcels, the Customs Officer shall ordinarily be guided by the sender's declaration accompanying the parcel, but he may have any parcel opened for examination at his discretion.

(3) Letters and insured parcels must be opened, under the Regulations of the Post Office for the time being in force, in the presence of the addressee, or a duly authorised agent of the addressee, or of an Assistant Post Master.

(4) The Customs Officer shall call upon the Post Master to detain any parcel or letter upon which the Collector's orders may be required.

5. (1) When the assessment is completed, the Customs Officer shall sign both the original and duplicate copy of Form A and the register in Form B, and shall hand to the post office the *duplicate* copy of Form A, from which the necessary entries shall be made on the parcels by the post office for collection of duty at the time of delivery.

(2) In the case of letters, duty shall be collected at the post office after assessment from the entries in the Letter Mail Register (Form B).

(3) The original of Form A, and a credit slip in Form D, being a summary of the entries in the Letter Mail Register (Form B), shall be made over to the Accountant of the Custom House, who shall enter the total amount of duty shown in each form in a register specially kept for the purpose, and shall strike the total of such amounts for each month. From this total shall be deducted any refunds paid by the Post Office, with the sanction of the Collector of Customs, to the addressees of the parcels; and the net total shall then be credited as import duty by *per contra* debit to the Post Office.

3. (*a*) Government reserve the power to sell separately the chests which are declared for shipment to China, and the chests which are not so declared;

(*b*) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government;

(*c*) Subject to three months' notice of any change, the number of chests so marked and covered will not be more than 16,440 in 1911; and the number of chests to be sold for China and otherwise in each month will be notified before the commencement of the month's auction.

The following are the conditions of sale. The Board of Revenue reserve to themselves the right of altering all or any of these conditions after giving three months' previous notice :--

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the 5th day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or

his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained ; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue :—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1909-10, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

H. L. STEPHENSON,

CALCUTTA,
The 14th January 1911.

NOTIFICATION.

THE following draft bye-laws which have been framed by the members of the Manbhum District Board, under section 139 of the Bengal Local Self-Government Act, III of 1885, and which the Commissioner proposes to confirm under rule 5 (1) of the rules promulgated with Government Notification No. 764T M., dated the 7th September 1910, are published for the information of persons likely to be affected thereby.

2. The draft bye-laws will be taken into consideration on the 15th March 1911, and any objection or suggestion received by the undersigned, through the Chairman of the Manbhum District Board, before that date, will be duly considered:—

DRAFT MODEL BYE-LAWS.

Definitions.

1. In these bye-laws, unless there is anything repugnant in the subject or context— Definitions.

(1) the word "cattle" has the same meaning as in the Cattle-trespass Act, 1871; I of 1871.

(2) "reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes, and includes any reservoir, or part of any river, *khal* or other channel, so set apart; and a notice-board on the edge of a reserved tank or well, containing the words "reserved tank" or "reserved well" or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition; and Bengal Act III of 1885.

(3) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well; and

(4) "road" means a road vested in, or under the control and administration of, the District Board or a Local Board; and includes—

(*a*) a village road;
(*b*) the slope, berm, borrow-pits and side-drains of a road; and
(*c*) all land vested in, or under the control and administration of, the District Board or a Local Board, and attached to a road

Roads, Drains, Bridges, Canals and Embankments.

Encroachment or obstruction on a road.

2. (*1*) No person shall encroach on any part of a road by cultivating crops thereon.

(*2*) No person shall, on any road, by means of any building, fence, pit, embankment or ditch or any other obstruction, or by means of any cut, drain or water-course intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, make or cause any encroachment, or
(*b*) obstruct traffic, or
(*c*) cause any inconvenience to passengers, or
(*d*) hinder or impede the flow of water.

Sale, collecting or gathering of articles in vicinity of road.

3. No person shall expose or place any article for sale in any bazar or market in the vicinity of any road, or collect or gather any articles in the vicinity of a road, so as to interfere with the traffic of the road.

Cutting of plants, trees or hedges obstructing road or drain.

4. Any person in possession of, or having control over, any plants, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice, or any drain which is connected with a public drain, shall, if so required by notice in writing, signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges, within the period, and in the manner, prescribed in such notice.

Damage to bridges, culverts, or causeways on road.

5. (*1*) No person shall destroy or damage, or cause to be destroyed or damaged, any bridge, culvert or causeway built on or across any road.

(*2*) No person shall erect any fence or other object on, or before or close to the opening of, any such bridge, culvert or causeway, for the purpose of fishing or for any other purpose, so as to impede the free flow of water thereunder, or so as to cause damage thereto.

(*3*) No person shall cast nets for fishing purposes from any parpet of any such bridge or culvert.

Damage to fences, posts, soil, turf or grass on road.

6. No person shall—

(*a*) destroy or damage, or cause to be destroyed or damaged, any fence or post erected on any road; or

Channel across road.

7. (*1*) No person shall cut a channel, or convey water by a channel, across a road, except with the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, and in such manner as he may prescribe.

(*2*) Any person who has been permitted by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, to cut a channel across a road, shall, at the time prescribed by him, cover or refill the channel so as to restore the road to its former condition.

(*3*) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

Obstruction of waterway adjoining road.

8. No person shall obstruct any waterway adjoining a road so as to injure or tend to injure the road or otherwise to render the road impassable.

Excavations on or near road.

9. (*1*) No person shall make any excavation on any road, or any hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer.

(*2*) Every person by whom, or by whose direction, any hole, pit, tank or well has been excavated within fifteen feet of a road shall be bound to take such order therewith as will prevent damage to, or erosion of, the road.

Protection of excavations on or near road.

10. The owner or occupier of any tank, well, or other excavation on or near the side of any road shall be bound to fence in or duly protect such excavation in such manner as may be directed by notice signed by the Chairman or Vice-Chairman of the District Board or a Local Board.

Use of roads, bridges, culverts or canals while closed to traffic.

11. No person shall pass over, or drive any animal or vehicle over any road, bridge, culvert or canal, so as to injure the same, while it is under construction or repair or is affected by flood or is otherwise rendered unfit for traffic and is closed to traffic under the orders of the Chairman of the District Board or a Local Board, or (in emergent cases, pending application to such Chairman) of the District Engineer, if a passage is given to the traffic, through another part of the road or otherwise.

Discharge of rainfall from roof to road.

12. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, allow the rainfall from the roof of any building owned or occupied by him to be discharged upon any road by means of a spout or other thing intended for the conveyance of water.

Flow of filth on to road.

13 No person shall allow the water of any privy or any matter offensive or deleterious to health to flow on any road.

Removal of trees or erections falling on to road.

14. Any person owning or possessing a tree or a house, wall or other erection which has fallen, or part of which has fallen, on to a road, shall, if so required by notice in writing signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, remove such tree, house, wall, erection or part, within the period prescribed in such notice

Curing hides on or near road.

15. No person shall cure hides on or within 100 yards of any road.

18. No person shall steep any jute, hemp, bamboos, hides or other offensive matter in any drain, borrow-pit or excavation at the side of any road.

Flying kite on road.

19. No person shall fly a kite on or over any road.

Rule of the road.

20. (*1*) Any person driving a vehicle along a road, and meeting another vehicle, shall keep on the left or near side of the road, so as to allow sufficient room for the other vehicle to pass.

(*2*) No person driving a vehicle along a road and overtaking another vehicle shall attempt to pass the latter vehicle otherwise than on the right or off side of the road.

Freedom of road.

21. No person shall prevent any other person from passing along a road, or shall otherwise interrupt the free use of a road.

Care of animals on road.

22. (*1*) No person in charge of, or having control over, any animal used for riding or draught shall allow such animal to stand or wander on any road without a rider or driver.

(*2*) No person in charge of, or having control over, any cattle shall allow such cattle to stray or lie on any road so as to cause inconvenience or danger to any person travelling on the road.

(*3*) No person shall tether any cattle on, or within reach of, a road, or stall cattle or allow cattle to graze on a road.

Elephants and camels on road to have bell.

23. Every person owning, riding, driving or in charge of any elephant or camel proceeding on a road, must see that such elephant or camel is provided with a bell, and with a light also if such animal is proceeding on a road after nightfall.

Taking elephants over road, embankment, bridge or culvert.

24. No person driving or in charge of an elephant shall—

(*a*) cause material injury to a road, or to an embankment vested in the District Board or a Local Board, by taking the elephant over the same; or

(*b*) take the elephant over a bridge or culvert vested in the District Board, or a Local Board, unless the same be constructed of arched masonry.

Removal of elephants or camels from road to admit passage of horses.

25. Every driver of an elephant or camel shall, on being so required by the rider or driver of a horse, remove such elephant or camel with reasonable promptitude to a sufficient distance from the road, to allow such horse to pass safely along the road.

Care of vehicles on road.

26. (*1*) No person shall drive or have in his charge on any road more than one vehicle at a time.

(*2*) No person in charge of, or having control over, any vehicle shall allow it to stand unattended on any road.

(*3*) No person shall leave a vehicle standing on a road for any longer time than is necessary for loading or unloading it.

(*4*) No person shall drive upon a road any vehicle laden with bamboos, planks or other materials of a similar character which exceed twelve feet in length and project beyond the vehicle, unless the vehicle be accompanied also by another person.

(*5*) All owners and drivers of vehicles loaded with bricks or other materials shall be responsible for their being so secured that the contents thereof may not fall down on any road.

(*6*) If any vehicle breaks down on a road, the driver shall remove it to the edge of the road without delay, and shall, within a reasonable time, remove from the road all

materials (if any) which have fallen from the vehicle, and shall place the vehicle in such a position that it will not obstruct traffic.

(7) No person shall lead or drive any vehicle up or down the slopes of any road, except at crossings fixed by the District Board.

Carrying bamboos or *bullahs* on cart on road.

27. No person shall carry bamboos or *bullahs* on a cart on any road in such a manner as to scrape the road, or to cause injury or annoyance, or risk of injury, to travellers thereon.

Width of tyres.

28. After the first day of April 1911, no bullock cart shall travel on any road, unless the iron tyres of the wheels, or (in the case of carts not having iron tyres) the wooden rims of the wheels, are two inches or more in width :

Provided that this bye-law shall not apply to carts, owned by residents of other districts, which do not ordinarily ply within the Manbhum district but merely pass through that district.

Separate tracks for cart traffic and carriage traffic.

29. Where separate tracks on roads have been set apart for carts and carriages, respectively, no cart shall be permitted to pass over the portion reserved for carriages.
